Destructive Plood. On Sunday evening last, we had in all his quarter a very great fall of rain; but in he northern portion of the county, it poured down, our friends inform us, with tre mendous power; and in consequence there has been a very destructive flood, particuarly in the smaller streams, inundating all the low lands, sweeping away bridges, mills, dams, cattle, sheep, fences and grain, to an extraordinary extent-destroying property to the amount of many thousands of dollars. It is impossible to gather the particulars with any thing like accuracy: but all accounts agree that Little Beaver, Big Beaver, Shenango, &c., were never before visited with such a sudden and destructive flood. Two bridges on Little Beaver have been carried off; and we learn that not one is left on Hickory Creek;
