ly astonishing. Eleven years ago, but 32 miles of railwatch fobs; so that when a gentleman is heard to exgle hearted devotion of the august scholar and expericoal were in use in the whole United States; now there are between four and five thousand miles: then only six plode in a street or alley, folks will say to themselves, menter, for truth. Believe not in the wisdom of your miles of read were in use in the vicinity of Boston, now greater length of railroad than there was then constitute in use, and these imported from England; the head, has attempted to pull out his pocket handnow there are more than five hundred which have been kerchief without going through the proper preliminaported some to Russia, some to Austria, and several gency.
to England; then a dead level on a railroad was deemed necessary, and grades of thirty feet to a mile hardly thought admissable; now engines are in daily use which tradition grades of eighty feet to a mile. We gather these statistics from an article in the Railroad Journal.

But there is a dark side to the picture. Many of our States have rushed headlong into their construction, under the delusive hope that the roads would make business wherever they were located, when the fact undoubtedly is that business must make the roads .-There are hundreds of miles of milroad partially completted, that will be a total loss. There are thousands of thinking men ready to doubt whether such hotbed growth in any thing is desirable. We cannot have the rose without its thorn. And we can only say the benefits they hourly conder far outweigh the evils that have INCIRIOUS DEVICE OF A CONVICT TO PROCURE HIS

Communications.

FOR THE MORNING POST. In the selection of a candidate for Congress, should e party be compelled to resort to a new nomination it will be necessary that every member of the Democra should ask himself what objects are to be gained to e country by a judicious selection, and what may be lost by a choice of an improper individual, and then to cast round amongst the candidates and select such person as may best answer the public exigencies. Se veral gentlemen have been named, any one of whom in talent, standing, and moral worth, may fairly present themselves to the public for the honor, but amongst these there is undoubtedly a choice, and some of them will be better able than the others to be useful in the station. One of the most prominent topics which will mooted in the next Congress is that of the tariff, and when we take into view the very slender majority nufactured articles was passed, and the extreme cessity which drove the President to approve the bill is involved, and the importance of having a representa tive of tact as well as talent to meet the exigencies,

Great Britain is that of the occupation of the Oregon Territory, a matter of the most profound interest to the Western States, and the discussion of which will require not only temper and firmness, but some know ledge of national law, and a minute acquaintance with subject is perplexed.

The never failing question of the right of petition, as

PITTSBURGH, THURSDAY, AUGUST 3, 1843. not place himself in so dangerous a position again, and that next time he appears before the altar, he will be induced in which courtees and produced will have to undergo a discussion in which courtees and produced will be induced by the courtees and produced by cussion in which courtesy and prudence will be indu bitable requisites in any member who may enter into the lists in favor of a right which will receive the un-doubted sanction of the free citizens of this county. in that mart of human flesh, and commercial regula-tions prohibitory of transferring slaves as merchandize, from state to state, will, in all probability, rouse controversies that will call into action all the resources of any representative that has spirit and abilities wo

"No pent up Utica," confines the power of the said certificates, and the interest accruing thereon. West. Not only the "whole boundless continent," but Sec. 3. The proceeds of said certificates are hereby the world must be hers for a market. Land at ten shil- set apart for the payment for new pipes, and the expenlings an acre, prepared by nature with all the beauties ses of laying the same, and taking up and relaying the of an English nobleman's park, some of it in climates old pipe now used for conveying the water from he Committee, (Mr. Edgar, and himself a carpenter,) where no provision needs to be made for winter, and to the Basin on Grant's Hill. peopled by free, intelligent, yeomanry—can such a country be shut up to a home market? Men who think so, 31st day of July, A. D., 1843. do not feel the impulse of the age, or appreciate the des-

tiny of their country. The first forty years of this country have astonished the world by the development of what man cando, when freed from the craft of Kings and priests. But the development is scarcely begun. The ten years before us will reveal more wonders than fifty years behind us. A home market for the purchase of American agriculture! The cotton crop of 1842 will turn out something like two millions four hundred thousand bales, of which the market will consume nearly all besides the round two millions. Just so it is get ting to be with the other products of agriculture. The great planting interests will find themselves identified very speedily.—N. Y. Jour. of Com.

