WASHINGTON. July 3d. 1838. Sir_Since I have been in this city I have used some o our Dyspeptic medicine with infinite benefit and sati ction, and believe it-to be a most valuable remedy. One of my constituents, Dr. A. Carden, of Campbell county ennecsec, wrote to me to send him some, which I did, and he has imployed it very successfully in his practice. ard says it is invaluable. Mr. Johnson, your agent a his place, thinks you would probably like an agent is l'ennessee... If so, I would recommend Dr. A Carden, a proper person to officiate for the sale of your celebrated edicine. Should you commission him he is willing to act for you. You can send the medicine by water to the care of Robert King & Sons, Knoxville county, Tennes see, or by land to Graham & Houston, Tazewell, East Tennessee. I have no doubt but if you had agents in several counties in East Tennessee, a great deal of medine would be sold. I am going to take some of it home for my own use, and that of my friends, and should like to hear from you whether you would like an agent at Bluntville, Sullivan County, East Tennessee; I can get some of the merchants to act for you as I live near there

Mr. John Denning:- Dear Sir-Having been present esterday, at the experiment which you were pleased to ake, in the presence of a number of our business me of the safety of your IRON CHEST'S, in case of fire, i of the safety of your IRON CHESTS, in case of the safety of your IRON CHESTS, in case of the safety of your IRON CHESTS, in case of the safety of your IRON CHESTS, in case of the safety of the safet judging, the test was fair, and the result exceeded my

expectations.
The Chest was a small one, about 30 inches high, by about 13 or 20 inches in breadth and depth, and was placed on a block of wood about a foot in thickness, so as to elevate it about that height from the ground; several books and newspapers were deposited inside of it, in the ty Guard at the Port of Pilh manner in which Merchants and others would usually first on the list have the im manner in which attercuants and others in wood [slabs place them—a large quantity of light pine wood [slabs from an adjoining Saw Mill,] was then placed around SAVANNA, and above it, and the fire kindled on the windward side, RARITAN, so as to drive the flame against the back part of the chest. The fire was kept up about three quarters of an hour, until you had gone among the spectators and received from them their universal answer that the test was The chest was then drawn out of the fire, and cooled, and opened, and examined. The contents were all safe, and the only injury done was to the back FORT PITT. of one book which appeared to be a little charred. From BREAKWATER. what I witnessed, I think that these chests are deserv ing of confidence, as affording, perhaps, the best security o Merchants for their books and papers, which they can have without building large, thick, and expensive vaults. I would consider them a better security than many vaults which I have seen built. Your triend, SAMUEL CHURCH.

J. Denning, Pittsburgh, Pa. Respected Friend: We have the satisfaction to state as the best recommendation we can give of the utility of your Iron Safes, that we ave one of them which was in an exposed situation in our counting room, at the time of the fire, on the morning of the 10th inst, which consumed our Pork House to gether with a large portion of the meat, lard, &c, which contained; — and that our books and papers which were in the Sale, were entirely uninjured, and were taken and see whether it would not be from it after the fire; without ever being discolored. PUGII & ALVORD. Yours, &c.
