DAILY MORNING POST.

MARCH 22, 1843.

☞The card of Messrs. *Scully & Montague* will be published to-morrow

☞We have received no eastern mail since last Saturday. There are four due to-day.

☞It will be seen by an advertisement that the Rev. Mr Smiley, who was on board the Cutter at the time of the explosion, will preach every night this week.

Evans's Safety Guard.—The painful catastrophe of the Cutter has once more awakened public attention to the importance of the invention of our ingenious townsman, Mr. Evans. Several boats that have not hitherto had Guards have ordered them, and we presume that no new boat will be fitted out here, without having one attached to her boilers. For our part we should not like to make a trip on a boat that was unprovided with the Safety Guard.

New Route to the East.—By reference to Mr. A. Henderson's advertisement it will be seen that he has established a new line to Philadelphia, Baltimore, &c. which promises to be equal to the best in point of comfort. Mr. H. is an old "stager," and his experience in business is a guaranty of the excellence of the boats and coaches he has provided. His enterprise should be successful.

We believe the Millerite Lecturer, Mr. Fitch, has left the city. We are sure that he did not convert a man, but we have heard the names of several women who sincerely believe in the theory. He created very little excitement considering the importance of his Mission.

A Mormon Paper.—Our Exchange papers are all taking about the Mormons having started a paper in this city. This is an error. They did talk of it, but now, so far from starting a paper here, they contemplate *starting* themselves, for Nauvoo.

Yesterday may be set down as the advent of Spring. It has been a long while coming, but is none the less welcome. The sun shone out beautifully, and the snow disappeared, leaving damp and muddy streets behind.

Jefferson's Birth Day.—See the call for a meeting to-night in another part of the paper. Democrats and Whigs are all requested to attend.

Funny.—To see the sleighs yesterday scooting over the paving stones! How delightful was the amusement!

Good.—An old frame building opposite our office is now being torn down, upon the ruins of which we presume, will be erected a beautiful brick. This is right; we hope some other property holders may follow the example. It would not only beautify the city but give an impulse to business.

☞Some folks insist that a man was thrown from his horse last Saturday, and killed dead, some place in Wood street. What could give rise to such a rumor, we cannot think, but it is certain that there is no truth in it.

It has been decided that a streak is not a comet nor a zodiacal light.

A disgraceful row lately broke out in Circleville, Ohio, during which knives and hatchets were freely used. It is feared that one man will not survive his wounds.

The N. O. Picayune has information of a Ship at Sea, bottom upwards, in lat. 24 north, and long. 30 west.

Actors Drowned.—A boat lately left the Canada side of the river, to cross the Niagara river, with a theatrical company of ten persons, when the boat capsized, and all on board were lost.

The Canal from Lafayette, Indiana, to Lake Erie, has been finished, and will be opened in the spring.

Cure for Consumption.—Inhale Iodine. It has been tried with success.

Out of fashion.—Honest industry.

Will always be unhappy.—Men who are impudent to become rich.

An Exchange paper says that Ministers are always in the wrong *tense*. It makes little difference if the hearers are only in the right *mood*.

An extensive jaw bone.—They have a jaw bone in New Orleans 16 feet 8 inches long, 6 feet 10 inches broad, has 49 perfect ivory teeth, and weighs 789 pounds. We got this information out of a newspaper.

The latest sensation in the world has been caused by the discovery of something approximating to reason, in a whig paper. Send us a copy of it.

Judge Wells of Missouri still declines taking any action upon Bankrupt cases, as he thinks the law unconstitutional.

The late Ohio Legislature passed 55 general laws, 315 local laws, and 68 joint resolutions. About 200 bills were not acted on.

RELIGIOUS NOTICE.

☞Rev. Mr. SMILEY, who has been preaching in the South Common Methodist Church, Allegheny, since Friday last, having consented to remain ONE WEEK longer, those who desire to hear him may have the opportunity *Every Night this week*, and during the day and night of *Sabbath next*. Of his abilities as a preacher it is now unnecessary to speak, thousands of our citizens having heard for themselves. This notice is given to satisfy the many inquiries made in relation to his appointments.

March 22.—d3t.

CENTENNIAL ANNIVERSARY

THOMAS JEFFERSON.

The citizens of Allegheny county, in favor of celebrating the *Centennial Birth Day* of the immortal JEFFERSON, are requested to meet at the *Mayor's Office* THIS EVENING, Wednesday 22nd inst., at 7½ o'clock. Men of all parties are invited.

We see that the famed ingenuity of Philadelphia lawyers is to be put to a severe test. Du Solle wishes to know if a woman gets a rich husband by wearing a bustle, whether she might not be legally indicted under the statute for 'obtaining money by false pretences.'

This is a *brave* new question, and we hope to see it sifted to the bottom.—*Exchange pa.*

PHENOMENON IN CHEMISTRY—*East India Hair Die*—colors the hair and will not the skin This Dye is in the form of a Powder which in philosophic fact may be applied to the hair over night, the first night turning the lightest or *grey hair* to dark brown; and by repeating a second or third night, to a jet black. Any person may, therefore, with the least possible trouble, *keep* his hair any dark shade or a perfect black, with the positive assurance that the powder if applied to the skin *will not* color it. There is no coloring in this statement, as any one may easily test. These facts are warranted by the chemist who manufactures it.

INDUSTRIAL ASSOCIATION.

The Exchange Company.

Whether this association will ever get into practical operation, or not, it is not our purpose to predict; but in this article we intend to explain, briefly, the object of those engaged in getting it up.

The first great thing has been accomplished, viz: agreeing upon the articles of the Constitution.

The next matter is to ascertain how many men there are who are willing to engage and invest their capital in it.—There are now enough men, possessing ample Capital for the enterprise, who are anxious to go on with it, if they felt assured that they would be reinforced in due season. That this, too, would be done we have no doubt. We think that in this city and vicinity two hundred families might be found who would readily join an Industrial Association, with an aggregate capital of one hundred thousand dollars.

The next thing is a location. About one, two, or three thousand acres of good land, possessing iron ore and coal, within fifty or one hundred miles of Pittsburgh, on some navigable stream, would be wanted. Such sites are numerous up the Allegheny, and could be had cheap.

The great desideratum is the courage to begin the enterprise. If the Exchange Company should fail to go into operation, we must attribute it to that, for every obstacle which in the outset presented itself, has been removed.

A good leader is wanted who will bear the brunt of the enterprise. With an intelligent and energetic man who will go before and clear the way, the Exchange Company could be in operation in less than three months.
