TO THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE.—This lass of individuals is very numerous. They are those who work in an unhealthy atmosphere. Printers, workmen in feather stores, stone cutters, hakers, white lead manufacturers, are all more or less subject to disease according to the strength of their constitution. The only method to prevent disease, is the occasional use of a medicine which abstracts from the circulation all deleterious humors, and expels them by the howels. Tonics in any form are injurious, as they only not off the evil day to make it more fatal. The use of Brandreth's Pills will insure health, because they take all impure matter out of the blood; and the body is not weakened but strengthened by their operation; for these valuable Pills do not force but they assist nature, and are not opposed,
