

FOR PRESIDENT. JAS. BUCHANAN, Subject to the decision of the DEMOCRATIC NATIONAL CONVENTION. The Daily Morning Post.

PHILIPPA & SMITH, EDITORS AND PROPRIETORS. PITTSBURGH, FRIDAY, OCTOBER 13, 1843.

It might be expected, the organs of both branches of the federal fiction are lambling over their losses in this county, and showing clearly how the battle might have been won, now that it is lost. They refer to their aggregate vote as an unanswerable proof of their ability to beat the democrats had they brought out a single ticket. Now we know it is unkind to destroy the pleasant illusion which such reflections create in the mind of our opponents, but we must undertake the ungracious task, as a duty we owe to our own cause. We shall briefly allude to two or three facts relative to the late contest, which must convince every impartial man that the democratic candidates would have been elected, even if our enemies had voted for but one set of candidates.

INDIANA DISTRICT.—By the following letter from a friend in Blairsville, we fear that Dr. LOKAN has been defeated in the Indiana District. We regret this, as there can be no doubt but that the party have sufficient power to have elected their candidate if they had supported him untrammelledly.

Blairsville, 11th Oct., 1843. Gentlemen: Allow me to congratulate you upon the result of the election in your County. For this unfortunate result, it seems still likely to remain for some time yet subject to the warring influence of Whiggery and Whigism. Yet the result of the election for Assembly will leave them little to boast of. The election for Congress cannot be taken as a test of the strength of the respective parties. The vote for Whig and McEwen regularly nominated Anti and Whig candidates.

You will receive the returns from Greenwald, of Westmoreland county, sooner than I could send them the returns for Canal Commissioners come in slowly here, and we cannot have the returns for this county before Saturday evening next. Bullfinch's majority in Armstrong county is reported to be fifty, and he will have about six hundred in this county. So it all over with Lorain this time—sorry for it. As far as heard from, and the strongest townships for Bullfinch come in yet. Lorain 336, Bullfinch 822.

Table with columns: County, Whigs, Democrats, Assembly, Congress. Rows include Armstrong, Blairsville, Blacklick, Conemaugh, Centre, Indiana, Bialsburgh, Young, Armath, Clark, Foster, Blacklick, Conemaugh, Young, Miller, Foster, Blacklick, Conemaugh, Young.

The truth is, this result has been brought about by accidents to the democratic strength, and not by the accession of the federalists assign. In proof of this, we refer to the great democratic gain in many districts. In Pitt, Judge Wilkins had 26 more votes than Gov. Power received in 1841 in Wilkins township. He had 26 more in Peckahs had 75 more, and in Bialsburgh had 26 more than Gov. Porter had in '41. It is not fact, as they assert, that our whole vote was out. In proof of this we refer to Findlay and Moon townships. In these strong democratic districts, Gov. Porter had 226 votes in 1841—at the late election, Judge Wilkins had 210—a falling off of 86 votes, or more than one fourth!

We have here given a small portion of the proof which might be adduced in support of what we have asserted. Enough has been given, however, to show that we could have beaten them had they been united, and we do hope that both parties will come to a rapprochement with less effort in the east than here, and we are certain that but few who have hoarded up the "dimes" in this quarter, are willing to part with them, except at exorbitant terms, and with unbounded security. In small matters, not worthy of notice in a "money article," it requires more industry and perseverance to collect bills than to earn them, and however plenty money may be on the counters of Banks and Brokers, and in the Iron Safes of our cities, it is quite a different thing among the people, and we know but too well how to make them "comfortable." We arrive at this conclusion from personal experience, and the mournful tales of our collectors about the fearful destruction of the late leader, in their fruitless efforts to collect long standing bills.

It has not been our good fortune to meet with any one who has realized the truth of these stories about the abundance of money, nor do we believe there ever was a time when it was not the fashion for people in business to complain of its scarcity. The only persons who assert the contrary are the editors, and a simple reference to the poverty of the whole tribe, is sufficient to satisfy every body that all they say may be regarded as pleasant fancy sketches, of things hoped for but never realized by the writers.

WE received the first number of a neat and spirited little sheet, the "Democratic Champion," published at Harrisburg, by J. D. Grange & Co. It is devoted to the cause of Buchanan and Shunk. The next number will be issued on the 20th inst, and it will give us great pleasure to send on the names of any of our friends who may wish to become subscribers.

BOUNDARY LINES.—The citizens of St. Louis have got up a memorial to be presented to Congress, praying for an adjustment of the boundary lines of the disputed territories of the United States and Russia, on the Western coast of North America. It is a matter in which the people of the west are most interested, and they urge its necessity with much earnestness.

