I am certain I have witnessed more than one hundred cases where it has been attended with com-plete success. I am using it myself in an obstinate atlack of Bronchitis, in which it proved effectual in a ex ceedingly short time, considering the severity of the cass.

I can recomend it in the fullest confidence of its superior virtues; I would advise that no family should be without virtues; I would advise that no lamity should be without the equal to that of any upland farm in the lift is very pleasant, and always beneficial—worth the equal to that of any upland farm in the double and often ten times its price.
