Dear Sir-Will you oblige me with another bottle of our excellent Liniment? It is certainly the best of the kind I have ever seen. It has cured entirely my son's knce, about which I was so uneasy, and I have found it productive of immediate relief in several cases of external injury in my family. A few evenings since, my t child was seized with a violent attack of Croup, which was entirely removed in twenty minutes, hy rubbing her chest and throat freely with the External Remedy. TO THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE .- This class of individuals is very numerous. They are those who work in an unhealthy atmosphere. Printers, work feather stores, stone cutters, bakers, white lead manufacturers, are all more or less subject to disease according to the strength of their constitution. The only method to prevent disease, is the occasional use of a medicine which abstracts from the circulation all deleteious humors, and expels them by the bowels. Tonics in any form are injurious, as they only cat off the evil day to make it more fatal. The use of Brandreth's Pills will insure health, because they make all impure matte out of the blood; and the body is not weakened bu strengthened by their operation; for these valuable Pills io not force, but they assist nature, and are not opposed.

Where bussen means can avail, there scarcely is any complaint, or form of sickness, that the Beanderth Fills do not relieve and generally cure. Although these pills produce a known expect, that effect is not to prostrate the body, as with other medicines, but the frame is invigorated by the removal of the cause of weakness, the morbid, the vitia humors from the blood.

Harmless in themselves, they merely ASSIST NATURE To throw out the occasion of sickness from the body and they require no alteration in the diet or clothing.

In fact, the human body is better able to sustain without injury, the inclemency of the weather, while under

The importance of Brandreth's Pills for seamen and travelers is, therefore, self evident.

By the timely use of this Medicine how much anxiety

DR. FRANKLIN SAYS: "All acute fevers ever require some evacuation to bring

them to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does not do the business itself. On this account, an ill timed scrupulousnessabout the weakness of the body is of bad consequences; for it is that which seems chiefly to make evacuations necessary, which nature attempts after the humors are fit to be expelled, but is not able to accomplish for the most part in these diseases; and I car ffirm, that I have given a purge when the pulse has been so low that it could hardly be fell, and the debility exeme, yet both one and the other have been restored by The good effect to be derived from the Brandreit Pills have to be experienced to be fully believed. By their timely use neither the scarlet, the typhus fever o an all pox would ever assume their malignant form.

To appreciate to the full extent, the incalculable benefits of BRANDRETH'S PILLS, they must be used when the First Symptoms of Disease present themselves. The Chest was a small one, about 30 inches high, by The Chest was a small one, about 30 inches high, my gents stating their boats to be provided with the about 18 or 20 inches in breadth and depth, and was pla-about 18 or 20 inches in breadth and in thickness, 80 as ced on a block of wood about a foot in thickness, so as to elevate it about that height from the ground; several books and newspapers were deposited inside of it, in the manner in which Merchants and others would usually place them—a large quantity of light pine wood [slabs from an adjoining Saw Mill,] was then placed around and above it, and the fire kindled on the windward side, so as to drive the flame against the back part of the chest. The fire was kept up about three quarters of an hour, until you had gone among the spectators and received from them their universal answer that the test was sufficient. The chest was then drawn out of the fire, and cooled, and opened, and examined. The contents were all safe, and the only injury done was to the back FORT PITT, of one book which appeared to be a little charred. From what I witnessed, I think that these chests are deserv EXPRESS MAIL, ing of confidence, as affording, perhaps, the best security larger to Merchants for their books and papers, which they can CASPIAN, have without building large, thick, and expensive vaults. I would consider them a better security than many vaults SAMUEL CHURCH:
