one need be deceived in regard to his preparations. Dr. Gro. H. KEYSER :- I became affected with Piles about twenty years ago, and every year they were growing worse, so as to trouble me All Sizes! All Candidates! very much, so much so at times as to unfit me or work. Sometimes I was so bad that I could do ot anything account of them, they came on out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in sire lars and pamphlets that fell in my way, but I could not get cured, sometimes they would do me some good for a little while, but afterwar they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year agg not an advertisement of your Lindsay's Blood-Searcher, made by yourself-when you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then call ed to see you again, when you said I could n

expect much benefit from one bottle. I bought

it on, one bottle at a time, until I have bottles. After this quantity had seen used, I was entirely well of the Piles, which had torturd me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is no ppearance of a return of the disease; I can do any kind of farming work now without the Piles coming down and hurting me. I can pitch hay, chop wood, lift, or do any kind of work which before used to hurt me. When I ound out your Blood-Searcher I kept on taking

NOTICE TO ALL CONCIGNED—
Among a certain class of self-important prople there is a peculiar feeling of contempt attacled to all physicians that advertise and treat the diseases named in this card, (Private Diseases), why this should be, they nor no one class can tell. Are they not aware that all physicians treat diseases of every denomination, in fact solicit just the very diseases that are so obnoxious to those very refined parties. I suppose they would not to not of their family go to a party that has devoted years for their benefit, because he salverises the fact, and their family unitidized any hears see the fact, and their family unitidized any hears. let one of their family go to a party that has devoted years for their benefit, because he redvertises the fact, and their family physician any he is a humbing so he can get the case. Often he has almost deprived the party of his life. He comes at last to the physician that advertises—how elso are they to know it are to his life. He comes at last to the physician that advertises—how elso are they to know it are the not warm that her Astley Cooper, Sir Benjamin Brodle, Sir Charles Ball and M. Paul Ricord devoted years in the treatment of these diseases i These men are held up as shining lights in the medical world; I don't assert that all men are worthy that publish, still there are agreat number of them that are. I have devoted myself to the study and treatment of Paivara Direases upwards of 40 years, and without egotism can say I have caved hundreds from years of misery and untimely death. By treatment is confined to the vegetable altogether, as I think it is the best and most certain. It is in my power to bring fundreds of certificates if thought it necessary to certify to my general success: but my long residence in this city is sufficient proof without adding more. Speumatorthea and all diseases arising from it are cured in a much shorter time than heretofore. It behooves every young man and woman to be careful in selecting a physician. The tilferent advertisement; that are seen in our papers are of no worth, and no-henefit will arise from answers than only loss of health and money. Hundreds are citred an institute of the papers are of the strength of the papers.
