TTO THE PUBLIC, and particularly to my former patrons of this city;—Having retired from the practice of Medicine, I may be permitted to say, that it has fallen to the lot of last few persons to have enjoyed so liberal or large a share of obstretrical practice as my wn has been for the last 30 or 40 years. The experience of that long period of active life, and the fact of my having been twice, since 1830, associated with Dr. R. A.
