B. DONAGHY.

CAUSTIC or the Knife was formerly resorted to in all cases of lues, scrofula and wounds, where mortifications appeared. The necessity for such sharp practice exists no longer. The Magical Pain Extractor, Count Cornelius C. Maiden Lane is far more efficient proven cure of mortification than cold steel or nitrate of silver. The application of this wonderful compound instantly removes the local pain and of the wound, scald, burns or bruise to which it is applied, and in order to render cure immediate, it will in a very short space of time restore the part affected to a sound and healthy state without leaving the circatrix behind. This preparation is also a certain remedy for inflamed eyes, cancerous sores, open or broken boils and ore nipple and all abrasions and eruptions of the skin. Its success as a cure for the piles is unparalleled and the vouchers for its extensive properties are from the most respectable and enlightened sources.—Herald.
For sale at TUTTLE'S, 86 Fourth street.

PHENOMENON IN CHEMISTRY—East India Hair Dye—Colors the hair and will not die the skin. This Dye is in the form of a Powder which in plain matter of fact may be applied to the hair over night, the first night turning the lightest or *grey hair* to dark brown; and by repeating a second or third night, to a jet black. Any person may, therefore, with the least possible trouble *keep* his hair any dark shade or a perfect black, with the positive assurance that the powder if applied to the skin *will not* color it. There is no coloring in this statement, as any one may easily test. These facts are warranted by the chemist who manufactures it.

BETTER BARGAINS THAN EVER AT THE
THREE BIG DOORS.
THE subscriber would respectfully inform his customers and the public generally, that notwithstanding the unprecedented sales at the Three Big Doors, during the present season; he has still on hand the largest and most varied assortment of elegant CLOTHING that can be bought west of the mountains. The public may rest assured that all articles offered at his store are manufactured from FRESH GOODS, purchased in the Eastern markets this Spring, and made into garments by Pittsburgh workmen.
In consequence of the multiplication of slop shops in our city, filled with pawn-brokers clothes and the musty, cast off garments of former seasons, from the eastern cities, the public should be cautious to ascertain the character of the establishments in which they are invited to purchase, before they part with their money. The articles offered at several of the concerns in this city, are the mere offals of New York and Philadelphia slop shops, and sent out here to be palmed off on the Pittsburgh public. Purchasers should be on their guard against these impositions, and they may rely on the fact that no establishment that advertises *eastern made* Clothing, can give as good an article or as advantageous bargains as can be had at the "Three Big Doors."
The public will please remember that all the subscriber's garments are made in *this city,* by competent workmen, and not gathered up like the goods now offered by the "birds of passage" from the shreds and patches of eastern slop shops. It will always be his endeavor to maintain the reputation that the "Three Big Doors" have obtained for furnishing a superior style of CLOTHING in every respect, and at prices below those of any other establishment.
He would again return his thanks to his friends and the public for the unprecedented patronage bestowed upon his establishment, and believing that they have found it to their advantage to deal with him, he would repeat his invitation to all those who wish to purchase Clothing of every description at the lowest price to call at No. 151, LIBERTY St. JOHN M'CLOSKY.

PROSPECTUS!
For publishing a new Daily Paper in the City of Pittsburgh, to be entitled the
DAILY MORNING POST.
THE Subscribers having made arrangements to merge the American Manufacturer and Pittsburgh Mercury into one Journal, have concluded to publish a daily paper with the title of the *Daily Morning Post.*
The leading object of the "Post" will be the dissemination and defence of the political principles that have heretofore been maintained by the Editors, in their respective papers, and their best efforts will still be devoted to the advancement and success of those doctrines.
Although, in politics, the paper will be thoroughly democratic, yet the Editors hope, by giving an honest, candid history of passing Political events, Foreign and Domestic Intelligence, and brief notices of all matters and occurrences that come properly within the sphere of a Public Journal, to make their paper sufficiently interesting to entitle it to the patronage of the public, irrespective of party considerations.
In addition to the political and general news that will be found in the "*Morning Post,*" the Editors will take pains to furnish the business community with the latest and most interesting COMMERCIAL INTELLIGENCE from all parts of the country, and to have prepared such accounts of the Markets and the State of Trade as will be advantageous to our Merchants and Business Men in their several callings.
Terms.—The Post will be published on a large imperial sheet of fine paper, (manufactured especially for this Journal) at the unusually low rate of FIVE DOLLARS per annum, payable in advance. It will also be sold by news boys at the low rate of TWO CENTS a copy.
Advertisements will be inserted at the lowest rates charged by the other daily papers of the city.
☞ TWENTY active ladies are wanted to sell the Post, who will be engaged on the most liberal terms

