

MONDAY, JULY 24.

Chrysalis.—In the second line of the first paragraph of Judge Shaler's letter read "in" in place of "by," the last word in the line. In third line of same paragraph, insert "in" between "candor" and "which."

The Washington Banner.—Mr. C. C. Pleson, who has been editor of this paper since its commencement, has just resigned. We regret this on account of the service rendered by Mr. P. in the cause of Temperance; but for his own sake we are glad he has escaped the troubles inherent in editorial life. In his vocabulary Mr. Pleson says of the establishment in order to seek some support, by manual labor, port wine, with health to discourage an "I" am tired of it."

A Pleasure Party.—A number of gentlemen belonging to the Vigilant Fire Company of Philadelphia, arrived here on Saturday last, in the steam tug, which they chartered, from that city, via Baltimore and Annapolis. They appeared very much pleased with their excursion, and left here yesterday morning for Philadelphia by way of Delaware Bay.—*Norfolk Beacon.*

The firemen of Pittsburgh are equal, if not superior to those of eastern cities, in extinguishing fires, getting up parades and ducking each other with water; but in the way of pleasure excursions and social parties, they are so conducive to health, good feeling, &c., they are far behind them. We believe nothing of the kind has ever been talked of in this city by the members of any of the fire companies. Now that business is slack and the weather warm, how delightful it would be to take an excursion up or down the river in a boat, each man with his own cap, &c.

N. B.—Since the above was written a member of the Duquesne suggested to us that the firemen should prepare for the Pic Nic. Not a bad idea—let them think of it.

The Sun is down with vengeance on a certain M. D. for refusing to pay his advertising bill, and when refused any further accommodation, attempting to injure the paper by speaking disparagingly of it. We think there must be some mistake in this matter, for if we are rightly informed, we do not believe it possible that he would refuse to pay his printing bill. Although small in stature, we have always supposed that he had a soul large enough for Phil McCool, and as he has filled a large space in public attention for some time past, it would be very strange if the world would not be very strange if he would refuse to pay the importance by refusing to pay the printer. We are certain our contemporary has made some mistake, and to satisfy our mind, and spare the Sun in error, we will present the Doctor a bill in a few days, which we have no doubt he will pay at sight.

Have the Police taken any steps to discover the origin of the fire on Friday morning at the corner of Wood street and Virgin alley? As the house had been vacant for a long time, there is no doubt; but it was set on fire, and the most active measures should be taken to ferret out the incendiaries. This fire and the numerous robberies that have been committed of late, show that our city is infested with a nefarious gang of outlaws, and the utmost vigilance should be used by our day and night police to apprehend and have them punished.

Smith and Phillips.—Gentlemen, On receiving the Mercury and Manufacturer of the 7th July, I was surprised to find inside the wrapper an additional paper, called the Pittsburgh Daily Gazette, printed only on one side, bearing date July 5th, and devoted to the cause of Antislavery. First came the real pure antislavery ticket for Congress, &c. &c., next were a number of communications from N. B. Craig the "green eyed monster" (his title is a little hackneyed, but then it is so appropriate). I have not as yet found from whence the paper in question emanated, it certainly did not leave your office. I consider myself insulted, because I have long looked on political antagonism as the greatest of the host of wrongs which we are surrounded by, and no man, I care nothing for meanness or meanness—but I am opposed to anything from the pen of N. B. Craig, I have always considered him a foe to democratic principles—a foe to the rights of man. I hope not to be insulted again with any such document as the Pittsburgh Daily Gazette, of July 5th. You may publish the above or any part of it if you think proper, for untimely explanation or apology is made, you will still please to consider that I remain, in truth, your very unjust subscriber, Tallycree, July 1843. J. H. H.

Later from Mexico.—The schr. Amazon, at New Orleans, arrived on the 11th from Vera Cruz, with city of Mexico dates to the 24th. There is not the slightest news of interest. The papers are filled with the monotonous details of acknowledged the new Constitution, and swear-
