40-MORROW DEMOCRATS: TOE" "Once more unto breach; dear friends Once more."

There is little use, at this late day, to attempt to make votes by argument; the time for talking and writing has gone, and the hour for action has begun, But still, in order to slimulate our Deniocratic readers to greater exertion we wish to impress upon them what we all are to expect in the event of Lincoln's re-election. That he is base enough for any act of usurpatian, requires no proof He commenced his Presidential caree by declaring before God- and man that he had no power and no inclination to interfere with the local institutions of the States; and yet he is now engaged in slaughtering the white millions o the North, not only for the purpose of interfering with the local institutions o the South, but for the Southern people' extermination. Here are his words ex pressive of his determination to carry on war until the Southern people adopt his ideas of Abolition:

ideas of Abolition:

"Any proposition which embraces the restoration of peace, the integrity of the whole Union, and the abandonment of slavery, and which come by and which the authority that can control the armies now at war against the United States, will be received and considered by the Executive Govornment of the United States, and will be met by liberal terms on other and substantial and collateral points, and the bearer or bearers thereof shall have safe conduct both ways."

The reador will proved to the the test of the test of the united States and substantial and collateral points, and the bearer or bearers thereof shall have safe conduct both ways."

The reader will perceive that what Lincoln demands first, before even ne gotiations for peace will be listened to. is the abandonment of slavery; he is therefore sacrificing our lives and treasure for that purpose, and not for the restoration of the Union. If the people expect slaughter and taxation for at least four years to come; and then, as Gen. Scott predicted, a military despotism reared upon the views of our Re-

Movements of Grant's Army. Under the pretense of fighting for the Union, Abraham Lincoln, is sacrificing the lives of our countrymen and filling the land with widows and orphans; and all to carry out a fanatical idea of negro emancipation and to retain himself in power. General Grant has, since he took command of the Potomac Army, recklessly slaughtered more than a hundred thousand men, and all to no purpose. He is now, notwithstanding this immense sacrifice of human life, no nearer Richmond than Gen. McClellan was two and a half years ago. And instead of there being any probability of his getting any nearer, we had it authoritatively announced in Saturday's Da- est to man, home, family, friends, lie pers that "the situation of his army was unchanged" and that the "men were engaged in building log houses," preparatory to going into winter quarters. Here then is an end to Grant's famous

campaign, which was to result in the sure destruction of Lee's army and the capture of the rebel capital. One hundred thousand men absolutely butchered in order to experiment, and behold the result. The balance of the army is going into winter quarters, to wait for reaforcements by conscription, soon after the re-election of Abraham Lincoln, provided the people are so far gone in fanaticism as to will it.

The same day's telegrams, which an nounced the Potomac army going into winter quarters, also informed us that no less than 24,000 soldiers were sent rom the Washington Department to ake part in the election to-morrow. Where these men were sent to is not stated: but the necessities of the Administration know the exact locations in which to place them. Their late expeience in the State of Indiana shows them o be adepts in all the villainous practices necessary to illegal voting. And this is but a part of the machinery instituted by a usurping President to manage the election, as he styles it "in his own

Vice-President, he told them that by the Constitution and Laws, the President is charged with no duty in the conduct of a Presidential election in any State; nor do I, in this case, perceive any reason for his military interference in

the matter." Here we have another exhibition of Lincoln's mode of managing the election, which is that of a sneaking and the most iniquitous administration that lying usurper. He can not restrain his dog, Andy Johnson, from usurping the people's right in Tennessee, because he says the Constitution gives him no such power; but he finds power immediately to imprison two poor devils for life, because of their attempt to deprive him of a few hundred votes.

By communications, attested by sflidavits of responsible citizens, it will be seen Sthat Lincoln's hireling at the Alllegheny Arsenal has brought all his power to bear to compel the workmen thefe to vote for his master.
