sep 10 THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE. -This class of individuals is very numerous. They are those ork in an unhealthy atmosphere. Printers, workmen in feather stores, stone cutters, hakers, white lead manufacturers, are all more, or less subject to disease, according to the strength of their constitution. The only method to prevent disease, is the occasional use of a edicine which abstracts from the circulation all deleteions humors, and expels them by the bowels. Tonics n any form are injurious, as they only sat off the ex day to make it more fatal. The use of Brandreih's Pills will insure health, because they take all impure matter out of the blood; and the body is not weakened but strengthened by their operation; for these valuable Pills do not force, but they assist nature, and are not opposed

DR. FRANKLIN SAYS:

·· All acute fevers ever require some evacuation to bring hem to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does not do the business itself. On this account, an timed scrupulousnessabout the weakness of the body is of bad consequences; for it is that which seems chiefly o make evacuations necessary, which nature attempts after the humors are fit to be expelled , but is not able to eccomplish for the most part in these diseases; and I can affirm, that I have given a purge when the pulse has been to low that it could hardly be felt, and the debility reme, yet both one and the other have been restored by ."
