TOTICE TO ALL CONCERNED—

The Among a certain class of self-important peo
ple there is a peouliar feeling of contempt attached to all physicians that advertise and treat the

diseases named in this card, (PRIVATE DESARDE),
why this should be, they nor no one else can tellthe tell post aware that all physicians treat dis
eases of every denomination, in fact solicit just
the very diseases that are so olmovious to these
very refined parties. I suppose they would not
let one of their family go to a party that has devoted years for their benefit, because he adverti
test the fact, and their family physician says he is
a humbug so he can get the case. Often he has
almost deprived the party of his life. He comes
at last to the physician that sivertises—how else
are they to know! Are they not aware that Sir
Astley Ocoper, Sir Benjamin Hrodle, Sir (Thatles

Ball and M. Paul Ricord devoted years in the
treatment of these diseases! These men are held
up as shining lights in the medical world! I don't
assort that all men are worly that publish, still
there are agreat number of them that are. I have
devoted myself to the study and the streatment of these than the result of the study that publish, still DR. KEYSER will give his personal attention to the aplication of Trusses in adults and children and he is satisfied that, with an experience o twenty years, he will be enabled to give satisfac

TWENTY YEARS STANDING R U NEW

CURED.

Below will be found a certificate from the one of most respectable citizens of Wilkins township is regard to Dr. Reyser's Lindsay' Blood Searcher. The Doctor's certificates are within reach, and no one need be deceived in regard to his preparations. DR. GEO. H. KEYSEE :- I became affected with Piles about twenty years ago, and every year they were growing worse, so as to trouble me All Sizes! All Candidates!! very much, so much so at times as to unlit me or work. Sometimes I was so bad that I could do ot anything account of them, they came o out on me as large as a hickory nut. I had tried a great deal of medicine for them. I used to buy and take whatever I could hear of or read of in circulars and pamphlets that fell in my way, but I could not get cured, sometimes they would do me some good for a little while, but afterwar they would return again as bad as ever. I also applied to two Doctors who visited me at my house and gave me some medicine but it would not do, I could not get well. Over a year age. not an advertisement of your Lindsay's Blood-Searcher, made by yourself-when you sold it to me you told me one bottle would not cure me, and that my whole system would have to be renewed by the medicine before I got well. I bought one bottle and took it home with me and used it according to your directions. I then call | 3 expect much benefit from one bottle. I bought sexpect much benefit from one bottle. bottles. After this quantity had seen used, I was entirely well of the Piles, which had torturd me for twenty years. In other respects my health is improved, and I am as well as could be expected for one of my age, being sixty years past. I have been well now for six months, and there is noappearance of a return of the disease; I can do any kind of farming work now without the Piles coming down and hurting me. I can

From the N. Y. Evening Post. HOW THE POOR LIVE IN ENG.

LAND.

very interesting tables a continuous get from a scruting of his report we get some curious glimpses of the laboring man's life in overrowded England. "Housekeeping" is reduced amongst these unfortunates, to narrow limits. All kinds of wretched economies, are adopted which are rightful to read of.
The laborer, it seems, as a rule, consumes much the larger share of the food The laborer, it seems, as a rule, consumer much the larger share of the food this at an expense in money of about sumes much the larger share of the food this at an expense in money of about street the sum of the household of which he is the head. In the poorer districts he cats "nearly all the meal and bacon," and Dr. Smith relates that the quantity and also the nutritive quality of the food "obtained by the wife, oand also the nutritive quality of the prise, has given her all the food "obtained by the wife, oand also the nutritive quality of the prise, has given her all the food "obtained by the wife, oand also by the children at the period of rapid growth," is often insufficient to keep them in health. Bread and potatoes appear to be the chief article of diet. In many parts of England, the laborer is an end workmen, and coffins are furnished to the dead. His Buttord many parts of England the laborer is still paid in kind, and receives part of his wages in wheat or flour. White flour is pieterred before that of darker dommission has appplied here illurally. The most eminent of the musical profession of New York city, after frequent and thorough trials of my New Scale Piano Fortes, havegiven me the most emphatic and unqualited testimonials. The following is a specimen of the voluntary testimony I am constantly receiving from gentlemen entirely distinterested, and as all will acknowledge most thoroughly qualified to judge of the merits of a Plano Forte.

