The democracy of Pennsylvania are not presumptuous in asserting that in common justice they have a right to the candidate of 1814; and when they offer for the candidacy a man who occupies the front rank such as whiting, cod, soles, haddocks, &c. among the eminent statesmen of the naon diet, it appears that 'when he fed upon of men of all parties on questions of vital importance to the interests and horor of the country, they cannot permit the bickering of factions or the schemes of vacillaner of fish, is sufficient proof. The heartless manner in which Col. Johnson has been set aside for one who is considered more available, has disgusted the few who were honestly inclined to postpone our own claims to do honor to the gallant old Soldier, and the party is now almost unanimous in its declaration for the nomination of James Buchanan, the honest, competent, and fearless champion of the people's rights, and defender of the country's honor against the insilent demands of foreign powers. The experience of every day brings us some new evidence of the correct tone of public sentiment on this question in Pennsylvania, and that all efforts to weaken the devotion of the people to the high claims of their own State, or to cool their admiration for their distinguished fellow citizens will prove futile.

JAMES BUCHANAN is the choice of the democracy of the Keystone for the Presidency in 1844; they believe their claims to the nomination just, and their candidate competent and deserving; your granaries, your competent and deserving; and until the decision of the National Convention, they will use every honorable means to induce at the Park. their democratic brethren to do common justice to the noble old commonwealth that has so often sustained the democracy in i s darkest hours of trial, with the expectation meette, yes Massachusetts, will take care of the of no other reward than the consciousness of having maintained the principles of pure reputlicanism. Messrs. Phil ips & Smith.

GENTLEMEN: After my days work, I was much pleased at reading in your useful paper, the letter of the Hon. John C. Spencer. in reply to one addressed to him by the Citiz ns of Rochester, N. Y. I have known Mr. S' from boyhood, as also its gallant and ever to be lamented brother, Capt. P. D. Spencer, who fell gloriously at the battle of Bridgewater, while in the exercise of his duty as aid to General Brown. The comprehensive and impartial statement made by the flon. J. C Spencer, together with his long and well established character and honesty and fair dealing through life, fully satisfies my humble capacity that the most foul means has been used by the leading Whig members of Congress, as well as the press of that party throughout the Union, to misrepresent and persecute our independent, consisent and honest executive. And for what? why, because he will not in violation of his oath of of ice, join in saddling the country with a British Bank of \$50,000,000 for 30 years, thereby creating a political engine whose principal influence would mainly exerted to make the liberty of the people subservient to the views of a corrupt aristic cracy

Now, if President Tyler would prostrate his character for honesty and consistency, by aiding to force such an institution on the country, contrary to the expressed will of the people, then, indeed he would have deserved the execution of a deeply injured people, but as long as John Tyler continues to be a faithful sentinel on the watch tower of liberty, he will be sustained by the honest portion of his fellow citizens. Another of his great sins against Whiggery is, that he will not e a pliant tool in their hands to promote the lection of Henry Clay to the Presidency, who, if my recollection serves me right, has been twice before the people for that office, and at each time received so small a vote, that if he and his friends were not foolhardy, ought to satisfy them that a mongst the bone and sinew of the country he is held in very low estimation. They know him, and have but little confidence in him, and have not forgotten his bargain and sale in 1825, when Good News .- The Charlestown Mercu- the every glorious Jackson was betrayed, and the rights of the people trampled on. Interested and trading politicians may overlook that act of that the man that would triffe with our dearest rights for self-aggrandizement, would, if it were in his power, sell us to the highest bidder. From my acquaintance with you, gentlemen, and the opinion I have formed of your Democracy, I feel that you will as readily publish the plain article of a country Democrat, as the more polished one of the city politicians. Therefore, I trouble you with this rough sketch, and would be obliged by | paid in-subject to the to A WORKING DEMOCRAT. its insertion.

From the Pennsylvanian. Mr. Clay and his six Points of Whiggery.

No. IV.

The fifth of Mr Clay's political points hich he enumerates as the objects of Whig 10th inst. desire, is

"An honest and economical administration of the government, leaving public officers perfect freedom of thought and of the right of suffrage; but with suitable restraints and distribution. 30 sois life against improper interference in elections."

An honest and economical administration a variety of English, German of the government is a thing greatly to be desired by all sorts and conditions of men. man Almanacs for 1843. but as Mr. Clay condescerds not to specify what he would consider such an administration, we must leave it as a vague generality and political clap-trap designed to tickle BOOTS AND SHOBS several buildings before it was extinguish- the ears of grown up children. We now come to a most gratifying piece of intelligence: the office holders are to be left in ossession of perfect freedom of thought! Amazing liberality! As a man can someimes not control his own thoughts, it is a little difficult to perceive how a Whig sisting of Superfine Broad Class President of the United States is to do so for him. Let us be grateful notwithstanding. Give ear, O ye office holders from Maine to Georgia, from Sandy Hook to the Rocky Mountains; you may think what you please of Mr. Clay when he becomes President of the United States, provided on take it out in thinking, like Paddy's owl. If Senator Randolph had contented himself with thinking that a certain Secretary of State was a blackley, he might have saved himself the frouble of fighting a duel, and the expense of mending his flannel surtout. And under the golden age of President Clay (!) the office holders are not only to have the right of thinking but votingthey are to retain the right of suffrage! like other adult white men they are to continue to vote! unspeakable liberality! . but (and it seems that Mr. Clay begrudged leaving day morning, at 6 over them in posession of thought and suffrage Thursday evening. without a but to qualify these privileges,) with suitable restraint against improper in- thus saying much to massength terference at elections." This denunciation of pipe-laving, it is hoped, will not be without its effect in certain quarters. What time stated. do the officers of the National Clay Club (5th and Chesnut street,) say to it? When Mr. Clay beame Secretary of State to a gentleman whom his influence had forced opon an unwilling people, he declared, Give us the patronage and we will make ing Tobacco of the best table.
