THOSE WHOSE OCCUPATIONS TEND TO PRODUCE OR AGGRAVATE DISEASE.—This these of individuals is very numerous. They are those who work in an anhealthy atmosphere. Printers, workmen in feather stores, stone cutters, bakers, white lead manufacturers, are all more or less subject to disease according to the strength of their constitution. The only method to prevent disease, is the occasional use of a medicine which abstracts from the circulation all deletevious humors, and expels them by the bowels. Tonics in any form are injurious, as they only put off the evil fay to make it more fatal. The use of Brandreth's Pills will insure health, because they take all impure matter out of the blood; and the body is not weakened but strengthened by their operation, for these valuable Pills do not force, but they assist nature, and are not opposed,

Sing Sing, January 21, 1843. Doctor Benjumin Brandreth-Honored Sir: Owing you a debt of gratitude that money cannot pay, I am

induced to make a public acknowledgement of the benefit my wife has derived from your invaluable pills. About three years this winter she was taken with a pain in her ankle, which soon became very much inflamed and swollen, so much so that we became alarmed, and sent for the doctor. During his attendance the pain and swell ng increased to an alarming degree, and in three weeks from its first commencing it became a running sore She could get no rest at night the pain was so greated our first Doctor attended her for six months, at she received no benefit whatever, the pain growing worse, and the sore larger all the white. We therefore sought other aid in a Botanical doctor, who said when he first saw it that he could soon cure the sore, and give her ease at once. To our surprise he gave her no relief, and acknowledged that it baffled all his skill.
