TO THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE .- This chass of individuals is very numerous. They are those who work in an unhealthy atmosphere. Printers, work. nen in feather stores, stone cutters, bakers, white lead nanufacturers, are all more or less subject to disease ac cording to the strength of their constitution. The only method to prevent disease, is the occasional use of a

medicine which abstracts from the circulation all deleteious humors, and expels them by the bowels. Tonics in any form are injurious, as they only get off the evil day to make it more fatal. The use of Brandreth's Pills will insure health, because they take all impure mailer out of the blood; and the body is not weakened but strengthened by their operation, for these vuluable Pills do not force, but they assist nature, and are not opposed.
