

This evening the Whigs and part of the Antislavery hold their primary meetings. The Union Convention will be held next Wednesday.

To-night the very interesting and amusing play of "Joc-koo-oo" is to be repeated. It is certainly one of the best new dramas that has been produced at our Theatre for some time. Another new drama entitled "Daniel Boone" will be presented. It is well spoken of by those who have seen it. Miss Cohen appears in two dances, which alone are worth the price of admission. Considering the variety of entertainments to be given to-night we anticipate a crowded house.

We are told that all applications for licenses by persons not having the requisite accommodations for travellers, will be rejected by the Court at this time. Many in the city have been rejected already.

Copies of the Constitution of the "Trades' Union" can be had at our publication office, and at No. 91 Wood street, near Diamond Alley.

The Colonel of the 106th has found his guns that were stolen from him about the time of the late "train" in Allegheny. They were carefully stowed away in a certain place. A great question is whether or not the theft was committed for fun or for speculation. Time will tell, and then the vengeance of the bloody militia of Allegheny, fall upon the guilty, with severity proportionate to the offence.

Hog Worrying.—This sport may be seen all over the city, but the finest exhibitions take place in the 6th ward.

Skeleton Found.—As some workmen were digging a well in the 6th ward, at the corner of Penn and O'Hara streets, they dug up a skeleton. It had apparently been deposited without a coffin, in a hole just large enough to thrust the body in. It was about three feet below the surface.

All the old night watch have been re-appointed. We are glad our friend Scott will leave to pay his morning visit to some of our folks, but we couldn't visit to do without being blessed with the light of his countenance at about 3 o'clock A. M.

Once More.—We again risk a squib on the subject of the weather. Yesterday morning was cold, but the sun shone out beautifully in the afternoon and soon warmed us considerably. Perhaps we may have a few days of dry weather, but we can't speak positively of to-morrow is Sunday, or rainy day.

Editorial Change.—We were sorry to see the vacillations of Mr. Russell Ercot in the Sun of yesterday; and we doubt not his regretted by his brethren of the press generally. He has been successful as an editor, and we wish him prosper in whatever pursuit he may hereafter engage.

Some of our city merchants talk of closing their stores during the summer months at an earlier hour than they have heretofore been in the habit of doing. Should the rules be adopted by all, it would be an advantage to the merchants and their clerks, but it would be a serious inconvenience to many workmen, who have no other time than at night to do their shopping.

Minersville must, indeed, be a great place. We get more "items" from it than from any other town of its size in the country. Hardly a day passes but some thing uncommon turns up which throws the whole neighborhood agog. But the latest item we are called upon to record by far outstrips any thing that has ever agitated poor mortal man before. "Perpetual motion" has been discovered by a number of the scientific natives of the above-mentioned place! This is true; at least so says our informant, who we have always considered good. Let us see what he has contended that "a thing to go all the time and never stop," was an impossibility; now give us; their "negative theory" is done for. Hurra for Minersville!

Tranx Gold. The following article, relative to the miners' wealth of the country, is from a late number of the Red Lander:

"A party was recently conducted to the silver mines situated between the streams of Lingo and Helden, discovered and brought away specimens of gold, found in small particles through a piece of an old Indian, who states that he was formerly worked these mines; as evidence of which he has shown three old furnaces. Mr. Helden has stated the gold region of Georgia, and expressed a belief that the country from there may produce as much gold as any other part of that state. The old man says that there are two large veins of pure silver in the bed of a small stream above Lingo, and has offered to hunt to the bottom of the stream, and if he should find any more projecting above the rocks, so as to be panned to a knife like gold."

A correct measurement of the depth of snow that has fallen at N. Thompson, N. H., since Nov. 24, 1842, makes on a level, 9 feet 3 inches.

THEATRE.

This Evening will be performed the Indian Drama **JOC KO SOT, Or, The Banished Indian.** Written by A. L. Pickering.

After which, the new Drama of **DANIEL BOON; Or, The Pioneer.**

The Dark and Bloody Ground. **DANIEL BOON** JOCK SOT, MR. PICKERING.

Two favorite Dances by La Femme Canadienne Mlle. ZARAH COHEN.

Doors open at 7 o'clock. Performance to commence at 8 o'clock. Lower Boxes, 50 cents. Second Tier, 37 cents. Pit 25 cents. Gallery 12 1/2 cents.
