A corps of engineers will be put upon the eastern and western ends of this road through the southern counties already exist, in the Oumberland Valley line to Chambersburg and the Pittsburgh and Connellsville road to Connellsforthwith by the new company, but the work is very heavy, as the country is mountainous. Notwithstanding these difficulties the enter prise must certainly promise a success, and the rests involved in its success or failure, of which the public is aware, will add much to the mportance of this work,

Attempt at Suicide.—A most horrible at tempt at suicide was committed by a man named Rorrybush, on Sunday morning, in the barber shop of Robert Turley, in the Ninth ward. It appears that the man had recently arrived in this city from Cincinnati in search of work, but as he had received a paralytic stroke some years ago deemed himself unfit for any but the lightest nort of labor. This he was unable to find in this city, and his relatives getting tired of him, he finally meditated on self destruction. With this determination he passed over the middle of ons of the bridges with the intention of jumping off, but changing his mind, he repaired to the barber shop above named and attempted to cut his throat. He had already given himself some severe cuts with a razor betore he was observed, when the razor was taken from him and he himself conveyed to the Mayor's office. Dr. Rogers, who dressed his wounds, stated that if he finally meditated on self destruction. With Rogers, who dressed his wounds, stated that if he had cut a hair's breadth deeper the wound would have proved fatal.

Coal Delivered in Bags .- A new system for delivering coal, especially at private residences, is now being discussed in some of the Eastern cities. Coal dealers are invited to adopt an improved mode of delivering coal in bags. This would certainly be a great improvement on the present sytem. By the present method of dumping a cart-load into the mud of the street or blocking up the sidewalk, a great deal of loss of time and money is entailed, while a bag could be so arranged that when the mouth of the bag is dropped from the cart into the opening of the vault the whole of its contents As the 15th of December, 1864. are deposited at once without soiling or stopping up the pavement.

We have just received the autobiography of Gen. Winfield Scott, L. L. D., in two separate volumes, bound in cloth, and presenting a very near appearance. After waiting with undisguised anxiety for this work, the public will no doubt be gratified to learn that it has made it appearance in a style which will render it one of the most popular works of the age. It full of interesting information as regards the General himself and the many historical events with which he is perfectly conversant. volumes, bound in cloth, and presenting a very icelevents with which he is perfectly conversant ami quorum pars magna fuit. The characters of the several personages with whom he was ap-quainted are delineated with an able pencil, and altogether we think this work one of the most pleasing and interesting of its kind.

Killed .- A man named John Holzheimer was killed on Saturday afternoon in East Birming ham while working on Chess & Co.'s tack factory. It appears that he was engaged in hoisting timber at the time, and after holating one bundle was engaged in preparing another directly below, when one of the pieces fell upo him, killing him instantly. The deceased was about twenty years of age and resided with his mother on Ohlo street, Allegheny. The Coroner held an inquest on the body and a verdict of al death was returned.
