The debate on the subject of Universalint the Ark, in Allegheny, between Mr Rogers and Mr Church, closed on Friday evening. Both parties claim the victory.

Millerism, an Earthquake and the Com-...We understand that Brother Fitch, not withstanding his declaration that he Stage, Steamboat, and Canal Boat Bills, with app would leave, (on the strength of which we stated that had left.) is still lecturing in and about the city. He delivered one in the 5th ward, in which he gave a detailed ac count of the manner in which the world would be destroyed. A friend, whose love of the ludicrous is very great, has promised - to furnish us with a "programme" for publication.

An Earthquake visited the citizens of Allegheny on last Friday night, so we are told. Considerable of a crack was seen in the ground above the new Market House, the next morning. We do not hear of the breaking of any dishes, and therefore tive principle of the herbs is thus secured the same conclude that it was no great shakes. But what was of it belongs exclusively to Alle gheny!

There has appeared, for one or two nights prst, if the heavens, a bright streak, which these wholese e decirers in their true light, has been set down as the tail of a Comet! Should it get a little brighter, Brother Fitch may make some capital out of it; and of the Earthqu ke too!

Two boys were entombed on last Satarday for fighting chickens! The chick- tree. Hot besor had lamps of the skin they speedens were let clear. We think that they, ton, should be made to suffer. They violated the peace by exhibiting their pugilistic skill, while the innocent boys merely looked on and grinned.

Some of the appointments of Gov Bouck of New York have caused much dissatis action among many of his friends. They complain that undeserving men have been placed in office, while the claims of the really mericorious favorites of the people have been passed over without being noticed. Our New Yorkfriends ought to know that the system of appointing to offire such men as are most acceptable to the above Lone on the Public Works, by which alone it can be freed from unnecessary expenses and reduced to the system. It is an output of the system of the syste fire such men as are most acceptable to it can be freed from unmeressary expenses, and reduced to its lowest rates; that wish will now be real zed; the State of Fennsylvania having placed Frucks on her Rail recommendations, has fallen somewhat into disuse for the last four years, and that a formula f more kingly policy has been adopted. For the Industrial Column. INDUSTRIAL ASSOCIATION. In a communication published in the Guantles hich would have appeared better in the Mornis ost, and which I have no doobt the editors would nave cheerfully inserted. I stated my personsion that sincers christi ne might with advantage en and no necessary connection with them. Reprised that any hostility to Christianity should claim those institutions as useful to its designs: Any advantage which the human body or the hu. man soul can secure to their complex nature by a fair use of the powers of either, belong to Chilainnity. It was, indeed, an act of impudent pres sumption in Robert Owen to affect any claim to the conception of the social system. I recollect well his parade of plans and purposes in this city ent to me at my residence in Penn at. near Marhury, and | many years ago, for his settlement in the weet. which probably failed for the reason of its creation-a tutile opposition to Christianity .--It resulted, as everything must and should result; in its own subversion, when it has its founds tion in entire ignerance of the great and controlling fact of man's nature, w ich is this: That DITTSBURGH CIRCULATING AND REFERENCE the creature man can have but one of two laws to impel him in the course of life. In either, he must be a slave to his passions, or the subject of the Divine government. Owen disclaimed the latter and his settlement perished in its cwn fires. The social system is forshadowed in the carty days of the Christian age - when the disciples had all things in common-no man saying that aught he possessed was his own.

The Moravian Brethren gave, Ion ago, an example of a social community at Hernhursth, where they were visited by John Wesley. To that peoto this day. No doubt their system might be immuch in fact most, of what is advanced in favor man being has a right to all the comforts his come plex nature demands, always limiting his care h for hap siness wi him the pure bounds of Cori-tian m rilly I go with the roci. I'st for the fullests frees runge which his innegination can picture no the magn ficest field of the future.
