Export of Manifectured Goods to the United Slave .- The quantity of manufactured goods sent from Liverpool to the United States, by all the shipping houses together, in a given period this year, does not equal the quantity sent by a single first rate shipping house in a similar period, bu one of prosperity. In this state of things, what are esiled transient ships get no freight, while even the freket ships get little or none. The large and splendid packet ship Roscius, which sailed on Thursday for New York, had considerably under £100 of freight; the smallest sum, indeed, with ter. i, since the liners were established in the year 1818. The Crisis in Texas. Present appearances indicate that the Texans are to have a struggle for the maintenance of their independence: and if successful, it will probably be the last. For months past, Santa Anna has been engaged in raising and drilling of an army for the invasion of Texas, and he has also contrived the knowledge of the perilous situation of to get together, a respectable naval force. including two steamers from England, arm ed with Paixlan guns, and manned by vasion of Texas, he has sent his squadro and 1,700 soldiers to reduce Yucatan to agreed upon, or what, no one near him at subjection; and should he succeed in this object, as he probably will, having already captured Laguna and the Yucatan flotilla, the whole disposable force of Mexico will Barker, nephew of a gentleman of that be available for the invasion of Texas. Shipwreck--- Murder and Suicide. The New Orleans papers of the 8th inst.

Monday, and at 9 o'clock P. M. of the same at half past two, about two hundred yards Ohio, Reserve and Sharpsburg, and that from the last Island, near the entrance of Atchafalaya Bay. Fifteen minutes after she went to pieces. The majority of the crew, being on the harricane roof, floated ashore on a low sand beach. Everyheavy wave broke over the island, not leaving us foot of dry land to stand upon. A quanity of provisions floated ashore, sufficient to last a few days, but all impregna ed with salt water. On Tuesday, about 2 o'clock P. M., a small fishing vessel came to out relief, and from the captain we learned that we were 150 miles from the nearest settlement. Without his tim ly aid we would, in all probability, have perished. The Saucy Jack, commanded by John Clark, took twenty three of us on board, and started up the bay. We were on her twenty four tours without food, when we came to light house 45 miles from the wreck.-There we were supplied with the necessaries of life. After about two hours sailing up the bay we met the Belle of Attakapas and rroceeded to New Orleans.

Another passenger writes, Hardly had the too fatal knowledge of our having struck ground broken on us, when the report of pistol, then another, was heard from the quarter-deck, quickly followed by the sad information that a young man, a passenger had shot another one standing near him, then himself, and lay a lifeless corpse on

From those who were hanging to th wreck on the weather quarter near him, i is understood that from the first moment o the boat he had continued in audible prayer, calling on his Maker for mercy and forgiveness. Whether the shooting of the fellow passenger was accident the time has the slightest conjecture.

The M., it is said, had not been repaired since her damage in the late gale at Galveston.'

Capt Boyden supposes that the most o hose drowned are seamen employed on the vessel. A great portion of the cargo was wsahed ashore after the vessel broke in two. The water casks were got on shore, and plenty of water and provisions, until such time as boats can go and take them off.

Advice to Discharged Bankrup's -Men who have had the mistortune to become involved and sis comes, we trust she will be found equal then the fortune to get extricated by virtue of the Brokrupt Isw should bear in mind that though they are legally out of the scrape, they are still morally bound to pay their debts when they again get on their feet. The impression although pleasant, is very fullacious, says an exchange paper, hat legat c carance from the responsibility of lobis, is an actual clearance from all manner of obligation. We desire men not to forget that, is honesty of purpose is presumed to be the bisis of all commercial transactions, and integrity of heart, the forerunner of all mercantile government policy, then generalissimo of efforts, whether a man be successful or unfortunate, so both those ingredients ought to exist, despite all changes whatsbever. The moral responsibility which is based upon these, must certainly be as strong after bankruptcy as before. No man is less liable in truth and honesty for the payment of that he owes, after bankruptcy, than before.

Smith is ahead of a majority of his ticket in Versailles, Elizabeth, in several other districts his vote is the same as that given to the highest of the other candidates on the assembly tickets, except Mr. Karns, who, in addition to his party vote, received the vote of the Working -

> The public will no doubt be surprised that a public journal should indulge in a barefaced misrepresentation, in a matter where the falsehood was so easily detected; but a paper conducted on the Dugald Dalgetty principle, has no very nice notions about nicking its way between truth and falsehood. The leading motive with such journals is to pursuethe policy that will pay best, and in following up this sysem, falsehood has been the vocation of the Chronicle so long, that it cannot afford to tell the truth even in a matter where its 'well established reputation," would not be compromised.

From this exposure, the public can judge what reliance may be placed in the state ment of a journal that will not hesitate to falsify the official returns of an election, to gratify an unworthy feelingof malice against

a cotemporary. If we had permitted the emissaries of the Chronicle to pick up the returns brott by our expresses on the night of the election, and thus afford them another opportunity of crowing over their "sleepy neighbors" of the Advocate and Gazette, as is their wont, when they are the first to announce a burglary or a fight at the "Crows Nest," it would have been all right, and our neighbors might, as an acknowledgment of the favor, have neutralized their falsehood a-Chronicle to beat its "sleepy neighbors," more wide awake than our 4th st. friends, tive revival of business. as best it could, and of course its returns while the Post contained the result in all the districts in the county except two or

three. This was no doubt galling to our neighbors; but they should not have permitted such a triffing discomfiture to drive them to the mean falsehoods they have been guilty of in speaking of the votes received hy the several candidates.

The Chronicle people can never forgive us, because, on election night, when the editors of that paper came sneaking around our premises, pencil in hand, trying to Wel the returns, as they were brought in by our expresses, we put a period to their operations. Still, they should have some respect for truth, and not take revenge in articles containing mean misrepresentation and downright falsehood. If they were too slow or to sleepy to get the returns, they should not he spiteful against their more artive neighbors.

They are not pleased, neither, that we should have published the fact that the proprietor of the Chronicle, is a rabid Clay man. They fear it may mar a very pretty plan they have on foot to procure government patronage from John Tyler. In the old Hessian spirit, they are willing to serve any body who will fill their palms, and they fear that Tyler will not employ a gang of mercenaries who has a rank Clay man, and getter up of Clay clubs, for a leader. To these base motives their article about the vote for Recorder is to be ascribed. It is worthy of the mean and malignant spirit which dic- with her side to the autience and her handtated it. FOR THE MORKING POST. Mesers Phillips & Smith: In the 'Morning Post,' of Tuesday, I noticed an article in favor of James X M'Lanahan, E.q., for speaker of the Senate. While we award to Mr. M'Lanshan all the ho nor which his firm adherence to Democratic prinpoles entitles him, we must not forget the just claims of one who stands equally as high in the

estimation of Demogracy.

Col. Wm, Bigler, of Clearfield county, was, at the last session of the Logislature, the favorite of of Mr. Ewing, whose term was about to expire and would have been elected only for the jealousy of one or two older members. He received 16 otes, and had he retired, or refused to vote, as Mr. Heister, the Federal candidate did, would have

cen elected. It is not my desire, Mesars. Editors, to discourage the caims of Mr. M'Lanahan. But I think common justice would award the nomination to he worthy and popular representative of the Armstrong and Clearfield District.

I have no doub', that the fact of Col. Bigl r's having received the entire vote of the Damocratic Senators, at the last session, for Speaker, escaped your memories, or you would have done him the ustice to notice it in your article alluded to. "WESTWARD"
