REBEL OPERATIONS IN LOUISIANA.

A Union Victory at Liberty. New York, December 2.—The Herald's Natchez correspondent of the 21st ult., gives an account of rebel operations in Louisiana, and particularly at Alexandria.

The rebel Gen. Buckner, who commands in that region, and has his headquarters at Alexandria, where additional formidable defenses have been erected for the purpose of rendering it impossible for the Union gunboats to again ascend the river.

The rebels have been successful in their operations, and have captured several gunboats, and destroyed many bridges.

The rebels have been successful in their operations, and have captured several gunboats, and destroyed many bridges.

LATEST BY TELEGRAPH.

THE BATTLE AT FRANKLIN. Pat. Clerbourne Killed.

LATEST FROM SHERMAN. General Webster's Report.

Dispatch from General Grant. Advices from the Gulf.

Execution of Franz Muller. Nashville, Dec. 1.—I have received full accounts of the late battle at Franklin, which must be chronicled as the most brilliant in its general results of the war.

For three days sharp skirmishing was kept up from the retirement of our army from Duck river to Franklin, during which time a multiplicity of exploits and successes resulted to the national arms.

General Cox conducted the rear guard on the 29th ult., and achieved a splendid victory over the rebels at Springhill, while General Wilson's cavalry gained the series of important successes over Forrest's advance, under Ruddy, on the pike between Waite and Springhill.

During the evening of the 30th ult., the rebel army severely pressed us under Hood who had clearly shown us under his command, and a portion of Dick Taylor's command, numbering in all over 2,300 men.

Owing to General Cox's gallant check at Springhill, a portion of the 40th and 83d corps were enabled to gain Franklin early that day, where they threw up a line of breastworks extending from one end to the other of the curves in the river behind which our entire infantry command took position at precisely 4 o'clock P. M.

The attempts of the rebels to gain a permanent advance were frustrated, and at dark the federal position was unchanged, while the rebels retired under the cover of the woods, south of Columbia pike.

Our loss is fully 6,000, including 1,000 prisoners, an unusual number of which were officers. Our loss reached a total of about 1,000. An artillery fire was kept up until nearly midnight, when our troops commenced crossing and parading in order in safety before daylight.

The army then retired to within four miles of this city, at which point our front confronted the enemy. The falling back of the army is in accordance with the program and the battle of Franklin, although one of the most brilliant forays, was an imprudent affair, and brought about, owing to the facility to check the rebel advance and insure safe crossing of the river by our troops.

LATER. NASHVILLE, Dec. 2.—Additional reports received increase the magnitude of the late victory at Franklin. A stand of colors were captured by the Union forces. General Stanley's corps, 49th Ind., 5th and 88th Ill., and three regiments of Kelly's old brigade, 18th and 23d corps, captured four stand, total thirty stand of colors.

General Stanley, commanding fourth corps, had a very narrow escape, having his horse killed under him and was shot in the right shoulder, the ball traveling back, going out the left shoulder. He is still attending to duty.

It is confirmed that General Patrick Cleburne or Cleburne, of Tenn., is killed.

General Kimball commanding 2nd division of Stanley's corps, in the heat of battle passed the rebel Major General, who had him he was mortally wounded. His men succeeded in carrying off the body.

It is believed that Hood's main army is threatening Murfreesboro', Forrest's rebel cavalry is demonstrating our front and right flank.

Commodore Fitch is here with fleet-boats and iron clads, and sufficient forces have arrived to insure only safety of Nashville, but another Union victory in case of battle under any circumstances.

Military men all write the opinion that General Stanley and Schofield, conducted the retirement from Paducah in the face of the enemy with admirable skill, and resulting in a magnificent Union victory at Franklin.

J. D. WESTER, Brigadier General.

HEADQUARTERS ARMY OF THE POTOMAC, Nov. 30.—The utmost quiet has prevailed along the lines for several days past until yesterday afternoon, when our batteries at Fort Hill opened a fire for the entertainment of our English visitors.

At first the enemy did not reply, but after a short time they opened from several points, and for a time a perfect shower of shot and shell fell in and around Fort Hill. Unfortunately just at the time some of the troops on duty were being relieved and several casualties occurred. Towards dark the artillery firing ceased.

Deserters continue to come into our lines daily, and they all speak heartily of the rebel ranks, and express their belief in the speedy disruption of the Confederacy.

New York, Dec. 2.—There are positive indications, through rebel sources, that Sherman is advancing triumphantly toward the sea coast.

The New Orleans Gazette contains details of Gen. Lee's great cavalry expedition, fully confirming the previous reports as to its success.

WASHINGTON, Dec. 2.—The following dispatch has been received at the War Department:

City Point, Va., Dec. 1.—The Richmond Examiner of to-day admits that Sherman will succeed in reaching the sea coast. The other papers admit that he has crossed the Ocmeco.

(Signed) U. S. GRANT, Lieutenant General.

Execution of Muller. New York, Dec. 2.—Muller was executed in London on the 14th, making a confession on the scaffold.

WASHINGTON, Dec. 1.—No advance copies of the Presidents message will be to the newspaper presses, and therefore, that document will be sent by telegraph.

New York Money Market. New York, Dec. 2.—Gold closed today at 22.
