POR PRESIDENT. JAMES BUCHANAN bject to the decision of a National Convention. DAILY MORNING POST. TES. PHILLIPS & WM. H. ERITH, EDITORS AND PROPRIETORS FRIDAY, JULY 7, 1843.

CRAWF RD COUNTY .- The County Convention met at Meadville on the 27th ult., Wm. Porter, Esq., of Fairfield, President, and Viucent Pholps and Peter Day, Secretaries. The Retuen Judges from the diff. rent townships, presented the results of the primary meetings held on the 23d, and the following gentlemen were duly hominated; Congress -M. B. Lowry. -Assembly-Alex. Power, M. A. Irwin.

Treasurer,-John E. Smith. Commissioner .- Samuel Forker. Auditor .- Joseph Cochran. The conference, to meet those of Mercer and $V\varepsilon$

wango in the Congressional Conference, are James K. McFarland, Wm. P. Shattuck, Dr. Joseph Gray, Wm. McLaughlin, Esq., and David Bligh. We are gratified to learn that the best feeling exists among the democrats, and that all the little difficulties that annoyed the party last year, I ave been happily adjusted. Their system of managing matters in their delegate meeting . is a most excellent one, and besides facilitating business in the convention, gives a fair and undoubted exfor the county town. pression of the wishes of the people in the several districts. The mode by which they make the nominations, is to vote for the candidates for the different offices at the primary meetings, and when

the county convention assembles, the votes a re counted, and the person having ruc ived the greatder will out.' est number is declared to be duly nominated .--This system saves the convention from much trapble, and prevents delegates from asting contrary to the wishes of their constituents.

In Westmoreland they have avreed upon a apportionment for the elec ion of delegates, which is an improvement on the system, but, in our opinion, not so useful as the plan adopted by our friends in Crawford. The following is the apportionment agreed upon by the county conven-Lion —

"Eich borough or township having more than 100 and less than 250 taxables, to elect one delegate; more than 250 and less than 500, two del gates: more than 700 4 delegates. We would like to see some improvement such as me have have actively introduced into the dely. egate system of our own county. Although the huisiness of our county convention is conducted row at Tremost Row if all the militia hes Robert Porter Esq. then delivered an used in such a manner as would be unsatisfactory to the great body of the party. If a judicious plan for remodeling the system should be presented to a convention for the purpose, we have no doubt but many salutary reforms might be made, which would save future conventions from much trouble. and ensure to the party a more certain expression of its wishes in the nomination of candidates.