The debts of Europe is the subject of an interesting article in a late number of Hunt's Magazine. From this it appears that every nation in Europe without exception, is heavily in debt. Each of the petry German States pay a large amount of interest. The aggregate of the debts of the thirty-nine sovereignties is 10,499,-710,000 German dollars, equal to 82 cents of our currency. The English debt swallows up in interest more than half of the revenue out of which government is to be supported. Debt about £300,000,000—interest £23,000,000 a year. It would require ten millions a year for 80 years to pay the principal of this immense debt. We extract from the full table the following timates of the debts of the largest powers: Average of debt to

Commissioner. We are authorized to announce Mr. JAMES H. ROBB, of Upper St. Clair township, as a candidate for County Commissioner, subject to the action of the Democratic Convention.

COUNTY TREASURER. JACOB TOMER, Esq. of Pitt township, well known to the Democracy of Allegheny county, as a staunch, uniform Republican of the Jackson school, will be s candidate for County Treasurer, subject to the decision of the Democratic County Convention aug 2-tc. AN OLD DEMOCRAT.

COUNTY TREASURER. At the solicitation of many radical democrats, Mr. SAMUEL McKEE, of Birmingham, has consented to become a candidate for the office of County Treasurer subject to the decision of the Dnmocratic County Convention. Of Mr. McKee it may be truly said, to be

known is to be popular.

Many Frinds of Unassuming Worth. The Committee to whom was referred the communication of the Mayor on the subject of an Insane

Hospital, beg leave respectfully to REPORT. THE Committee have examined the Act of Assem-L bly, passed 4th April, 1838, and understand in provisions as follows, viz:—If the city of Pittsburgh will give positive assurance of the subscription and payment of the sum of \$25,000, the State will give the

same amount, for the erection of an Insane Hospital. to be located at Pittsburgh. It also contemplates a farther subscription of \$5,000 by the Corporation of Alproposed to be given.

In consideration of the amount given by the State, the Hospital must receive, free of expense, all insane persons from the following Counties:—Washington, Fayette, Greene, Westmoreland, Huntington, Somer-

Bedford, Cambria, Petter, 1 Tioga, Indiana, Jefferson, Armstrong, Butler, Warren, Venango, Beaver, Mercer, Crawford and Erie. From the above statement it appears that for the purchase of a lot, and the erection of suitable buildings, thing might also be expected from the liberality of our citizens who would desire to encourage so benevolent an object; and what may be regarded as another contingency, the sixth section of the law provides that the expenses of applicants shall be charged to their own

In other circumstances your committee might rethe terms and for the object proposed: though there is one feature in the law which in no circumstances could Lotteries were abolished in France in 1835, togeth- they regard very favorably, what all must admit would have been a necessary and equitable provision, vixthat every County enjoying the benefits of the proposed LIBERAL.—Messrs. Raymond & Co., the propried Hospital, should be required to meet the expenses of to the indigent applicants of the whole western section of Pennsylvania, would in a great measure, if not entirely, fall upon the community of Pittsburgh and vi-The "fortunate youth" who was presented with cinity—unless appropriations were annually made by a splendid fortune by his foreign relation, at Boston, the State Legislature. But we would not regard this as an insuperable difficulty, as such provisio might yet be appended to the law, and no doubt would be, if our Legislature were petitioned to that effect. The greatest difficulties to the mind of your committee; in prosecuting this object at this time, growing out of our present peculiar circumstances. In addition to our present liabilities and embarrasment, the contemplated subscription to the Pennsylvania and Connellaville Railroad, for which the interests of our city so loudly call, will impose as heavy a tax upon our citizens as they will be willing to endure for many years. Tosacco.—Upwards of ten thousand hogsheads of any asylum, in which the most afflicted of our race
