While on the subject of Comets, we give the following interesting statement from the Peana. Enquirer:

"Of 504 comets that have entered the sofar system, 24 have passed between Mercary and the Sun, 47 within Venus, 58 between Venus and the Earth, 73 between the Earth and Mars, and 302 between Mars end the orbit of Jupiter, and no casualty has occurred to primary or satellite. The comet of 1770 passed thuough the system of Jupiter without producing the slightest effect; still many people are alarmed at the appearance of these erratic bodies, here rail cars of the stellar regions, the mystery of whose office and destiny makes their astronomy of intense interest.

"With reference to the danger of a comet's striking the earth, we here add, that the comet Enecke, whose period is only 1207 and during the day and night of Sabbath next. days and nearest the earth of all the comets Ofhis abilities as a preacter is now unnecessary known, cannot come in collision short of a to speak, thousands of our citiz as having heard wyoming bank. perion of 219,000,000 of years, which calculation is based on astronomical facts.
