TRADE WITH CANADA .- It appears from a fetter of Lord Stanley, published in the Canada papers, that the matter of regulating the duty on wheat imported into that Province from the United States; has been left entirely to the discretion of the Provincial Parliament. Accordingly resolutions have passed that body, to impose a duty of 3s. sterling per imperial quarter, upon American when imported into Caneds, such duty to go into effect on the 5th of July next. The preamble expreses nonfidence, that upon the imposition of a duty in Canada upon American wheat imported into the province, such wheat will be admitted duty free or rather as Ganadian wheat, into the ports of Great Britain.-Balt. Mr. Rody Patterson offered a resolution to exclude certain persons from the list of candidates before the Democratic Convention, on the ground that they held abolition principles. We are not aware that Mr. P. offered any such resolution. He made a motion, we believe, or rather sug. gested that, when any nomination was made, the person making it should state whether the man nominated had any connection with any other party of the day: whether he was a Democratic Abolitionist, &c. or as the editor expresses it, whether he had any "tail" to his designation of

could not be sent on for several days: From the Charleston Courses of Oct. 7. On Wednesday last, the weather gave indication of an approaching gale, and at the close of the day, it commenced blowing heavily from the E. N. E. which continued during the night. Yesterday morning the

tide ruse to an unprecedented height covering most of the wharves, and in Vendue Range and Market st. flowing up so as to render the streets impassible. On the western side of the city, too, many of the streets were submerged, and boais were plying, in some places, from house to house. In Boundary street, we understand that sever-

al persons were taken from their houses in boats, and carried to places of safety. In the course of the morning the wind changed to N. E. and N: N. E. and contin-

ued to blow a gale throughout the day, and up to the period of putting our paper to press.

We regret to detail a most distressing eccident, which occurred on Wednesday atternoon. During the blow a fishing boat, containing five negroes, viz: Jefferson and George, belonging to Mr. J Jennerett, Ned belonging to Mr. Mellichamp, William belonging to Mrs. C. Macbeth, and a negro boy named Isaac belonging to Mrs. Hughes. while crossing the Bar, on the way to town. was swamped, and it is supposed that all on board perished. There was a boat a short distance ahead of them, and those on board missed the one in the rear suddenly. but being themselves in a very perilous sit- draw together, by the strictest ties of interest uation, they could not return to render any assistance.

We believe no material damage has as vet been done by the gale. A few of the planking on some of the wharves have been orn up, and some cotton, not stored, has been slightly injured, but as the gale was anticipated, the versels at the wharves were all safely secured.