"We have examined with much core, Mr. WM."

still paid in kind, and, receives part of two parts of the musical profession of the ments of the musical profession of the ments of the musical profession of the ments of the ments of the ments of the ments of a Plano Forte.

"We have examined with much core, Mr. WM."

a luxury, but is used in nearly all cases a luxury, but is used in nearly all cases present is fifty seven all sick. I the average rate of only half a little above the average pound per head, weekly! It is held by there is constant coming and pung. pound per head, weekly! It is held by there is constant coming and going a these people to be not a cheap food.

"perhape on the ground that it, is absorbed by the bread, and then does not satisfy the children, the satisficion of the sight being a very pressing item in the sight being a very pressing item in the arrangements of the poor man s and fourteen children so reduced by distance of the poor man s and fourteen children so reduced by distance of the poor man s and fourteen children.

is cooked for Sunday's dinner, and what is left over is set apart for the husband, who eats it during the week, his family having none, In this way, "If the amily be thrifty, the husband will have a morsel of meat or bacon throughout the week, whilst his wife or children may, eat it but once, and both himself and his household believe that course to be necessary to enable him to perform his labor." Pickled pork, is the form in which meat is mest commonly used, we are told, and this for the resson that it are told, and this for the reason that it is least liked by the children. "The lie is sad to see their wan suffering faces, wife, says Dr. Smith, "has gained by hard experience, an acute, perception as to the food which will supply the great, but the yie or at, without speech, or moto the food which will supply the great, or motor with panes of great with no of the families of these farm laborers with problems and then leaky tooks." of the families of these farm laborers to the families of the families of

stinence from coffee appears another proof of the wretched condition of these people. The women and children consume the greater share of the tea, as the men do of the meat. such is the living of the farm laborers and their families in England, and yet there are persons found to tell this class that they ought not to emigrate to America, that they cannot better their condition here.
Dr. Smith makes a chemical analysis

of the food of the English poor, into carbon and hitrogen—and we believe he sisters that the Irish cottagers, though their food appears more scant, are in fact better nourished than their Engisit neighbors. But on this question of the nourishing power of certain elements of food, men of science are yet disputing; and when the English farm laborer claims and believes, as Dr. Smith tells us that he could not perform his labor without for sale by Druggiet. surpassed in the city. "The laboring men work very hard. They have little time allowed and winter they begin when it is light, and leave of it dark. They are participated after ling amonth, and thiele thee largiven them, this, for hreakfast, consists of sixteen figs and two small loaves of bread; for dinner, thiled beans, for supper broken roasies when grains of they accurely about they mean grains of they accurely about the treatments as with the acarcely ever taster meaty as with the twelve pounds per annum, they have to clothe themselves and support their lamilies. The influence who work in the milie theelf have twenty awo work in the milie theelf have twenty awo diffings per month and know allowed restill the charquia. But, these, men come, down from their bleak habitations only once in every fortnight or three world in tworld seem from this that much is not absolutely becomeny, in a desirente not absolutely becomeny, in a desirent to the body or to develop its powers; for the wondering leass of these poor miners were per-

formed by men who scarcely knew the taste of meat. But the probably true that the spirits suffer from such the neuce; and certainly when we compute food of the English county had with that of his brother is amore. the want and the necessity for contrivance in the one-household with the abundance in the older, we have cause to consider America, what it has often been called the Paradise of working men it has siedy forestinately

Incidents of the Wats He Dr. Edward Smith, an English medical officer, has recently undertaken a careful investigation of the quantity and quality of food consumed by the laboring classes in England—especially the farm laborers. For the purposes of hinquiry he selected three hundred and seventy families, from thirty-seven-direct counties. These families were she insolved as well as the first counties. These families were she insolved as well as the first counties. seventy families, from thirty-seven different counties. These families were she has been taking care of them; for she has been taking care of them; for she has been taking care of them; for some months, it was not until last. No vembar that a regular home was established. Which is now kept in two comfortless, dilapidated she had not under the care and not until the country and some curious climpses of the laboring; turned over to her use. From Novemturned over the place of the form horsen-ber until the first of Angust, she had in these one hundred and ninety five adults and three hundred and three children, in all the hundred said ten journi shom one bundred and seight, died She did ment teams and workmen, and coffins are furnished for the dead. Mrs. Buford

There are now here two wo aready, totally blind the sight of the others can probably be preserved. One is suffering from typholic fever one from pure months and one lies on vulsions the add he will will will
