LOCAL INTELLIGENCE. WEDNESDAY MORNING, NOV. 23, 1864.

Coal.—The scarcity of coal is being already felt in the city to a considerable extent, and the dealers, turning the opportunity to the best account, have thought proper to advance the price of this necessary article. Coal sold in our city yesterday for twenty-five cents per bushel, and only a limited amount would be had at that exorbitant price. In the city of New York, where such a large amount of coal is consumed, and where the additional cost of transportation must be paid, coal sold for one hundred dollars and a half per ton, that is a few cents more than what we are paying for the same article at the present time in the city of Pittsburgh. We have no reason to suppose that the price of coal will be advanced here, and while the mines are in our possession, and we could easily obtain coal from the dealers at twelve cents per bushel, we are not prepared to pay more than that for it. This would naturally tend to lower the price of coal, and the people are improving upon us, and are not the only consumers on our coast to be benefited by a large portion of them at least, will either have to buy coal or suspend business, which is their only alternative. The dealers think they can demand whatever price will prove more satisfactory to them. And they do it with a vengeance.

The Soldiers Thanksgiving Dinner.—The project of sending to the army all the necessary articles for a good dinner on Thanksgiving Day has evoked a great deal of interest among our community. We are never backward in anything that refers to the army and which the brave boys can receive with advantage. In this as well as everything else we are doing our duty. It is a praiseworthy movement, and we will do our best to assist in it. The sick and wounded soldiers should be provided with a good substantial dinner on Thanksgiving Day.

Counterfeit Treasury Note.—A counterfeit fifty dollar treasury note has just been secured. The note is a perfect imitation of the genuine bill, and of rather lighter color. Keep on your guard.

Thanksgiving Week.—Owing to the immense success which Professor and Madame Miller have had in their theatricals, they have been induced to prolong their stay in this city. They have been so successful that they have secured a large amount of patronage, and they are now preparing to leave for New York.

LATEST BY TELEGRAPH. NEWS FROM REBEL PAPERS.

The Condition of the South. A Great Panic in Richmond. A RUMOR CONTRADICTION.

New York, November 22.—Richmond papers of Saturday are received. Two United States steamers are reported to have been captured on the Big Sandy river.

General Breckinridge, in East Tennessee, is endeavoring to win the people to his district by allegiance to Jeff. Davis, and has declared an amnesty to all who will lay down their arms and cease bushwhacking his troops.

In the rebel House of Representatives, on the 18th inst., and in the Senate on the 19th, resolutions were offered by Messrs. Henry and Foote, of Tennessee, to the effect that the war was to be carried on until the independence of the South was acknowledged.

There is no variation between Secretary Welles and Seward in the "Pion" affair. Secretary Welles justified the act, and Seward is hunting up authorities.

New York, November 22.—The Herald prints a lengthy report of the experience of a Northern merchant in Georgia for the past three years, and who has lately escaped from the South. He gives an interesting statement regarding the difficulties of trade in the South, and the want of confidence in the currency, the dissatisfaction of the people with the administration of Jeff. Davis, the importance of Columbus, Augusta, Wilmington and Macon, and the condition of the country through which Sherman is now marching.

New York, November 22.—The Tribune's Stanton special says:—The Secretary's Stanton was again in his office today. He has no idea of leaving the Cabinet. Mr. Lincoln, in forming his new cabinet will regard young Sherman.

The reported death of General Canby is feared at the War Department to be untrue. His death will be a great loss to the army. Grant's Chief of Staff thinks there is a great panic in Richmond concerning Sherman's movement. The Sixteenth Corps has been abolished, and General Ely ordered to report to the military history of the Mississippi.

New York, November 22.—The Times Washington correspondent pronounces the story of an interview between Sherman and the French Minister and Secretary of War, as a fabrication.

The "Times" Washington special says:—Richmond papers of the 20th are received here to-day. They contain nothing further from Sherman, but they talk boastfully of the ruin that awaits him.

New York, November 22.—The Herald's Washington special says:—The news from Sherman, through rebel sources, has created excellent feeling here, and is causing a great increase in the confidence in the Union and success of the great movement.

New York Money Market. New York, Nov. 22.—Gold closed today at 129.