BEAUTIFUL EXPERIMENT WITH A PLANT.—The Brooklyn News gives the following interesting bit of information: "Cut a small branch of elder from a thrifty plant, place it in a vessel partly filled with rain water, so that the lower end of the branch may be immersed about half an inch in the water. Place this in the sun in an open room, and in about fifteen or twenty days small roots will shoot out from the end of the branch, presenting a beautiful appearance. After these roots have extended two or three inches, cut the branch off at its most earthy end, and frequently watered, it will grow rapidly, and soon form a large thrifty stock. Ladies who are fond of flowers may easily propagate elders in this manner, and in a few months multiply these beautiful plants to an indefinite extent."

THE NEW YORK TRIBUNE says—"Private letters from the other side, received by the Acadia, speak of an increased and growing confidence in sound American stocks, and states that there were now more buyers than sellers. The transactions had not been large in consequence of the small amount on the market. The prices of some descriptions had improved, and in the case of Massachusetts Fives the rate was higher, with exchange, than on this side. Pennsylvania had gone up to 52 1/2, which was the greatest advance. The influence exercised by the non-division of paying States, however, was still disastrously felt, and although some capitalists were beginning to distinguish between Massachusetts and Mississippi, still the feeling was not general."

The Express says—"American stocks looked quite as well and little better than by the previous arrangement. Money continued as abundant as ever. Much anxiety has been manifested here to learn the result of the negotiation of the Illinois commission—we learn that they had not been successful, but still entertained strong hopes of accomplishing their object."

From the Boston Courier. Willis is, beyond comparison, the most agreeable writer that contributes to the popularity of the new paper press, as his letters to the National Intelligencer and his editorials in the New York Mirror abundantly testify. The following is from the last number of the Intelligencer.

SEPTEMBER.—We take advice, as Marcus Scavone says, not to be a griffin—with the present season. A bystander might fancy, from our account, that we were hearing of a coalition in our favor—benign while it is administered, is but our acknowledgment of the disinterested expenditure of wind and time on the subject. For, we maintain, that as the people most to be affected by the consequences, were the most to be affected, and the best judge of what is expedient in the given emergency. But this was something we were not to be affected by, and we were not to be affected by it. It is difficult to begin at the right end of a tangled skein.

As you are a gentleman, dear reader? Did you ever settle, to your satisfaction, of what you did you, and whether, in the ill-lighted path of change, you were not to be affected by it. And do you think it worth your while to be affected by it? You will receive the returns from Greenwald, of Westmoreland county, sooner than I could send them the returns for Canal Commissioners come in slowly here, and we cannot have the returns for this county before Saturday evening next.

ARMSTRONG COUNTY.—We understand that the full returns in Beaver county give Mr. DICKEY 175 major, and the low rate at which it can be had. From these statements, the unimpaired mind would believe that it to be had merely for the asking. Much of this talk about the abundance of money, we believe originates with editors, who have scarcely two red cents' to tangle in their pockets, but who, to keep up a character for "financial knowledge," publish an article every week under the attractive head of "Money Matters." We do not think that money can be distributed with less effort in the east than here, and we are certain that but few who have hoarded up the "dimes" in this quarter, are willing to part with them, except at exorbitant terms, and with unbounded security. In small matters, not worthy of notice in a "money article," it requires more industry and perseverance to collect bills than to earn them, and however plenty money may be on the counters of Banks and Brokers, and in the Iron Safes of our cities, it is quite a different thing among the people, and we know but too well how to make them "comfortable." We arrive at this conclusion from personal experience, and the mournful tales of our collectors about the fearful destruction of the late leader, in their fruitless efforts to collect long standing bills.

It has not been our good fortune to meet with any one who has realized the truth of these stories about the abundance of money, nor do we believe there ever was a time when it was not the fashion for people in business to complain of its scarcity. The only persons who assert the contrary are the editors, and a simple reference to the poverty of the whole tribe, is sufficient to satisfy every body that all they say may be regarded as pleasant fancy sketches, of things hoped for but never realized by the writers.

WE received the first number of a neat and spirited little sheet, the "Democratic Champion," published at Harrisburg, by J. D. Grange & Co. It is devoted to the cause of Buchanan and Shunk. The next number will be issued on the 20th inst, and it will give us great pleasure to send on the names of any of our friends who may wish to become subscribers.

BOUNDARY LINES.—The citizens of St. Louis have got up a memorial to be presented to Congress, praying for an adjustment of the boundary lines of the disputed territories of the United States and Russia, on the Western coast of North America. It is a matter in which the people of the west are most interested, and they urge its necessity with much earnestness.