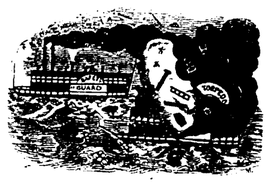
FOR SAFETY.



Travelers should select Boats provided with Evans's Safety Guards, for preventing Explosion of Steam Boilers.
IT would be well for the traveling community to bear in mind that their security depends entirely upon their own encouragement of boats that have or may be at the expense of procuring the above apparatus. And that every individual making such selection is contributing towards a general introduction of an invention admired by all men who understand the principles of the Steam Engine, to be a sure preventative against those dreadful disasters You have only to calculate, in the hundreds of explosions that have already taken place, their almost daily occurrence, and the thousands of lives that have already been lost, a sufficient warning, and inducement to make inquiry for a Safety guard Boat, and in every case to give it the preference. They have went to an additional expense that your lives may be secure Ought you not therefore to meet them with a corresponding degree of liberality, and by your preference show that you appreciate their laudable endeavors to stop this awful sacrifice of human life. They do not charge more than other boats; their accommodations in other respects are equal, and in many cases superior; and as there is one leaving Pittsburgh every day, why will you run any risk, when it is so comfortely in your own power to avoid those disasters.
All boats marked thus [*] in the List of Arrivals and Departures, in another part of this paper, are supplied with the Safety Guard.

DAILY MORNING POST

From the Mt. Vernon Banner.

What it Costs the People.

The whig bankers are anxious to furnish the people with a currency that will save them the trouble of *toting* about the 'hard.' That is, they will keep the 'hard' for themselves, kind *souls!* and give the people the soft rags which are much lighter to handle, and more easily carried about!! They remind us of an Irishman, who meeting a friend with a bag of oysters in the shell upon his back, kindly volunteered to 'gut' them to lighten his load. So with these whig bankers, they pity the people *so much* when they are loaded down with specie, and kindly volunteer to 'gut it' for them. The Chillicothe Advertiser gives, in the following, the cost of that operation, for a short period:

Enormous Losses by Banks.—Those who think that the country is enriched by bank notes, which are merely evidences of debt, will do well to examine the following statistical table, which is taken from the United States almanac, for 1843, a work of sterling merit:

Losses by Banks from the year 1837 to 1842.

Bank circulation and deposits.	$54,000,000
Bank capital failed and depreciated,	284,000,000
State stock depreciated,	100,000,000
Company stock,	80,000,000
Real estate,	300,000,000
	$818,000,000

☞ EIGHT HUNDRED AND EIGHTEEN MILLIONS OF DOLLARS lost in five years by the bursting of the paper bubbles! Is it any wonder that the people are complaining of hard times?

☞ NOT DEAD YET.—The Boston Post says that a Millerite at Pittsburgh imparts a lively effect to his annunciation respecting the second advent, by blowing a *tin horn* between the pauses in his sermons, to represent the sound of the last trumpet! The Syracuse Journal contains the following advertisement:

Burning of the world.—At the Congregational church, on Sabbath evening next, at 7 o'clock, Rev. P. Castleton will deliver a lecture on the relation the final conflagration sustains to the general deluge—offering the most important mythological and geological proofs of the latter, and exhibiting the most prominent chemical and pyrological phen
