Then who made the best shooting, *string measure?* Why the Peters Creek Riflemen and De Kalb Grays; and it was said by one of those who measured the shots, that it was impossible to tell who was the closest. In the morning, Gen. Denny appeared on the ground and presented the medal to Captain Hay, one of whose men had *accidentally* made the best shot. We say accidentally, because in his experimental shot he missed the board. The committee in the face of their own rules, decided it to be the nearest shot. Now, why was this? It requires not the wisdom of a Solomon to ferret out an answer. It was necessary to keep the medal in the City, and both honor and honesty was forgotten in a transaction that has disgraced the city."

Here follows a challenge to the Blues. We think it is fair, and hope they will take it up.—

"If the Captain of the Jackson Independent Blues considers that he has in his company the best shooters of any company that was in attendance, we propose to get Jonas R. M'Clintock to construct another medal at the expense of the De Kalb Grays, and take ten men out of each company and shoot, the five nearest shots, string measure, to take both medals—Captains Wheat, of Wheeling, Austin of Claysville, and Herron, of Pittsburgh, to be Judges—distance one hundred yards, string measure."

THORN'S TEA-BERRY TOOTH-WASH.
LANCASTER, Oct. 3d, 1842.

☞To Dr. THORN.—My Dear Sir: I cheerfully and cordially embrace the present favorable opportunity to return to you my warmest thanks of gratitude for your unequalled and unexceptionable invention of your very justly celebrated Tea Berry Tooth-Wash, and I feel that I am in duty bound to say that I have derived the greatest and most beneficial effect from its frequent and moderate use: and I can assure you that I am exceedingly happy to have the pleasure of informing you, that sincerely and cordially speaking, I can in justice recommend its frequent use to all that unfortunate portion of the human race throughout the globe who are now undergoing the most excruciating pain for the want of a medicine prepared exactly the same nature of which yours is prepared, and who have for years been suffering from the injurious, destructive and pernicious effects of worthless tooth powders and other worthless preparations. In conclusion permit me to say that I have used your Tooth-Wash but for a short period, and yet I feel thoroughly convinced that it is the best now known, its inestimable virtues in preserving the teeth, (which if kept in a good and handsome condition, is the greatest embellishment that adorns the human structure,) are not to be excelled in easing and relieving the sufferer from tooth ache, and restoring the gums to a healthy and purified condition. and giving also a sweetness and fragrancy to a disagreeable breath hitherto unknown.

Accept my sincere wish for your success, from
Yours, truly, JOSEPH BRENNER.

WESTERN UNIVERSITY OF PENNSYLVANIA.—LAW SCHOOL.—The Trustees of the Western University of Pennsylvania announce to the public that they have established a *Law School* in connexion with the University, in which will be taught Municipal, International, and Constitutional Law in all their branches.

The mode of instruction will be by recitations, lectures and occasional moot-courts, as in similar institutions.

The year will consist of two terms of four and a half months each.

The first term will commence on the second Monday of November next.

The tuition fee is $37,50 per term payable in advance.

WALTER H LOWRIE, Esq., a member of the Pittsburgh Bar, has been chosen Professor. The trustees take great pleasure in announcing that they have been able to secure the services of one so well qualified for the station by reason of his legal acquirements, and particularly of one so highly esteemed as a scholar and a gentleman. The annexed recommendation will furnish satisfaction to all his qualifications as Professor.

The trustees having been induced to institute this school from a view of the serious disadvantages attending the studies of law, in the office of practising lawyers and also the very obvious advantages which Pittsburgh possesses over most other places in the West for the establishment of such an institution—Here is a most industrious population. The student will see around him examples of industry and energy, and very few temptations to indolence and idleness. He may become acquainted with business in all its forms. Our Courts are sitting nearly all the year round, and there is perhaps no place in the West where a greater variety of cases and principles arise for discussion.

The Committee are desirous that all persons wishing to avail themselves of the advantages of this school, should do so immediately by calling and leaving their names at the office of Walter H. Lowrie, Esq., on Fourth street or by addressing him by letter, post-paid, so that all students may commence at the opening of the term, or as early thereafter as possible.

INDIVIDUAL ENTERPRISE.

U. S. PORTABLE BOAT LINE.

For the Transportation of Merchandize to and from Pittsburgh, Baltimore, Philadelphia, New York, and Boston. Through in the shortest time.

THE United States Portable Boat Line, is composed of Boats built in four sections, each section capable of containing seven tons, and susceptible of being separate or detached and transferred from Canal to Rail Road; thus, as it were, forming a complete train of Cars, or preventing the need of appearance of a Boat sailing on land and thereby avoiding the great delay occasioned by re shipping at the several portions and terminations of Canals and Rail Roads, the expense of transhipment and the damage the goods sustain by frequent handling; and rendering it impossible to separate lots of goods on the way—owing to the peculiar construction of the Boat having *four separate apartments* in which goods are stored, renders them less liable to damage goods by water or otherwise than by any other mode of transportation.

The system of Transportation, as recommended by the Canal Commissioners and lately adopted by the State, refers particularly to this class of Boats. The Boats of this Line are owned by responsible captains that run them, and is the only Line now in operation free from monopolies or combination.

Goods consigned to the undersigned agents will be received free of commission and shipped without delay at the lowest rates. All charges paid and every instruction promptly attended to. C. A. M'KULLY & Co. Agts.

THORN'S TEA BERRY TOOTH WASH.—*A New Invaluable Remedy.*—The extreme beauty of the Teeth, their indispensible use, and the frequency of their decay, has led to many inventions for their preservation; yet how to preserve them in a state of health as pristine beauty, to the latest periods of existence, was entirely unknown until the discovery of the above invaluable preparation. It forms a pure tincture composed of vegetable ingredients, and is possessed of the most delicious odor. It eradicates tartar from the teeth, removes specks of incipient decay, polishes and preserves the enamel, to which it gives a pearl like whiteness, and, from its disinfecting properties, possesses the virtue of giving sweetness to the breath.

As an *Anti-Scorbutic*, the Gums also share in its transcendent powers; Scurvy is eradicated from them, a healthy action and redness is induced, which offers to the notice of the medical practitioner indubitable evidence of their healthful state. It has been examined and used by several of the best physicians of this city, who have no hesitation in recommending it as an excellent wash for the Teeth, Gums, etc.

Among the recommendations to the above are the following:

Having tried Dr. "Thorn's Tea Berry Tooth Wash," and become acquainted with the ingredients of its composition, I cheerfully say, I consider it one of the safest, as it is one of the most pleasant Tooth Wash's now in use.

Pittsburgh Sep. 15, 1842 DAVID HUNT, Sextus.

I take pleasure in stating, having made use of "Thorn's Tea Berry Tooth Wash," that it is one of the best detergents in use. Being in a liquid form, it combines neatness with convenience. While it cleanses the enamel and removes the tartar from the teeth, its perfume yields a fragrance peculiarly destructive. J. P. TIBBETTS. M. D.

The undersigned have used "Thorn's Compound Tea Berry Tooth Wash," and have found it to be an extraordinary pleasant dentifrice, exercising a most salutary influence over the Teeth and Gums; preserving them from possible disorders from premature decay, preventing the accumulation of Tartar, and purifying the Breath. Having thoroughly tested its virtues, we take pleasure in so commending it to the public, believing it to be the best article of the kind now in use.
