A CARD .- We, the subscribe Ministers of the Gos pel, and members of the Pittsburgh Annual Conference of the Methodist Episcopal Church, having each and all of us, during the past few years, had frequent opportuni-ties of learning and trying the cheracter of Dr. E. A. Wilson's Tonic Cathartic and Auti Dyspeptic Pills, are prepared to, and now state with pleasure in this commu. ation: that we know them to be an excellent medicine and as such, recommend their use to our friends and acquaintances, not only as a specific for Sick head ache, and Dyspepsia, for which they are recommended, but as a safe and efficient family remedy among children, and for the prevention and removal of bilious attacks, etc., etc.

Dear Sir:-Having been in the habit of using, as a edicine, your Pills, I can with great cheerfulness testify to their value, in attacks of Sick Head Ache, and complaints, arising from disorganization of the stor ach; and shall not at any time willingly be without them in my house. I should not, originally, have used them, had I not known and appreciated your character and capacity as a egularly educated physician. They ormly given relief, operating as a gentle cathar. tic, in affections of the stomach and head, to which t have been a good deal subject; and they have been used by other members of my family with like success. TO THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE .- This lass of individuals is very numerous. They are thos who work in an unhealthy atmosphere. Printers, work men in feather stores, stone cutters, bakers, white lead manufacturers, are all more or less subject to disease ac cording to the strength of their constitution. The only method to prevent disease, is the occasional use of a medicine which abstracts from the circulation all delete rious humors, and expels them by the howels. Tonics in any form are injurious, as they only out off the evil day to make it more fatal. BENJAMIA BRANDETH'S PHILS. Por This regetable and truly innocent medicine, rout-russ run atoun, and immediately stays the further pro-cause or distance, in the bodies of those whose powers of life are not already exhausted. Where huma can avail, there scarcely is any complaint, or form of sickness, that the BRANDERTH Pirus do not relieve and generally cure. Although these pills produce a known server, that effect is not to prostrate the body, as with other medicines, but the frame is invigorated by the removal of the cause of weakness, the morbid, the vitiated humors from the blood. Hurmless in themselves, they merely

In fact, the human body is better able to sustain with-out injury, the inclemency of the weather, while under nce of this infection destroying, discase eradica ling Medicine than at any other time.

The importance of Brandreth's Pills for seamen and ravelers is, therefore, self evident. By the timely use of this Medicine how much anxiety and sickness, might we not prevent. Cold, Billious af fections, Typhus, Scarlet and fevers of all kinds, would be unknown! DR. FRANKLIN SAYS: "All acute fevers ever require some evacuation to bring them to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does not do the husiness itself. On this account, an ill timed scrupulousness about the weakness of the body is of bad consequences; for it is that which seems chiefly to make evacuations necessary, which fature attempts after the humors are fit to be expelled , but is not able to accomplish for the most part in these diseases; and I can affirm, that I have given a purge when the pulse has been so low that it could hardly be fell, and the debility exreme, yet both one and the other have been restored by The good effect to be derived from the Brandreth Pills have to be experienced to be fully believed. By their timely use neither the scarlet, the typhus fever or mall pox would ever assume their malignant form

To appreciate to the full extent, the incalculable benefits of BRANDRETH'S PILLS, they must be used when the First Symptoms of Disease present themselves. One dose then, and their good effects will be felt throughout the attack-IT is Taking THEM in Time that is the great secret in the cure of all appearances of disease arising from bad blood, and I presume there are few at the present day, will say anything of those diseases which affect the body when the blood is pure. Washington, July 3d. 1838. Sir_Since I have been in this city I have used some of our Dyspeptic medicine with infinite benefit and satisaction, and believe it to be a most valuable remedy. One f my constituents, Dr. A. Carden, of Campbell county Tenneesee, wrote to me to send him some, which I did and he has mployed it very successfully in his practice, and says it is invaluable. Mr. Johnson, your agent at this place, thinks you would probably like an agent in unessee. If so, I would recommend Dr. A Carden, as a proper person to officiate for the sale of your celebrated cine. Should you commission him he is willing to act for you. You can send the medicine by water to the care of Robert King & Sons, Knoxville county, Tennes. see, or by land to Graham & Houston, Tazewell, East Tennessee. I have no doubt but if you had agents in several counties in East Tennessee, a great deal of medicine would be sold. I am going to take some of it home bids therefor, the given and surnames of all concerned in for my own use, and that of my friends, and should the offer, together with their place or places of residence ilkado hear from you whether you would like an agent in order that the same may be laid before the next Legistat Blantville, Sullivan County, East Tennessee; I can get a ture.

The proposals must be sailed up and directed to the Yours respectfully.

TAIRE PROOF INON CHES

Pittsburgh, June 18, 185 Mr. John Denning:—Dear Sir—Having been puyesterday, at the experiment which you were pleasured. make, in the presence of a number of our business Street, Between Wood and Smithfield sts. of the safety of your IRON CHESTS, in case of a Two doors from the corner of Wood street. Congives me pleasure to say, that so far as I was capa gives me pleasure to say, that so far as I was capat Judging, the test was fair, and the result exceeded

expectations.
The Chest was a small one, about 30 inches high. out 18 or 20 inches in breadth and depth, and was pla ced on a block of wood about a foot in thickness, so as to elevate it about that height from the ground; several books and newspapers were deposited inside of it, in the manner in which Merchants and others would usually place them-a large quantity of light pine wood [slabs rom an adjoining Saw Mill,] was then placed around and above it, and the fire kindled on the windward side, so as to drive the flame against the back part of the chest. The fire was kept up about three quarters of an hour, until you had gone among the spectators and received rom them their universal answer that the test was sufficient. The chest was then drawn out of the fire, and cooled, and opened, and examined. The contents were all safe, and the only injury done was to the back FORT ITT, of one book which appeared to be a little charred. From BREAKWATER, what I witnessed, I think that these chests are deserv ing of confidence, as affording, perhaps, the best security o Merchants for their books and papers, which they can | CASPIAN have without building large, thick, and expensive vaults. I would consider them a better security than many vaults

which I have seen built. Your friend SAMUEL CHURCH. We concur in the above statement, having been pressent when the chest was tested. W. M. Cooper, J. H. Shoenberger, Robt Bell. A. Cordell, J. Painter, C. L. Armstrong, J. Laughlin,
