Virginia Election. The news we have received in addition to what we published yesterday, shows that the democracy of Virginia are, as ueual, answerving in their attachment to true principles. Grent Riot in Boston. About 4 o'clock on Thursday morning, a great riot courred in Boston, in relation to the possess. sion of the "Bowdoin E-tate," which is of immense value, and has occasioned much litigation of late. It is a sort of "disputed territory," claimed on one part by Bowdein college, (Me.) as a testamentary bequest, and on the other by certain heirs who deny the claim of the college. The college, to protect their rights, fortified the disputed territory by the erection of a formidable fence around it, and a carpenter's shop in the centre as a fort. The Boston claimants have been for months eyeing this citadel and the broad lands around it with mischievous eyes.

On Thursday marning, the 'Times' states that Mr. Amos Cotting of that city, agent for the estracized heirs arose right early, and summoned to his aid a band of gallant troops 250 in number; all sturdy mechanics of Beston. The whole body then proceeded to the premises. Cotting gave the signal, and after a brief interval, during which the crashing of boards, the creaking of posts, and the cheers of the men, broke upon the care, the stockade was levelled and the two buildings within torn down completely. Of course the noise alarmed all the neighborhood.
