Ice Houses .- We copy the following from the Maine Farmer, and commend it to the attention of all our country readers: "It has often been a matter of astonish-

ment to us that more of our farm houses are not provided with this valuable appendage. The cost of constructing them is very trifling, as the builder can do all within himself,' and at seasons when there is necessarily little else of consequence to occopy his time.

When convenient the location of the ice house should be in the cellar where it will be doubly convenient from the ready facilities which it affords for preserving milk, butter, &c., during the summer, all of which are greatly improved, and often times preserved by ice, when, without it, they would be liable rapidly to deteriate or perhaps spoil. Nothing can be more simple than the modus operandi of constructing them. A hole of the capacity desired, is first excavated in the bottom of the cellar, from five to six feet deep, and at the bottom covered with stones of a small size, after the fashion of paving, and over which when completed, and the interstices filled with clean fine sand is superinduced a stratum of boughs, either of spruce or fir. The sides are then lined with the same material, asis also the top, which is formed of cross work, with an opening about two feet square in the side or centre, to subserve the should be introduced in square cakes, of a uniform size, in order that they may occus py-less room. The whole process, it will be seen, is very simple, and the expense of constructing and filling up, when the materials are near at hand necessarily light. merce thus speaks of the state of affairs in the city of New York:

There is plenty of money now which the owners know not what to do with, and plenty of real estate sold at very low prices, which will be worth very high prices when the wheel turns round.

The calculations were evidently made for the city of New York, but will apply to any of the 'neighboring cities;' as the almanacs say. Men now, in these hard times, are laying the foundations of immense fortunes. Property is sold very low, and the demand for money in business is small. The careful purchasers of real estate will, in two years, have reaped a golden harvest.—U. S. Gozette.

The Thief who Detected Himself.

Be sore your sins will find you out,' is a maxim true as facts can make it. We give a remarkable instance of it, which came to us well authenticated.

Somewhere in Maine, the precise where. abouts we need not tell, lives a merchant whose store is situated near a wharf on the banks of a river. It happened, some years since that he had a large stock of pork readylbarrelled in his cellar.

Going into his cellar, one morning, he discovered the door leading to the wharf to be open, and the key to be in the lock. Suspecting something to be wrong, he examined the barrels in his cellar, and found that one barrel of pork was missing.

Not knowing upon whom to fix the charge he concluded to say nothing about it, but to wait the development of time.

Several months passed and he gained no cue to the theft; when one morning, a man who lived a few miles down the river. came into the store. The merchant re-marked some standerable uneasiness of meaner in him, the knowing him to be a man of reputed mirality, he thought it could be oversioned by nothing but some

The merchant stepped up to his desk rew out an old account of some fifty, and adding to it the price of the pork, he told him to pay the bill or he would expose The bill was paid, and the guilty man went home full of shame and chagrin. Antimasonic Movements.

Thaddeus Stevens, the autocrat of all the Antimasons in Pennsylvania, has issued is ukase commanding his subjects to organize on exclusive antimasonic principle purpose of a door. Into this depot ice and to re commence their war upon secret Societies. He has declared implacable hostility to Clay, and goes strongly for a National Convention, wherein he hopes. to be able to frighten the whippable whigs into another formal abandonment of "Harry of the West." In our own County, meetings have been called to re-organize the Antimasonic par ty upon its old principles. We do no know whether the movement will be any thing like a general one; & we are inclined fice Department; but by striking out those to think that the grasp of whiggery is too fixed upor the Antimasonic party, to be easily thrown off.

It is a motter of little importance to the Democratic party what course the Antimasons may dursue, The triumph of the Democracy is certain, let them organize the mselves as they please. The more or ganization of a party, which has no fixed principles, and no purpose but to obtain office, can effect nothing against the Democracy. The disaster of 1840, was the greatest one that has befallen our party; since the election of the elder Adams .-Through that ordeal we come with more honor than our conquerers, and now our course will be but a succession of triumphs. -No party machinery, however perfect, pieces, and its future career must be a and defeats.

Honorable.-We notice, in the Advocate, of Wednesday, a recraction of a misrepresentation which appeared its columns some weeks since, of Mr. Calhoun's opinions on the right of suffrage, which does honor to the editor. In replying to some remarks of ours, charging the whigs with being opposed to an extension of the right of suffrage, the editor stated that in South Carolina, a property qualification was required by the Corstitution, and that Mr. Calhoun had, in a public address, thanked God that such a restriction did exist in his State. This we contradicted, and called on the editor for the proof, when he immediately took the proper means to inform himself on the subject, and having satisfied himself of the inaccuracy of his first statement, he has published a full and conorable retraction of the charge,

D Darragh, Esq. Dist. att'y-for the U.S. Bladle, Esq for Mulvany. Measrs Wilkins & Fan Amrings, for Lynch

This was an action against David Lynch late Post Master, at Pittsburgh, and Pat rick Mulvany his surety, for alleged delinquencies, and penalties for defaults in not making, as was alleged, quarterly returns as Post Master, at Pittsburgh.

The case excited great interest in consequence of rumors having gone out against Major Lynch, as a public defaulter.

Dec. 1, 1842, a Jury was sworn; and the estimony on the part of the U. States. consisting of accounts, certificates, and depositions from Washington City, were read to the Jury, and the evidence on the part of the U. States was closed.

It was sworn to, in the depositions of the witnesses for the U. States, themselves. hat the quarterly returns for the Quarters, ending in September and December, 1836 were duly rendered by Major Lynch, and that the quarterly accounts ending Sept. 1836, were burnt at the great fire, which destroyed the Gen. Post Office Buildings, at Washington, in December 1836; but it was said that he had not accompanied them with regular Accounts Current for those two quarters: and for this alleged default in not sending on, as was asserted, the Accounts current, along with his Quarterly returns for those two quarters, the Department attempted to charge him with the penalties, under the Act of Congress,being double the estimated receipts of

those two quarters. His Hon. Judge Baldwin, however, intimated that the rendering of the Quarterly matter out, as having taken place before the alleged that he was fully prepared by docu-

there was a balance due him. vould have been a balance against him, according to the Accounts as exhibited and certified by the Auditor of the Post ofny as exhibited in Court by the U. States themselves, there would have been a Balance of some thousand dollars in favor of Major Lynch.

The U. States, therefore, to prevent a verdict in favor of the Defendants, asked leave to take a non suit; which was accordingly granted by the Court, and the jury were discharged without giving a verdict. None of Major Lynch's witnesses were

examined, as it was not necessary; the testimony as offered by the U. States themselves, having sustained his positions.

No event has taken place for a long time, in this city, that has given so much deep and general satisfaction to men of all parties, as the result of this important trial The injurious rumors against Major Lynch, which this suit give rise to are thus exploded, and his character for integrity as a public officer, is triumphantly vindicated. and well managed, - no party policy, how- No man who has ever had any intercourse with ever subtle, can maintain the integrity of him would for a moment entertain a doubt of his the coon party, it is rapidly crumbling to strict hone ty in the discharge of his official du marrying Miss Henshaw was to compel his relaties while Post Master, and all would deeply reseries of internal dissensions, nortifications gret that any harm should come to him from the mistakes of others or an omission to fulfil the strict letter of the law in cases where the interests
