THE RIVER.-It will be seen that there has been eacther rise in our rivers. There is now eight feet cheer in the channel, and the Monongahela is still rising. All our boats, that are in order, are running regularly to the different ports below, and are doing a profitable business. The influx of strangers and travelent to our city is really astonishing; our Hotels are by a Convention, those of you to whom I am not personally and there is the convention of the conven crowded, and they still come in shoals. A very heawy fall business is doing by our merchants; the cheapness and excellent quality of their stocks of goods, ma- of your suffrages, I shall endeavor by strict attention Thing this as desirable a market to purchase at, as any of the Eastern. Upon the whole, we know not the time when a counder or a heavier business was doing in Figurburgh, than there is at the present time.

We, and who claims to be a prophet. He says that Sixth street, above Smithfield, next to the church on about 24 years ago, (in 1819,) he had a divine revelu-ties made to him, concerning the end of the world. He & Co., and Dalzell & Fleming. In regard to the qualtion made to him, concerning the end of the world. He prodicts that it will take place in 1859—or rather that his was informed that it would happen in 40 years, from the time he received his Revelation. We asked him what he thought of Miller's predictions. He said that Miller might be right in some things, but he was wrong as to the time the ascension was to take place. He wished to get a book containing his produce. He wished to get a book containing his produce. The wished to get a book containing his produce the same, which are in circulation and in my hands and the agentes.

This man visited our office on a similar errand about two years ago; he seems to be of sane mind, and he quoted scripture in support of his notions with surprising facility; he wears his beard after the fashion of the rad him to a person that probably would take inter-est enough in his ideas to write them out—he lean-riety, form and description, and would solicit merchant

RED RIVER .- The New Orleans papers notice the resented by the Rapids at Alexandria, and by the Great Rait; but they state that these are very insignificant compared with the growing obstructions, at THE subscriber having purchased and thoroughly the invertee of Red River with the Mississippi. The repaired these Mills, is now manufacturing, the junction of Red River with the Mississippi. The New Orleans Bulletin says that they threaten to cut the different kinds of Nails, Spikes and Brades, off the inhabitants of a very large portion of that made from the best quality of Juniata Blooms, and as dorsed notes. The assortment consists in part of State, and of portions of Arkansas and Texas, and of soon as the necessary additions can be made to the the Indian country, from their present communication machinery, he will manufacture every description of Bar and Sheet Iron, usually made in this market. whole or in part, the trade of a region of country supe- or at the Mills in the Fifth Ward, will be promptly atstreams of less volume than the Mississippi and Missouri themselves -a trade at present of immense value and destined to become of immeasure bly greater importance than that of any tributary stream in the valley.

CRIMESE CATHOLICS .- A letter from Rome in the Augsbargh Gazette, states that seven Chinese, who have been educated there for the preisthood of the Propoganda have set out to preach the Gospel in their pative country.

The tailors of Boston have it in contemplation sags the Times, to establish a general depot or storeshop for the manufacture and sale of clothing of all descriptions, to be made by deserving employers, seamstresses and tailoresses, and to be afforded to the pub-He at a fair and uniform rate. By this means every ed to the inspection and approval of such agent as operative who is employed in the extensive establishoperative who is employed in the extensive establishments will be guaranteed a just compensation, and the proposals will state the price per pound for rope made exclusively of Russia Hemp—the price per pound if made one half of Russia Hemp and the other proposed to have it a joint stock concern, and to have the shares limited and open to all journeymen. If this plan be carried out, as is contemplated, the establishment will be a most powerful means of enforcing the doctrine which this class contend for, and show the folly of attempting to oppress labor.

**ETLEED RACING.—A gentleman named McGuire, was killed on the 9th ult., while racing on the Helena for the Ropes delivered at either of the before mention-(Ark.) race course. His horse staggered and fell ed places. dead in the track of his opponent, who ran against him, will take the old Ropes in part payment at Johnstow falling on McGuire and crushing him. He lived but a Specifications of the Ropes few minutes afterwards.

THE BLOOD OF A CHIMINAL. -Mr. Walsh, of the National Intelligencer, says he has been struck with a parrative from Stockholm of an execution, by which it appears that the blood of a decapitated criminal is still belived in Sweden, as well as Denmark and Norway to be a sovereign remedy for epilepsy, and that the au shorties of such a capital as Stockholm tolerated a popwhir rush for the blood flowing from the scaffold. What would be said in Europe of the American march of mind if the practice were suffered in any of our large cities -appealing that you employed the axe of guilotine?

ANOTHER PURSE WON BY FASHION .- We learn from the Washington Capitol that the race which was to have taken place on Friday between FASHION and REGISTER, over the Mt. Vernon course, was no go .-The Lady had no competitor, but galloped round merely for the amusement of the spectators-of which. we understand, a great concourse had assembled to witness the disappointment.

DIFFER TO ROBT. TYLER .- The Spirit of the Times saye that the dinner to Robert Tyler, Esq., given by the Repealers on Thursday last, was a splendid affair. Over 300 persons sat down about 5 o'clock to a sumptuous table set by Sturdivant. The speech of Mr. Tyler was a most elequent and spirit-stirring production.

A SAD NARRATIVE .- A correspondent of the Calais Advertiser states that several days since, a party of young people at Scotch Ridge, St. James, N. B., left their nomes for a cranbeary frolic. It was necessary to cross a stream, and a raft was constructed, and fourteen young women attempted to cross upon it .--When about midway over the stream the raft parted, Dr. McLane's the best article before and the whole were thrown into the water. Every effort was put forth to save them, and all but one were rescued alive. One young man nearly lost his life in striving to save ber, and finally found ber lifeless corpse and bore it to the shore. The sorrowing party returned through the woods several miles, bearing in their

County Commissioner.

T the solicitation of a number of friends of all A political parties, I respectfully offer myself to the consideration of my fellow-citizens for the office of County Commissioner. As the country is somewhat embarrassed in its finan As the country is somewhat embarrassed in its financial affairs, and the reduction of salaries of public officers has received the approbation of large majorities at this late hour, is sufficient to stamp it as a base and reactly devise of the enemy.

DR. M'LANE'S AMERICAN WORM SPECIFIC. Mr. J Kipp-Sir:-A child of mine about 44 years old, was constantly indisposed, and of pale complexion; but had always a good appetite. In order to have the child well, I bought a small bottle of McLane's Vermifuge of which I gave him 3 spoonfuls, after which 20 or 25 large worms were expelled. I wish all Gra-mans would read the above facts. The child's health s much improved. Chartier's Creek, Sept. 26 1843. TFor sale at the Drug Store of
