Among a certain class of self-important people there is a peculiar feeling of contempt attached to all physicians that advertise and treat the diseases named in this card, (Privars Diseases,) why this should be, they nor no one cise can tell. Are they not aware that all physicians treat diseases of every denomination, in fact solicit just the very diseases that are so obnoxious to these very refined parties. I suppose they would not lat one of their family go to a party that has do-yoted years for their benefit, because he adverti-set the termination of their family go to a party that has do-yoted years for their family powers. roted years for their benefit, because he advertises the fact, and their family physician says he is a humbug so he can get the case. Often he has almost deprived the party of his life. He comes at last to the physician that advertises—how size that Sir Astley Oobjer, Sir Bedjamfu Brodle, Sir Charles Ball and M. Paul Ricord devoted years in the treatment of these diseases? These men are held up as shining lights in the medical word; I don't assert that all men are worthy that publish, still there are a great number of them that are. I have devoted myself to the study and treatment of PRIVATE DISEASE upwards of 40 years, and without egotism can eay I have saved hundreds from years of misery and untimely death. My treatment is confined to the vegetable altospher; as I fhink it is the best and most certain. It is in my power to bring hundreds of certificates if I thought it necessary to certify to my general success: but my long residence in this city is sufficient proof without adding more. Spormatorthea and all diseases srising from it are curred in a much shorter time than heretofore. It behooves every young man and woman to be careful in selecting a physician. The different advertisements that are seen in our papers are of no worth, and on benefit will arise from answers than only loss of health and money. Hundreds are cured annually by my new remodies. In other days I used to fead of such scenes in other countries with the proud and joyous thought that they could never be re-enacted in this then free and happy land. But we have them upon us now, with all their froidents of terror and wrong, and all their harvest of us now, with all their incidents of terror and wrong, and all their harrest of blood and ruin. I have faith, however, notwithstanding the vist power of our tyrants, their unlimited means of our ruption, and the extent to which they have cowed the manhood of our people, that the great day of deliverance is at hand, and that in less than five months more the Constitution will segain be a sacred thing—that the Union will be restored in its former strength and completeness, and that the bow of peace and prosperity will once more be spread over this afflicted and blood-stained land.

A STINGING INDICTMENT.

President Lincoln at the Bar-Views of Judge Waterbury.
A distinguished citizen of New York, Judge Waterbury, has just written a public letter from which we take the following:

By Abraham Lincoln hundreds of clerks in the departments at Washington have been employed for weeks, to the neglect of their official dutics, in addressing partisan documents and performing other partisan labor.

In consequence, the widows and orphans of deceased as ldiers suffer want and misery, because the pitiful pittance awarded to them in recompense for their slain husbands and fathers, is withheld, while the pension clerks work to perperuate the power of the man who sacrificed those in whom they had a natural and a sure religence.
