The experience of that long period of active life, and the act of my having been twice, since 1830, associated with Dr. R. A. Wilson, in the practice of medicine, (in both) period of five years.) enables me to judge fully of the merits of his pulls. So convenient, so efficient, and yet so safe, did I esteem bese pills, that for the last five years in my practice, for be cure of chronic diseases, of whatever name, and those

Like every other medicine, this must fail in some in stances, but in my hands there has been tess disappoint. nent and more satisfaction in the administration of the nite amonishing mr. If my patient required a safe aperient medicine either fore or after parturition, the Wilson's puls were just he thing I wanted.
If a dyspeptic acid condition of the stomach, combined ville costiveness or inactivity of the liver constituted th isease of my patient, the pills were just the thing I 10 Literated a case requiring an emmenagogue, the Wilson's pills were just the thing I wanted. If palpitation, headache, fluxlied countenance, or other difficulties, indicating a disturbance of the circulatory and secretory systems, annoyed my patient at the sturn of life," the Wilson's pills were just the thing I wanted.

Thus, without respect to the name, a disease might happen to wear at the time I have had it under treat ment, particular indications or symptons arising, were always most promptly and most happily met by the life in the patient happen to wear and sash machines. In conclusion, it is due the eputation of the medicine and the public, to say decidedly and unconditionally, that the Wilson's pilts are the cost combination I have ever met with in my tong course of practice, that really pushessens anything curative or specific for sick headache.
