Although these pills produce a known EFFECT, that effect is not to prostrate the body, as with other medicines, but the frame is invigorated by the removal of the cause of weakness, the morbid, the viltated numors from the blood.

Harmless in themselves, they merely

That Brandreth's Pills have stood a seven years' test n the United States. That they are a vegetable and innocent medicine, yet all powerful for the removal of disease, whether chronic ent; infectious or otherwise.

That they purify the blood, and stay the further pro ress of disease in the human body.
That, in many cases, where the dreadful ravages of ulceration had laid bare ligament and hone, and where, to all appearance, no human means could save life, have patients by the use of these pills, been restored to good health; the devouring disease having been completely eradicated. DR. FRANKLIN SAYS: All acute fevers ever require some evacuation to bring them to a perfect crisis and solution, and that even by stools, which must be promoted by art when nature does not do the business itself. On this account, an ill timed scrupulousnessabout the weakness of the body is of bad consequences; for it is that which seems chiefly to make evacuations necessary, which nature attempts after the humors are fit to be expelled, but is not able to accomplish for the most part in these diseases; and I can affirm, that I have given a purge when the pulse has been to low that it could hardly be felt, and the debility exceene, yet both one and the other have been restored by

By their timely use neither the scarlet, the typhus fever of mall pox would ever assume their mailgnant form. To appreciate to the full extent, the incalculable benefits of BRANDRETH'S PILLS, they must be used when the First Symptoms of Disease present themselves. One doze then, and their good effects will be felt throughout the attack-It is taking them in time that is the great secret in the cure of all appearances of disease arising from bad blood, and I presume there are few at the pres

The chest wasthen drawn out of the fire, and cooled, and opened, and examined. The contents were all safe, and the only fajury done was to the back FORT PITT, of one hook which appeared to be a little cuarred. From BREAKWATER, what I witnessed, I think that these chests are deserv EXPRESS MAIL. ing of confidence, as affording, perhaps, the best security o Merchants, for their books and papers, which they can have without building large, thick, and expensive vaults. Also, I would consider them a better security than many vaults which I have seen built. Your friend,
