The Poor .- The intense cold which has pre. vailed during the past few days, and which will most probably prevail throughout the greater portion of the winter, will of itself call the attention of our charitable citizens to the poorer classes in the community who must necessarily suffer much for the want of a sufficient quantity of fuel, and from other privations. Our citizens have acquired a name for charity and gen erous impulse which any community would be glad to wear, and an appeal in behalf of the poorer classes has never been made to them in vain. We have generously tendered large sums of money for soldiers' dinners and other purposes, which are all noble objects in themselves let us now direct our attention to the wants of those who are suffering in our midst, and let us unite in relieving them. This would be truly a ole ambition and worthy the heart of any charitable man. We understand that arrange ments are being made to provide our citizens but more especially the poorer classes, with a quantity of coal at cost, but this movement is so tarcy in producing the desired effects, or any effects whatsoever, that we fear that, the winter will have entirely passed away ere the poor will derive any benefit f om it. The citizens will have to take this matter in hands themselves. Let every individual put his shoulder to the wheel and help to push forward this audable enterprise, and their efforts will soon be crowned with the desired success. The expenses will be inconsiderable when every ind vidual bears his share, and the benefits which will be derived from it will be immense, and such that they will be in themselves a sufficient reward for the labor and expenditure which we will be called upon to meet in promoting this great object. That there are poor in our midst no one can doubt, as they are in every other city of any importance, and during this time of war, their numbers have increased. If we read the records of the many charitable societies that are now flourishing in this city, and which are not able to meet all the demands of the poor for want of sufficient funds to do so, we will find that the poor are in greater numbers, and suffering from greater privations than at first we may be induced to think. Soldiers' wives, orphans and widows demand our attenin a special manner, and we should unite our efforts to relieve them, not only as charitable citizens, but as men who have a just claim to patriotism. We have willingly relieved the wants of the soldier himself, and he was thankfulfor it, let us now do the same thing for his orphans who are committed to our care during his absence, and we will confer a more accept: ble favor upon him than if we were to spend all our money in promoting his own private and individual welfare. Let the other poor also receive our attention, and above all, whetever we do, let it be done immediately and without

Teachers' Salaries .- At a meeting of the Teachers' Union, held on Saturday, the President, Mr. Burt, stated that the Central Board had not as yet responded favorably to the request of the teachers for an increase of salaries, but that it was expected that they would do so as lice and necessity of the measure was generally admitted. On motion a committee was appointed to act for the teachers in pro-would appear that the teachers are again about to resume their efforts to obtain an increase of salary, and it is not at all improbable that they will be successful in the end. We hope that they amay be successful, and that their salaries will be successful, and the salaries will be successful. may be successful, and that their successful we take the following quotations necessaries of life. Nevertheless, it is hard to general list as an indication of the market: believe that the Central Board will alter their decision not to increase their salaries, under ex- Cherry Run & Pitt Hole..... isting circumstances. When this question was agifated not long since, both press and public advocated the cause of the teachers, but notwith. standing this fact the Central Board decided on the contrary, and we must necessarily abide by their decision. The Central Board is more conversant with these matters than the generality of the public, and as they can have but little interest in what they decide in this respect, it is difficult to believe that their decision was otherwise than just, or at least uninfluenced. In this case we cannot blame the Board for what they did, in deciding that the salaries of the teachers should be increased. Notwithstanding this fact we still labor under the impression that the salaries of teachers should be increased, and we believe that the public generally entertains the same opinion. It appears unjust that a simple nechanic should receive more compensation for his work than him whose life is passed in in-

structing our youth. Meeting of Councils,-Our City Councils held a special meeting last night to take action in the case of Mr. C. McCowan, and elect a successor. A communication from Mr. McGowan, showing that more atreet work had been performed this season than during the past five years, and explaining the origin of the difficulties between himself and the street committee, was read and filed in Select Council. A further communication from the same gentleman, in which he tendered the resignation of his office, was read. His resignation was accepted in Seject Council. In Common Council the action of Select Councils in regard to both communications was concurred in . Both branches of Council then met in joint session for the purpose of electing a successor to Mr. McGowan. Messrs R. B. Craig and O. Reichsparr were nominated candidates to fill the vacant office. The votes were taken viva voce with the following result Mr. Oraig, 21; Mr. Reichsparr, 13. Mr. Craig was declared duly elected to fill the office of Recording Regulator for the unexpired term. The joint session then adjourned. No further business of importance was transacted in either BLACKBERRY

Freighting on the Oil Creek Railroad. -We are informed that the accumulation of freight at the Tituaville and Shaffer farm stations is so great that the Oil Oreck Railroad Company has been compelled to notify all dealers to withhold further shipments until some portion of the surfeit is cleared away. The track on each side of the stations above named is covered with loaded cars, for the contents of which there is no accommodation in the warehouses, and the quantity of mud in those localities is so great that it has entirely prevented the owners of the property from taking it away. This is a very defective state of things, especial under existing circumstances, when all the oil that can be brought to market is seized with the utmost avidity. If some of our wealthy capitalists would remedy this evil, and none can doubt the possibility of their doing so, they would realize a large amount of money for themselves and also confer a great benefit upon their fallow citizens who are concerned in this matter. With a safe and reliable system of transportation in those muddy regions the market could be supplied more abundantly with oil and the amount of transportation which would be performed daily would no doubt leave a con siderable margin of profit to those who provided it. We hope they will consider this matte worthy of their attention

Christmas Dinner for Soldiers.-Luge quantities of edibles are being sent by the Sub-sistence Committee and Christian Commission O Nashville for the dinner which is to be given to the soldiers on Christmas. The soldiers staned in and around our city will also be provided with a sumptuous repast on that great holiday, and no doubt will be able to enjoy themselves as well as anybody else. It is said that the contributions for this purpose will be much larger than those for the Thanksgiving dinner, so that the "boys" will have everything in the eating line in abundance. They enjoyed the ksgiving dinner fully, and we hope that on REVOLVERS.—A LARGE STOCK next Christmas they will have another occs to enjoy themselves as well.

