DAILY POST.

PITTSBURGH, SATURAY, AUGUST 19, 1843.

☞ For business cards, &c., see first page.

☞ The weather yesterday was cool and quite agreeable, after the roasting heat we have had for some time past. We hope it will continue so, as every thing indicates that we will have hot work about the election times, and we think that will be sufficiently annoying without having added to it the enervating effects of sweltering weather. Our advice is "keep cool," and if the politicians wont follow it, we hope the weather will give it a respectful consideration.

REGARDLY.—The authorities of Pittsburgh give only a *levy* a head for killing dogs. No encouragement there for the fine arts.—*Philadelphia Mercury.*

We believe a *quarter* is paid for dogs from the country, and for those killed under "werry agriwated circumstances."

☞ Here is a "*blasted*" fine *puff* from our friend of the Freeport COLUMBIAN. We were almost too modest to copy it at first, but as we knew he was serious and an excellent judge in such matters, we concluded that it must be true and ought to be published:

"*The Mercury & Manufacturer*" come to us on last week printed on entire new type. It looks beautiful, and is doubtless the best paper printed in Pittsburgh.

☞ We thank our friend FORNEY, of the Lancaster Intelligencer, for the following notice—the democracy that receives his approbation *must* be right:

"That truly able and honest sentinel, on the Democratic watch-tower, "The Pittsburgh Post," now appears beautifully improved. It is an evidence of success that has never been more deserved."

JOHN LE FEVER'S

New & Cheap Stock Establishment,

NO 61, *DIAMOND ALLEY,*

BETWEEN WOOD AND MARKET STREETS.

I WOULD most respectfully announce to the citizens of Pittsburgh and the country generally, that I have commenced the manufacture of STOCKS, of every variety, form and description, and would solicit merchants and others to call and examine for themselves, as I am determined to sell on the most accommodating terms for cash, and hope, by strict attention to business, to merit a share of public patronage. aug. 19—6m.

DR. McLANE'S WORM SPECIFIC.—READ AND BE CONVINCED.—*Mr. J. Kidd*—Sir: I call to buy another vial of *Dr. McLane's Worm Specific*, and let you know the surprising effects of the vial I purchased a few days ago. My child had been ill for some time, and I was advised by my neighbors to try Dr. McLane's Worm Specific; I bought a vial, and gave only a half teaspoonful. The child passed 28 worms; I repeated the medicine until 63 worms came from the child. Before this I could not credit the certificates on the wrappers round the vial; now I fully believe them. My child is quite recovered.

Summer Complaint, Diarrhœa, &c.

WHITEMORE'S Compound Vegetable Sprup, is a medicine well known in the East as one of the most efficacious in the cure of the above complaints—read the following certificate:

[*From a respectable citizen of Middletown, Ct.*]

MIDDLETOWN, Sept. 24, 1841.

Dear sir:—Feeling that I owe a duty to the public, as well as yourself, in communicating facts which may benefit my fellow mortals, I would just state, that I have been afflicted with the diarrhœa; and having tried the various prescriptions recommended, with but little effect, a short time since my eye caught a notice in one of the newspapers, of your "Concentrated Vegetable Syrup," for the cure of the Diarrhœa, for sale in this city. I immediately purchased a bottle, and to my surprise and entire satisfaction, after the trial of a few doses, was healed of my complaint, and restored to a healthy action in my bowels. I can now say, I would not be without it in my possession on any account, and would advise all who may require its use to try it as I have done, and they will be satisfied of its virtues.

You at liberty, Sir, to make such use of this as you may deem proper.

Very respectfully yours,

FELIX W. WILLIAMS.

The subscriber has been appointed sole agent for the West and having a large stock, is now ready to supply Druggists and others by the dozen or single bottle.—Pamphlets containing all the particulars, to be had at his store gratis.

TO MACHINISTS, ENGINE-BUILDERS AND OWNERS OF MACHINERY.

BABBIT'S ANTI-ATTRITION METAL.—This excellent invention for the reduction of friction in machinery has at length been introduced in our city.—It consists of a lined box, suitable for all revolving and sliding motions in the various kinds of machinery, where great weight or speed are applied; these boxes reduce friction in a remarkable degree, requiring but little oil, and are warranted entirely free from the objections found with those now in use.

These lined boxes have been introduced in many of the Eastern Rail Roads, and in various manufacturing establishments in that section of country, to which the limits of an advertisement will not allow us to refer, and nearly thirty well known superintendents, engineers, machinists and engine builders in the east certify that, "in the use of these boxes, friction is reduced in a remarkable degree; oil is required only in small quantities, and the wear is hardly perceptible, during a period in which a hard metal box of the same thickness would be worn out; journals running in these boxes attain a smoother surface than they have seen on those which have been run in any other box." They also certify "that the patentee of this improvement has received the highest award of the Massachusetts Charitable Mechanic's Association, for specimens of these boxes, (some of which had been run on the crank of a locomotive engine *more than thirty thousand miles,*) at the fair of the Institution, held in Boston in September and October, 1841."

The Franklin Institute, Philadelphia, also awarded Mr. Babbitt the premium for the improvement in boxes, under the Scott Legacy, which confines such awards to *new and useful* improvements.

The Committee on naval affairs reported strongly in its favor, in consequence of which the right to use it was purchased by the Government for $20,000. The committee refer to, and make a part of their report the letters of S. V. Merrick, J. Errieson, George C. Read, C. W. Copeland, Com. L. Warrington, Hon. A. P. Upshur, and Charles Howard, recommending the invention.

