FOURIER CONVENTION.—This gathering of the friends of Association was held in Temperance Hall yesterday. It was organized by E. P. GRANT, Esq. of Canton, being elected President, H. H. VAN AMRINGE and J. MAJOR, Vice Presidents, and J. H. FOSTER and D. M. CURRY, Secretaries.

On motion, a committee of five were appointed to draft an address to the people of the west. The following gentlemen constitute the committee: Messrs. Grant, Cline, Floeson, Thornburgh, Buckmaster.—Mr. Van Amringe was subsequently added to the committee.

Messrs. Greeley, Grant and Foster were appointed a committee on resolutions.

The President then stated that the Convention was organized and ready for any business that might be prepared for the occasion. The correspondence was then taken up. An excellent letter from Mr. Brisbane was read by the Secretary. Also, one from the Rev. J. P. Stewart, of Ohio, a Presbyterian Clergyman. A. J. Cline, Esq., rose and stated that he had received two letters which were intended to be read before the Convention. He prefaced them by a remarkably neat and appropriate speech of some length. The first letter was from Mr. Brown, a Dentist of New York; the second from R. B. McCabe, Esq., of Indiana co. Pa. Dr. Wm. Petit rose for the purpose of making some observations on some portions of one of the letters read (Dr. Brown's) which were characterised by good reasoning. He was replied to briefly by Mr. Cline.

H. GREELEY, Esq., the great champion of the cause, next rose and addressed the Convention. He confined his remarks particularly to the practical part of the scheme of Association—condemning those persons who go for it with mercenary motives, and signified his want of confidence in all attempts to organize small and imperfect associations. He urged an union of the friends in the west, and expressed his regret that a more numerous representation of Ohio and the west was not present.

Mr. Grant then addressed the Convention at some length—going deeply into the science of the discoveries of Fourier, and declaring it to be the system of nature. He deprecated all attempts to amend it, and denounced in strong terms those persons who are starting "isms" of their own as a substitute for Fourierism. After a few remarks from H. H. Van Amringe, defining his position in relation to the schools, the Convention adjourned.

CUT GLASS.—We would advise all who can appreciate elegant productions of art, to drop in at the Glass Cutting establishment of Messrs. BLISS and PEACOCK, Smithfield street, near Diamond Alley, and examine some of the fine specimens of their workmanship.—They have been engaged for some time, in engraving lights for several boats that have been fitted out in our city, and have established their reputation for skill and taste, by the beautiful manner in which the jobs were executed. At the Clothing Store of Mr. S. Stoner, in Wood street, may be seen a large plate of glass, inserted in the window, with the name of Mr. S. and the number of his house handsomely engraved upon it—They have various specimens of their handiwork at their shop, such as dishes, decanters, salt-cellars, candlesticks, &c. which are exceedingly beautiful.

RAIN.—While we write (Monday afternoon) a heavy rain is falling. Some of the streets are navigable for small craft, and it is amusing to see the activity displayed by passengers in leaping the gutters. The more tenderly manage with great efforts to alight in the deepest and muddiest part. We indulge the hope that this rain will put a period to the extremely hot weather with which we have been suffering, and again cause a rise in our rivers, which were rapidly sinking under the burning heats we have encountered.

☞We publish a correspondence between GOV. PORTER, and certain of his friends in this city, who invited him to partake of a public dinner, on the occasion of his late visit. As it first appeared in an imperfect form, we have been requested by some of the signers to give it entire, which we accordingly do. This will account for the seeming delay in its appearance in our columns.

October Election.

County Commissioner.

AT the solicitation of a number of friends of all political parties, I respectfully offer myself to the consideration of my fellow-citizens for the office of County Commissioner. That my sentiments may not be misunderstood, either as to political or private affairs, I make free to say that I have been all my life a consistent Republican, in the true sense of the word. As the country is somewhat embarrassed in its financial affairs, and the reduction of salaries of public officers has received the approbation of large majorities of the people, the undersigned would not should he be so fortunate as to be elected, in any manner attempt to resist this salutary reform; should it reach the office of County Commissioner.

apr 6. SAMUEL HUBLEY.

Prothonotary.

To the voters of Allegheny county:—I respectfully offer myself to your consideration as a candidate *(independent of parties)* for the office of PROTHONOTARY of Allegheny county, at the ensuing election. As I do not come before you recommended by a *Convention*, those of you to whom I am not personally known will please examine into my qualifications, &c.; and if so fortunate as to obtain a majority of your suffrages, I shall endeavor by strict attention to the duties of the office, to satisfy you with your choice.

Iron Safes.

I RESPECTFULLY inform the public that I have and keep always on hand an assortment of Fire Proof Safes. The price, in consequence of the materials and labor being much lower, is reduced about thirty per cent. They are kept for sale at my shop, in Sixth street, above Smithfield, next to the church on the corner of 6th street—as also with Atwood, Jones & Co., and Dalzell & Fleming. In regard to the quality of my safes I leave those persons who have purchased and will purchase my safes to attest the ability of them. I desire no newspaper puffs on my safes: justice and truth warrant me in intending to the public that all my safes which have been in buildings burnt down for several years since I commenced have preserved all the papers, books, &c., which they contained. I have a card containing a number of certificates of the same, which are in circulation and in my hands and the agencies.
