the embarrassments suffered are attributed

to the conduct of the Directors of the Bank.

That they are justly so attributed, we may

Beaver County. The election news frum Beaver is of a

highly gratifying nature. Dr. Milo Adams, formerly of this city, has been elected Sheriff by a majority of 95 votes, and one of our candidates for assembly was beaten but 65 votes. Perhaps there is no county in the state where the dominion of federalism has been more absolute and unbroken-certainly none where the federa party are more unccrupulous and pros-

for Adams over Jackson, and in 1832, Wirt had a majority there. The recent victory is therefore the more valuable, and we hope it will b great benefit to the indomitable Democracy of Beaver.

Operation of the Bankrupt Law. The Hartford Times states the following instance of the operation of the Bankrupt law as only one of many cases: "Passing through a neighboring town a few days since, we noticed a peculiarly neat dwelling

by the roadside, which, with the grounds and ornaments connected with it, presented a costly appearance. On inquiry, we found ity on joint ballot, an important matter, as that it was occupied by a gentleman who had recently taken the benefit of the bankrupt act; he did not, before petitioning, pretend to own, though the precise situation f the title in the property was not generally majorities in Baltimore city and county understood. At the recent whig meeting in this city, when John M. Clayton, one of the pretenders to the vice presidency, announced that the whigs had whipped the democrats as usual in Delaware, he also announced that Connecticut had gone for the whigs at the township elections. Several of the whig papers since have been endeavoring to confirm the impression that this statement was correct.

The Hartford Times, however, in giving he results of 73 towns, 42 of which are democratic and 31 whig, says there are ewer changes than we have ever knownhe democrats preserving their strength unbroken. Of the few changes that have been we have lost, although the whigs said we carried more towns last year than we ever could again.' List year the whigs attributed their defeat to the bad weather. They have no such excuse now.

Lat it be borne in mind that the democrats have carried Connecticut now by a handsome vote judging from the returns received although in 1810, the whigs carried it by a majority of 6,483, which is as large in proportion to population as a majority of 30,000

LIVERPOOL, Sept. 19, 1842. The recent news from America has proluced more favorable feeling, without imparting any additional value or increased lemand to American securities, which continue in the same inactive state as for some past time.
