Believing in the principle of Protect. mg Home Industry" he has therefo e had all his articles manufactured by Fittsburgh workmen, and he . has n hesitation in saying that they will be found in every rea peet superior to the Eastern manufactured articles that are offered for sale in the slop shops that have recently Anchored among us.

In these times when Home Industry is occupying large a snare of public attention, as it always should, the rietor of the "Three Big Doors' takes peculiar pride nd pleasure in assuring the citizens of Pittsburgh that his Goods are all manufactured under his own eye, by the echanics of his own town. He does not, like some of his rivals in trade, have his Clothes made up in a distan ity, in another State, nor does he advertise his Stock in bills printed three or four hundred miles from here. He goes on the principle that the mechanics of Pittshurg can do work as well as any others, and he does not de size to draw money from their pockets to support distant workment while be asks them to support him, he does of wish .o impoverish them by a drain to support far off mammoth workshops.
