We observe that the first part of the Autimasonic Address, published in the Gazette of the 17th, is signed by Harmer Denny, D. Gilleland, T. M. Marshall, F. Karns and T. L. McMillan, the Committee of Address appointed at the MormonChurch Convention; but the last part of the Address appeared in the same paper of the 231, having the names of all the committee, with the exception of Mr Denny. How is this? Is the absence of his name a mistake of the printers, or did the balance of the committee expel him? Or-what is most probable-did Mr. Denny refuse to sanctached, to drag the slimy principles of political abolitionism along with it in the next coatest, and tains it is well worth the price of subscripthus render antimasoury doubly repugnant to every tion. liberal minded men? Mr. Denny is a prudent shrewd politician, and sees clearly that antima. sonry of itself is sufficiently odious at the present time, without the addition of political abolition .-

to soften it down so as to permit a mixture of whiggery; but the true blue notes became more "darkly blue" at the proposition, and not only voted down the conciliatory policy of Mr. D., but resolved to take to their embrace, the incendiary principles of the foreign disturbers of the peace hi he community. Antimasoney and Abolitionism are now indissolubly united, and those who sustain the first must also approve the efforts that are making by the abolition emissarios of Great Britain to excite a large portion of the population of the country to rebellion and bloodshed. We do not wonder that Mr Denny should refuse his name to an address sanctioning such principles.

The truth is, the nemeves ne can oner stronger inducements chan any similar establishment in this city to country Physicians and the country has been exporting more than she similar establishment in this city to country Physicians and Merchanis, who wish to supply themselves with millions of dollars, has arrived at New York, New Orleans, and many other points. It is confidently stated that since the first of January last, upwards of \$20 000,000 have been received in this country in specie eith r from Europe or Mexico, and that \$6.00.000 more will arrive before the imports of the season in ty be considered as over. T us then, we have been selling cotton, pork, tobacen, and other products to an extent unexampled before in our history, and have been purchasing foreign goods in return, with moderation and economy, instead of in a spirit of wild extravagance. The effect of this will be beneficial to the country; and could we only manage our State in debidness in an honest and above board manner, we should soon recover our high position among the nations, and resume the path of national prosposity. An ther reason for the abundance of money may be found in the fact, that so many transactions are now of a cash nature. Thus capital passes from hand to hand, is often turned, as the phrase is, and a smaller amount serves the purpo. ses of trade than under the old system. We have made some inquiries, and find that our intelligent capitalists incline to the opinion, that the demand money will not increase very materially until fall. They cannot, they say, discover any reason for the increase before that time. The opinion everywhere prevails that the country is gradually sections, we are assure! that many families and plantations, have abstained from the use of tea, coffee, and even sugar for months, having fallen behindhand, or being unwilling or unable to increase their indebtedness further, until they could realize from their last crops.
