TO THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE. \_\_This class of individuals is very numerous. They are those with work is an unheating atmosphere. Printers, workters, in feather stores, stone cutiers, bakers, white lead manufacturers, are all more or lass subject to disease ac-cording to the strength of their constitution. The only method to prevent disease, is the occasional use of a medicine which abstracts from the circulation all deleterious humors, and expels them by the bowels. Tonics in any form are injurious, as they only gut off the evil day to make it more faial. The use of Brandreih's Pills will insure health, because they take all impure matter out of the blood; and the body is not weakened but arrangthened by their operation, for these valuable Fills do not force, but they assist nature, and are not opposed.
