FRIDAY MORNING, NOV. 18, 1864. Teachers' Salaries .- At a meeting of the Central Board of Education, held on Wedneslay last, the resolution increasing teachers' salmonths was taken up. Mr. Negley, Mr. Sin-Mr. Negley then moved that the salaries of teachers be increased from and after November lst jen per cent. The chair put the question and it was decided in the negative. The meetng then adjourned.

that all other efforts for attaining that end will likewise prove unsuccessful, at least for some time yet. We heartily sympathize with the the Central Board of Education are better acthe question was left to their arbitrament, we. f course, will have to abide by their decision. Slim salaries are, to say the least, not very gratifying in these times, and while everybody. coal diggers, laborers, mechanics, &c., are demanding increased compensation for their labors, we see no reason why our school teachers should not have their salaries increased in proortion, unless it be said that they received all the necessaries of life reached their present high prices. In this case their salaries should not be increased; but unless this was the real state of things, which question we leave to ou readers to decide, we see no other reason why the teachers should not have a fair show. But we can do nothing which will prove of any avail to the teachers

They came here in charge of a colored man named Henry Iones, whom they offered as a substitute to M Worth for the sum of ton. They went to the office of Alderman Owaton to have the necessary affidavits and blanks made out and there states that they had known Jones, the proposed substitute for over two years and that he vas a native of Canada. They likewise stated that they were heads of families, had no interest lirect or indirect in having the proposed sub stitute accepted. They then went to the Pro vost Marshal's office, and offered Jones as a substitute. Captain McHenry proceeded to eximine the parties as is customary in such cases, in order to ascertain the reliability of the statemeats made before the Alderman. The proposed substitute stated under oath that he did not know where he was born, but thought he was born in Virginia. He agreed to enter the army on receipt of \$325 from Murphy, whom he had not seen until six weeks ago. The statement of Murphy and Peck were fou at variance with their depositions before the

He was taken out in half an hour afterwards, but life was extinct. Deseased resided in this city until within a few veeks, since which time he has resided in Lawrenceville. Alderman Donaldson held an in ls the only safe and sure cure. It contains no quest on the body and a verdict in accordance with the facts was rendered.

Lead Mines in Clarion County.-The Clarion Democrat says: We have been shown everal specimens of very fine lead ore, procured along the Clarion river near Caliensburg Men are now at work to develope these lead veins and ascertain if they are sufficiently large o work. If their efforts prove successful, and lead mine be discovered sufficiently rich to marantee a full reward for their labor, no doubt very necessary arrangement will soon be made develope its resources. The demand for lead at the present day is very great, and it easily mmands a very high price.

The Draft.-The supplementary draft still continues, and the full quota under the last call for 600,000 men will be soon raised in the 22d and 28d districts. It appears that those who are low being drafted will find some difficulty in procuring substitutes. Volunteers are rather scarce, and those who may be willing to expose their precious lives through love of their neighbor demand such high compensation for their philanthropy that the drafted men are compelled edite to without from

yesterday held an inquest on the body of a young lady named Melinda Caryt, who died resterday at the office of Dr. Spencer under the following circumstances: It appears that de-ceased called at the residence of Dr. Spencer on Vednesday to have some teeth extracted, bu

She requested to have chloroform administered, and aties ten per cent. during the ensuing three was suggested to her that she had not better take it, she replied that she was not afraid. Th gerley in the chair, withdrew the resolution. Doctor, however, was afraid to comply with he demand and gave her chloric ether instead, and while she was under the influence of this drug he extracted three teeth. At this juneture she showed signs of struggling, when she was removed from the chair and placed upon the floor Thus it is that the efforts on the part of the and shortly afterwards died. A verdict was rehool teachers to have their salaries increased turned according to the above facts, entirely ex have been thus far frustrated, and it is likely onerating the physicians concerned from all culpability in the case.

In every business or profession, indeed, in every department of science or skill, there is always some one-knowledged head—some one who stands out in bold relief among his fellows, as a sort of leader. In the study and treatment of deafness and catarrh, as special diseases, Dr. E. B. LithThill.i., of this city, occupies just the position above described. He has devoted years of Isloot to this speciality, and is now reaping the reward of his industry. The chitorial columns of the Tribune, of a recent date, bear withers to the Doctor's success in this department of medicine. We quote the paragraph:

""Ush of a Drap Muth.—Louis Locwingstein a laif fourteen years of age, born in Germany, come to this city when he was about two years old. Soon after the natural here he was taken sick and lost his hearing. By digrees he became first deaf and then damb. For nearly the years he was a mute, unable to hear the loudest voice or to articulate a word. About one year ago he was placed by his parents in the hands of Br. Lighthill, who has so far succeeded in restoring to hum his 1 st powers of hearing and utterance that he can converse with those who speak to him distinctly and delite afely. During the past four or five months he has been under the tuitton of Mr. Benneche, and his made considerable progress in reading and arithmete."

NEW YORK. News from the Southwest.