Mr. S. V. Merrick states that the metal having been long enough in use to test its merits fully, he has no hesitation in saying that it is one of the most valuable improvements that has come to his notice. The effects produced are: a great diminution in friction; a saving in oil—one half or more; an economy in the original construction, the brasses being much lighter; a saving in repair, the metal lasting longer and being replaced at a less cost; and a saving in fuel, consequent upon diminished friction."

The metal has also been introduced with great advantage, in lining carriage and wagon boxes, for which it is well adapted.

It is also, amongst many others, strongly recommended by Mr. Charles Howard, President of the Baltimore and Susquehanna Railroad Company, who purchased the right for the road, a distance of seventy miles, for $1,050. Mr. Howard gives the article the following recommendation:

"The price was considered a high one, for the comparatively limited extent to which the Company would have an opportunity of making use of the patent right; but we were satisfied that it was for our interest to avail ourselves of the invitation. I can now say, that, having better tested its value by a more extensive application of it, I think that the company would be very unwise to relinquish their right to use it for much higher consideration than that which was given for it; and I have no doubt, that if such a proposition were to be made to the Company, it would, without hesitation, be declined.

The great merits of the invention are, that it prevents the heating, and consequent cutting and destruction of the *bearings*, which are so numerous on the steam engine and on the perfection of which depends the value of the engine; while, at the same time, there is a very great saving of oil, the expenditure forms a material item in the cost of working a large engine. In the locomotives of the company, I find the saving to be fully one half of the quantity which was required before Mr. Babbitt's invention was applied to them. Some of these locomotives having run several thousand miles, I can also say that this invention makes the machinery much more durable, so that while the effective power of the machine is increased, the cost of repairs is diminished."

☞ The composition as held to having been used in this vicinity, the proprietor is enabled to refer to the following gentlemen as to its merits, viz:

WM. LOCK, of the firm of Lyon, Shorb & Co.
EDWARD MORGAN, Engineer of the steam boat West Point.
JOSEPH HAMILTON, } Engineers of the steamer
JOSEPH TAYLOR, } Brunette.

☞ The boxes and composition can be purchased & inspected at the Bell and Brass Foundry of ANDW. FULTON, corner of 2nd street and Chancery Lane.

Public Sale of Valuable Lands.

PURSUANT to a decretal order of the Circuit Superior Court of Law and Chancery, for Mason county, pronounced the 19th day of April, 1843, in the cause depending therein of Henry Strider, Pl't., against James W. Barkeredale and others. Def'ts the undersigned special commissioner, will sell at public auction to the highest bidder, at the court house in Mason county, on the 16th day of September, 1843, (being the first day of the Cir Sup'r Court of said county,) that well known body of land commonly called "Graham's Station," lying in Mason county, Va., on the Ohio river, containing by survey four thousand one hundred and twenty-three acres, in two adjoining parcels, a large proportion of which is river bottom land. The above lands previous to the day of sale will be laid off by the surveyor of the county in lots of convenient size for farms, and plats furnished, and so many thereof will be sold as may be necessary to produce the sum of money required by said decretal order.—The sales will be made on a credit of nine months for one-third part of the purchase money, of twelve months for another third part, and of eighteen months for the residue, the purchaser or purchasers giving bonds with good security for the payment of the different instruments, bearing interest from the day of sale, the legal title to be retained as further security for the payment of the purchase money, and liable to resale at the risk of the purchaser or purchasers failing to make punctual payments.

Remedy for the Influenza.

THE Influenza, which is now in almost a universal epidemic, is exciting the inventors of patent medicines to increased exertions in the puffing line, but owing to the general distrust entertained for the generality of such drugs, people fear taking them.—The following, however, from a distinguished physician in New York, Dr. Nelson, we think may be relied on:

"The object of the present communication is to recommend a single remedy, cheap and of easy access to the poor, and to caution them against an injurious one in this disease, namely, bleeding, either general or by leeches. In all those cases in which the first class of symptoms prevail, let the patient small frequently at a common salts bottle, (*Sims' Aromatic Volatile Salts* are preferred) and by putting the vial to the mouth to draw a few deep inspirations of volatile matter into the lungs. Let this process be repeated two or three times in an hour, and it will give more speedy and greater relief, in all slight cases of the first class than any other remedy, and will be sufficient for a cure. It will also be essentially useful in the severe cases; and those of the class of prostration, a few drops of amonia, or hartshorn, ought to taken internally. A neat way of doing so is to take an old fashioned mixture called hc ammoniaci. However, it is as a local remedy, to act on the disordered surfaces, that its use is advised. The principles will be recognized by all physicians versed in molecular organization, and those who are deficient in that knowledge may do in that instance as they do in all others—act upon the faith they imbibe." These salts are for sale and within the reach of all classes, at WM. THORP'S, 53 Market street, Pittsburgh. jy 17.

A Card.

THE subscriber respectfully informs the public in general, that he intends to devote his whole time to the COLLECTION OF ACCOUNTS in the cities of Pittsburgh, Allegheny and vicinity.

Having been engaged in this business for some time, and given entire satisfaction to those who employed him, he respectfully solicits those having accounts to collect to give him a trial.

Physicians and others who cannot spare time from their professional business to collect their accounts, would find it to their advantage to give him a call.

Respectable references can be given, and, if required, security will be given for the faithful return of all monies collected.

He can be found at *Mr George Armor's*, Merchant Tailor, up stairs, corner of Market and Fourth street, entrance on 4th st. daily from 8 till 10 o'clock, A. M. Any orders left there during his absence, will be attended to, or by letter through the Post Office.

Terms, 5 pr cent commission.
