

Triumph of the Factory girls.—We are gratified to understand that the girls who turned out against a reduction of wages in the city of Allegheny, have obtained all they demanded. On Friday evening the proprietor of the Hope declared to the mass that he would do as the girls wished, and that he would give them \$2.25 per week in cash, whether the other proprietors would do so or not. During the evening, however, the others complied with the just demands of the spirited girls. Blackstock commenced operations on Saturday, and the other mills commenced to day.

P. S. On Saturday they had another parade, on jubilee for the success of the "strike," an immense number of girls was in the procession, all dressed with neatness and taste. They were attended by the German Band, and marched to the Beaver at Church, where they were addressed by Messrs Curry, Glass and Elder. This was the first of the "Amazonian War," and we expect that the employers are out of danger until they make another attempt to pull down the wages of their operatives.

We would like to know.—We would like to know how the editors of the Post found out that the villainous but fortunately unsuccessful attempt to burn the building attached to Graff's warehouse, was "a hoax."—*Chronicle.*

We can only say, for the information of the editors on this important and deeply agitating subject, that we were told it was "a hoax" by a man employed in the warehouse, whose word we considered better than flying rumors. "We would like to know" if the Chronicle men are satisfied. If not, let them petition the Councils to appoint a Committee to investigate the matter immediately, while the public mind is excited.

The Effects of the strike.
The origin of the strike among the Factory girls of Allegheny, was this—Herebefore they have been receiving \$2.25 per week in orders on stores, but owing to a change in affairs, the masters have discovered that the system might be abandoned to great advantage; and in secret conference, agreed to pay cash in future, but to reduce the wages to \$1.75. Hence the strike.

The girls having stood out for nearly a whole week, and public sympathy being strongly on their side, they have gained their object, viz: \$2.25 per week (which, God knows, is little enough). The proprietors have yielded to their demands.

Thus, by one bold effort, has the swindling order system been abolished in the Cotton Factories. Cannot the operatives in other establishments follow suit? We think so. If little girls can do it, why not men? They have one glorious example before them; and they must bear in mind that non-reform in their condition can be accomplished by any other means than union and firmness in adhering to what is their right. Public opinion will sustain them in every lawful step they may take to ameliorate their condition.

"The Spy" made its appearance last Saturday, and a great affair it is too. Its attempt to identify Fourierism with the squash scheme of the late Co-Operator, shows that the editor did not know what he was writing about. People may not advocate Fourierism, but we envy not the head or heart of any man who can oppose it.

Some awful disclosures are about to be made by the P.-O., relative to the rumored appointment of Platt to the Associate Judgeship. Stand firm, under whatever the indignation of the Post falls, there is no state annihilation.—*Sun.*

We refrain from giving the name of the author until the indignation of the public is cooled down. The author deserves the eternal execration of the whole human family, yet we forbear at the present crisis.

Ban for His Life.
We hear that a certain Factory master on late Thursday, thought it prudent to make his exit, when he saw one of the girls (about 14 years of age), preparing to give him a bat on the head with a stick. The courageous man saved his bacon by virtue of his heels, which, on this occasion, if we are rightly informed, performed the duties of their office admirably.

Disastrous Fire—caused by an Iustine Soap.—On last Wednesday night last a most disastrous fire occurred on the farm of Thos. McLean, of Fayette Township. His barn was totally destroyed with all its contents, viz: 180 bushels Oats; 80 Bysso Wheat & 60 bales of s; and the fire was arrested before much damage was done.

We have been informed that this sad casualty was brought upon Mr. McLean by using soap, who was confined in the common jail about 12 months ago, since

when he has been at home. He set fire to the barn and house at the same time, and the whole family might have perished had they not been awakened by the smoke.

As a former inmate he was detected in the act of scaling up the windows and doors in order to prevent the escape of the family while he would fire the dwelling.

We are told that he has been lodged in jail.

Dan Marble is expected in town to day.
The Theatre was filled on Saturday night every person appeared anxious to see the Deacon and the Professor on the stage. See bill for to night.

Yesterday was the 23d of April. All's as well as usual and not a particle of the earth has been destroyed.

A couple of Pittsburgh swag-lucks have got themselves into trouble in Cincinnati. Let them get out of it.

Flynn has gotten himself into some what of a snarl with some of the Pittsburgh editors. Editor, at rather un-Alyon-shing opponents.—*Philad. Sp. Times.*

F. R. Shunk.—The Democrats of Jefferson county, in mass meeting, have recommended F. R. Shunk, Esq., as the next Democratic candidate for Governor.

The New Government of Hayti.—The flight of Boyer, late President of Hayti, leaves the insurgents masters of the Government. The Provisional Executive is now Charles F. Delmas, who issues his proclamation as Chief Executive of the will and resolutions of the Sovereign People.

In one of the manifestos of the chiefs of the revolution, they say "Hayti is a republic, the Queen of the World, and she must produce all the impulses toward the black race and the American race. They will need some help to carry out these magnificent purposes. Among the charges against President Boyer and his officers is that they owned slaves, but it is not stated how of whose. Hayti is just the place for ambitious colored men to get education to go to now.—*Sp. of Tms.*

Cure for Liver Complaint.
A OR Jaundice, Dropsy, Indigestion, Weakness, and Swelling of the Stomach, Liver, and Gall bladder, Headache, Asthma, Rheumatism, Female Obstructions, and a variety of other complaints arising from a diseased state of the Liver and its secretions.

The following certificates among many others, will convince the public that the article is just what is wanted for a valuable remedy for the disease above named.

The Hepatic Elixir is prepared by J. Starkweather, Sole Proprietor, Union, Mass, by whom each bill of directions will be signed in his own handwriting.

This certifies that my wife, Mary Ann Johnson, was for several weeks afflicted with jaundice, dropsy, indigestion, and weakness, and all other complaints arising from a diseased state of the Liver and its secretions. She had been confined to her bed for several weeks, and was unable to perform any labor.

She was cured by the use of your Hepatic Elixir, and now she is as well as ever, and is able to perform any labor.

TO LET.

DANIEL M. CURRY, Attorney at Law.
Office on the corner of Wood and Smithfield streets, between Wood and Smithfield, No. 38.

WARD & HUNT, Printers.
Liberty Bells for sale at 21 North Second street, at No. 21 North Second street.

FOR SAFETY.

Travelers should select Bosts provided with Fuses Safety Guards, for preventing Explosion of Steam Boilers. It is found that their security depends entirely upon the introduction of an insurance against the explosion of the above apparatus. And the very individual making such selection is contributing towards a general introduction of an insurance against the explosion of the above apparatus. They are sold at a price which is sufficient to insure the traveler from all danger of explosion, and in every instance, they are found to be the most reliable and most secure.