The Late Victory at Johnsonville General Sherman's Movements.

The Gold Market Demoralized. Death of Major General Canby

NEW YORK, Nov. 17 .- The Times' Nushville correspondent of the 28th says: Beauregard's headquarters are at Corinth. Hood, with Cheatham's corps, is at Florence, and the camp extends on the north side now as far as Tuscumbia; S. D. Lee's corps is at Jackson; Stewart's corps is at Corinth, Jacinto and Reraze, fifteen miles from each other, on the Mobile and Ohio railroad. The entire rebel army, which a year ago numbered 75,000 veterans, cannot now muster more than 40,000, including Forrest's and Wheeler's cavalry and Dick

Taylor's men.

The same correspondent says: The eports of the fight at Johnsonville, in which Forrest claims such a great victory, are most unheard of exaggerations. Instead of the Government suffering a loss of six millions of dollars one million exceeds the total. The facts are, Forrest, on the night of the 4th, planted a battery of ten guns opposite Johnsonville and the next morning knocked to pieces three tin-clads and seven transports. The next day he shelled the town for forty-eight hours and then left. Meanwhile a portion of Wheeler's cavalry and a brigade of mounted infantry appeared south of the ort, but finding it too strong and well manned, they returned to Florence. During the shelling every building but one was struck and only two burned, and what little stores were there were

only slightly damaged. The Commercial's Washington special says: Richmond papers of Tuesday make no mention of Sherman's movements, which fact is regarded here as vidence that he has met with success. The rebel Senate and House had a secret session on Monday, at which it is surmised that the question of arming slaves was discussed.

It is reported that the President seriously contemplates issuing another prolamation of amnesty. The statement that Thurlow Weed

It would be difficult to speak in any but terms of praise of his treatment, in the face of these many proofs and fices tree and most testifying to his success.

Federal Fleet at Hilton Head New York, November 17 .-- The Richmond Whig contains rumors that General Hood took Decatur, Ala., and captured the garrison of 800 troops, half of whom were colored, on the 28th

ult. A rebel attack on Huntsville, Ala., is also reported. The Montgomery Mail of the 7th is expecting an early advance on Augusta or Macon by General Sherman. The Richmond Examiner ridicules the idea

The rebel newspapers have an amusing dispatch in reference to the last cavalry fight in the Shenandoah, in which the rebels were sent whirling through Front Royal and lost two guns, prisoness, &c. The rebel dispatch says that Sheridan's men were driven back with heavy loss, including 200 prisoners,

while Early's loss was slight. Brigadier General Tyler has forwardto the War Department at Washington a black flag, captured from Early's command in August last. The efficiency and activity of General Sheridon's cay. alry is shown in the fact that the First Division of it, under Merrltt, has captured during the present campaign, wenty nine pieces of artillery, two thousand prisoners, eighteen cassons, one hundred wagons and ambulances,

and fourteen battle flags. Rebel newspaper files contains General Forrest's official account of the destruction of Union Gunboats and transports near Johnsonville. Four gunboats, fourteen transports and twenty barges are claimed as having been set fire and burned up with an immense amount of valuable property.

We may well doubt a good portion of this, as it stated that all the immense supplies or stores at Johnsonville had also been destroyed, for we have since learned that Johnsonville is still held SUNDRIES. by the Union forces, and that but a very small portion, if any, of the army sup. plies there were burned.

Commerce. The Post's correspondent in the field, Georgia 10th, the latest yet heard from Sherman says: This army under the immediate command of General Sherman now covering Atlanta, has been for several days past taking things quite easily: not that it has been idle. for there has been quite a healthy degree of activity pretty much like that of a prize fighter undergoing his training.

Transportation has been reduced to the simplest necessities of the occasion. sick and wounded sent to the rear, unnecessary armaments dispensed with. eztra tents and baggage removed. The army is literally stripped for the march and fight. Surgeon's report the men-in the healthiest possible state, and a more cheeaful set of men cannot be imagined.

They have faith in their leader. Another letter says: General Sher man, a few days ago, wrote to his fath. er-in-law-Mr. Erving, that he was the leader of the bravest and best army that ever marched on American soil, After referring to the sad condition of the refugees flying from starvation to the North, this correspondent some what significantly says: The most guilty offenders have not yet been resched. South Carolina and the lower part of this State, have yet remained secure from the approach of the hated Yankee. In these districts millions of bales of cotton have been stored, thousands of slaves are here gathered upon friendly plantations. Here have the wealthy rebels retreated as our army advanced southward to the cities of Macon, Columbus and Augusta has been removed all the valuable machinery for the construction of locomotives, rolling of iron, and manufacture of cannon, small arms. and different kinds of ammunition in Augusta alone. I am told there is stored nearly half a million bales of cotton, while the largest powder magazine in America is there, containing the largest supply of powder in the reb el States. Our soldiers too, are confinhas purchased the Intelligencer is untrue. ed in the loathesome prisons in these Mr Chase and Mr. Raymond are men | parts. Would it not be a noble acheive-