Holiday, Gifts, Our readers should, before buying their Christmas and New Year's gifts, examine the stock of Myers, Scohyer & Co, No 89 Fifth street. They have just received, a very low prices, from the East, a large and fine assortment of Diaries for 1865, Pocket Books for ladies and gentlemen, Ladies' Purses, Pre-pelling Pencils, Tablets, Ivory Paper Folders, Portfolios, Photograph Albums, Card Cases, John Foley's celebrated (Iold Pens, Chessme and Boards, Dominoes and a variety of elegant articles suitable for Ohristmas and New Year's

Driving Under Difficulties.-Pedestrians find it very difficult to walk on the slippery streets during the present cold weather, but the drivers on the passenger railway cars have far more difficulties to encounter. It is next to imossible for them to make achedule time, and, owing to the increased number of passengers, and the snow which covers the streets double teams are necessary. Notwithstanding the increased number of horses the cars proceed but slowly, as the horses are continually in danger

Severely Injured .- On Saturday a man named Theodore Powers, was severely injured on Pike street, while attempting to jump from a train for the purpose of turning a switch-While jumping from the train his foot slipped and he fell in such a manner that he had his ankle broken and foot crushed by being caught between the bumpers of two cars. Powers is an employee of the Allegheny Vailey Railroad, and resides on Smith street, in the Ninth Ward.

Robbertes on Oil Creek.-However itrange it may appear to our peaceable citizens is said that robberies and attempts at robberes are becoming of frequent occurrence on Oil reek. B. L. H. Dabbs.—This eminent photograph ist has now on hand a splendid assortment of pictures, albums, &c, which would be very desirable for holiday presents. Every body is now preparing a sufficient number of presents tor the holidays, and we are of opinion that a nice album, filled with pictures such as can only be found at Mr. Dabbs gallery, would form the best gift any one could offer to an acquaintance. This gentleman has now on hand a splendid assortment of albums of all sorts and sizes, together with a large and varied stock of pictures got up for this express purpose, and our readers, would do well to pay him a visit prior to make ing purchases elsewhere. All sorts of photographing is done at this gallery at the shortest notice, and plain or colored pictures may be obtained at the most reasonable prices. The coloring is performed in the most exquisite style, and those who should desire to obtain a beautiful colored likeness before the holidays would do well to leave orders immediately, so that everything may be in readiness before the holidays commence. Don't forget B. L. H. Dabbs, No. 48 St. Clair street.

Theatrs.—An excellent house complimented watilds Heron last evening, when the play of "East Lyone" was represented in admirable style. Miss Heron possesses the genius to render every character with marvelous effect, and upon this occasion she acted up to any of her previous representations. It will be repeated this evening for the last time. Friday evening will be her last appearance, when she takes her farewell benefit and leaves immediately for California.

Library Lectures.—Miss Anna E Dickings and instruction Stony Creek, Grant has son will deliver the first in the course of Library lectures to-morrow night. Owing to the large numbers of those who have already secured season tickets there will be a very large attendance. The subject will be "A Plea for Labor," and the name that Miss Inckinson bears as a speaker is a sufficient gnarantee that the lecture will be both entertaining and instructive.

HE FAVORS CONSCRIPTION AND ARMING SLAVES Exchange of Prisoners Resumed. NEW YORK, Dec. 12.-A Washington special to the *Tribune*, dated 11th, says. The Charleston papers of the 6th an-

nounce that Sherman was at Station No. 6 on the 5th, fifty miles from Savan nah. He was marching in the direction of Savannah. The previous report of Richmond papers that a detachment from General Butler's army had effectd a lodgement on the South side of the James, between Druay's Bluff and the rebel position at the Hawlett House' is now discredited by the Richmond press. Affairs along the front, they say, had for some days been very quiet, but a grand attack by Grant was still hourly apprehended.

A joint naval and land expedition under Admiral Dalhgren and Foster proceeded from Beaufort up
Broadriver on Tuesday, December 6th, the object being to destroy the Broats.

LATER.—Rebel papers contain the message of Governor Smith, of Virginia, laid before the rebel Legislature of that State last Thursday. He recommends the repeal of the State law which exempts certain citizens from conscription by Jefferson Davis' officers, and says he is utterly at a loss to understand why these men should not be swept into the army as well as others. He also expresses himself in favor of arming the slaves, and thinks that the Legislature should pass some act to regulate the uffering from it The sidewalks are so slippery arrangements previously made, the hat those who are in a hurry and do not wish bombardment of the city of Charleston to fall down have to walk in the middle of the has been temporarily suspended, and will not be resumed until the exchange s concluded. An Expedition Moving Towards Weldon. NEW YORK, December 12 .- The Richmond Dispatch, of the 9th, says: The only news from the far South yester day was that Fosier was renewing hi demonstrations against the Savannah and Charleston railroad, thereby seek ing to divert the attention of a part of our troops from Sherman.

The Petersburg Express of the 8th says of Warren's expedition: The expedition of the enemy was reported yesterday morning at Proctor's, some twenly miles distant to the South, and still motion.