NATURES UNFAILING REMEDY FOR DYSENTERY, DIARRHÆA, DIXON'S AROMATIC BLACKBERRY CARMINATIVE.

The Iron Clads at Dutch Gap. General Sherman's Movements. The Disaster near Winchester.

New York, November 23.—Gold opened decidedly stronger under a vigorous movement of the bull. At 10 A. M. the price was 295, and subsequently advanced to 298, and fell again to 297.

The Alexandria, Va., Journal, says:—The iron clads previously stationed at Fortress Mound, moved up the James, on Friday, to Dutch Gap, indicating an important movement.

The Commercial's Washington special says:—There was great consternation in Richmond on Saturday, on account of Sherman's movements. It is believed he is sweeping onwards in spite of all opposition. It is impossible that Macdonald has already fallen, and that may be the cause of the consternation in Richmond.

Governor Morton, of Indiana, arrived at Washington to-day, and had an interview with the President.

Dr. R. H. Thompson, late Health Officer, died suddenly at his residence at Brooklyn, a day or two since.

It appears the disaster to Brasher's Independent Scouts, near Winchester, happened thus: Brasher had thirty-two men and conveying two of Mosby's men. He was informed that there was a small party just ahead. Brasher, with one of his men, reconnoitered and met a small party returning to his main body. He charged on the guerrillas driving them, and after passing a cross road, Mosby at the head of about 200 men, appeared on the scene, hemming them in on where 22 was killed, and the remainder captured.

Forgery on the Look Haven Bank. General Grant in Philadelphia.

PHILADELPHIA, November 22.—A check for \$8,000 on the Look Haven Bank, purporting to be endorsed by Ludwig, Kneades & Co., was presented to Drexel & Co., who gave the party a check on the Commercial Bank, for \$4,980, payable to the order of Ludwig, Kneades & Co. The check on the Look Haven Bank, proved to be a forgery, but the forger was disappointed in not getting Drexel & Co.'s check paid, as the Bank would not pay him without identification.

General Grant missed the morning train for Washington, and while walking along Chestnut Street, he was recognized by a soldier. A crowd immediately collected, and the General took refuge in the "Metropolitan" Hotel, where he was surrounded by a large number of soldiers.

NEWS FROM THE FRONT. THE ARMY ON THE MOVE. EIGHT DAYS RATIONS ISSUED. THE LINE OF MARCH. A HEAVY RAIN COMMENCES. THE COUNTRY A CONTINENT OF MUD.

New York, Nov. 22.—A City-Point letter to the Commercial says: A movement of the army was begun yesterday. While among the Ninth corps, on our extreme left, I learned that orders have been issued to prepare eight days' rations, with one hundred rounds of ammunition, and be ready to march at any moment. The artillery of that corps has already set out on march, and by sunset encamped about eight miles near City Point on the line of the railroad. The infantry followed shortly afterwards, and reached Hopport's station, about ten miles distant.

I also learn that similar orders were issued to the 2d and part of the 5th corps. However, it several days since eight o'clock last night and continued ever since, converting the country into a continent of mud. The line of march yesterday was toward the Appomattox, which would probably strike two or three miles below Petersburg if the design was to cross over to Gen. Butler's department.

Gen. Grant has been absent for a day or two. Officers and men have been moving in shoals for some time. By leaving the forts well garrisoned Grant can hurl the main body of his force against any part of the rebel line he may select, while it is impossible to flank him or cut his communications with any force short of the whole rebel army.

The Commercial says editorially: It is said that all the mounted cavalry in the Department of the Gulf have commenced concentrating at Fort Union, under Gen. Lee for the purpose, it is generally believed, of co-operating with Sherman should Beauregard attempt to move southward by the Mobile and Ohio railroad.

Washington special says that our fleet of gunboats have moved up towards Dutch Gap in readiness for any assault. The army may see fit to make.

It is reported that the President has determined not to permit Sherman to be brought out of the seceded States except as prizes to the Government. No other permits will be granted to trade within the rebel lines than those heretofore granted.

Newbury, November 22.—At seven this morning, the Packing House, owned by Smith & Rhoads Powder Mills 3½ miles west of Newbury, was blown up. A Mr. Smith, one of the workmen who had entered the building three or five minutes before the explosion, was the only person killed.

The building contained three tons of powder. Nothing is known as to the cause of the explosion.
