To throw out the occasion of sickness from the body, and they require no attention is the dictor clothing.
To fact, the human body is better able to assistin without injury, the inchemency of the weather, while under the influence of this infection destroying, disease eradicaifing Medicine than at any other time.

The importance of Brandreth's Pills for seamen and

travelers is, therefore, self evident.

By the timely use of this Medicine how much anxiety. and sickness, might we not prevent. Cold, Billious af fections, Typins, Scariet and fevers of all kinds, would fections, Typinus, Scarlet and fevers of all kinds, would be unknown! But where sickness does exist, let no time be lost, let the BRANDETH'S PHLIS be at once. sent for, that the Remedy may be app led, without fur,

That they purify the blood, and stay the further proress of disease is the human body. That, in many cases, where the dreadful rayages of plegration had faid bare tigament and hone, a to all appearance, no human means could save life, have nationts by the use of these pills, been restored to good devotiring disease having been completely

DR. FRANKLIN SAYS: "All acute fevers over require some evacuation to bring them to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does not do the business itself. On this account, an ill timed scrupulousness about the weakness of the body is of bad consequences; for it is that which seems chiefly to make evacuations necessary, which nature attempts after the humors are fit to be expelled , but is not able t accomplish for the most part in these diseases; and I can affirm, that I have given a purge when the pulse has been so tow that it could hardly be felt, and the debility ex-treme, yet both one and the other have been restored by it." The good effect to be derived from the Brandreth Pills have to be experienced to be fully believed. By

their timely use neither the scarlet, the typhus fever o small pox would ever assume their malignant form. To appreciate to the full extent, the incatculable benefits of BRANDRETS'S PILLS, they must be used when the First Symptoms of Disease present themselves. One dose then, and their good effects will be felt throughout the attack-IT is TAKING THER IN TIME that is the great secret in the cure of all appearances of disease arising from bad blood, and I presume there are few at the pres ent day, will say anything of those diseases which affect the body when the blood is pure.