BEAUTIFUL EXPERIMENT WITH A PLANT.—The Brooklyn News gives the following interesting bit of information: "Cut a small branch of elder from a thrifty plant, place it in a vessel partly filled with rain water, so that the lower end of the branch may be immersed about half an inch in the water. Place this in the sun in an open room, and in about fifteen or twenty days small roots will shoot out from the end of the branch, presenting a beautiful appearance. After these roots have extended two or three inches, cut the branch off at its most earthy end, and frequently watered, it will grow rapidly, and soon form a large thrifty stock. Ladies who are fond of flowers may easily propagate elders in this manner, and in a few months multiply these beautiful plants to an indefinite extent."

THE NEW YORK TRIBUNE says—"Private letters from the other side, received by the Acadia, speak of an increased and growing confidence in sound American stocks, and states that there were now more buyers than sellers. The transactions had not been large in consequence of the small amount on the market. The prices of some descriptions had improved, and in the case of Massachusetts Fives the rate was higher, with exchange, than on this side. Pennsylvania had gone up to 52 1/2, which was the greatest advance. The influence exercised by the non-division of paying States, however, was still disastrously felt, and although some capitalists were beginning to distinguish between Massachusetts and Mississippi, still the feeling was not general."

THE HON. JAMES BUCHANAN AND THE PRESIDENT. In the views I have heretofore taken upon the subject of the Presidency, I have not had occasion to advert to two distinguished Citizens, whose friends have deemed it their duty to render competitors for the occasion. M. Johnson, that every one has long well known, and venerable for patriotism and valor, will be most solicitous to pay, his heroic character, his extraordinary capabilities, his distinguished services to his country, and his kind and cheerful disposition, to invest him, in the event of his being elected, with the highest and most honorable office of his country. The other, Mr. Van Buren, that every one has long well known, and venerable for patriotism and valor, will be most solicitous to pay, his heroic character, his extraordinary capabilities, his distinguished services to his country, and his kind and cheerful disposition, to invest him, in the event of his being elected, with the highest and most honorable office of his country.

COMMERCIAL MATTERS, &c. PITTSBURGH MARKETS. FRIDAY, OCTOBER 13, 1843. Now the election is over, and the season arrived for the winter part of our business. The stocks are large, fresh and well assorted, at very fair prices. We notice our walks and call in the wholesale dry goods, hardware, grocery, shoe, and various stores, and in our different Iron and Nail, Cotton, Yarn, Wool, and other manufactures, most excellent assortments, at a good deal doing. Our merchants are busy to be doing more, and their cash receipts are much greater than this time last year. Our rivers are in excellent order, and a great deal is doing on the wharf. We saw the whole Monongahela Wharf covered with fine steam boats, loading and unloading for all parts of the west and the south. Our exports are also covered with business. FEATHERS.—Sales from western and boats at 55 and 60 for very choice brands 3.50 per bush. GRAIN.—Wheat 62 1/2 a 65; Corn 37; Oats 18 a 20 cts per bushel. BUCKWHEAT 26 a 28 cts. a bushel. GROCERIES.—Stocks mostly excellent and regular sales daily making. Coffee, Rio 7 1/2 a 9; St. Domingo 7 a 7 1/2; Havana 8 a 8 1/2; Logans 8 1/2 a 9; Sugar, sales by the New Orleans market at 26; Molasses, sales by the bid 55 a 56; a 2. Heavy Y. H. 40 a 75. Imperial 62 a 20c. a lb. FEATHERS.—Sales of Pittsburgh Bacon 4 1/2 cts. a lb. and country 2 1/2 a 4c. Fresh Roll Butter 10 1/2 a 10 3/4; Eggs 17 a 17 1/2; Land 6 a 6 1/2; Cheese, sales by the bid 10 a 11; Butter, sales by the bid 20 a 22; Beef 20 a 22; Pork 10 a 11; Soap and Calfs 2 1/2 a 2 3/4 each, paid by butchers.

LEATHER.—Stock and sales slow. New York Red 17 a 18; Baltimore 22 and good country 22; Upper 22 a 23; 2d cut. Calfskin, 12 to 26 per doz; Good skirting 23 to 26 a lb; Green Hides, Butcher's weight 4c a lb; Tanners 18 a 23 a lb. Sheepskins, sales by the bid 50 a 52; Pig Fat 22 a 23; 2d cut. Good 22 a 23; 3d cut. 20 a 21; 4th cut. 18 a 19; 5th cut. 16 a 17; 6th cut. 14 a 15; 7th cut. 12 a 13; 8th cut. 10 a 11; 9th cut. 8 a 9; 10th cut. 6 a 7; 11th cut. 4 a 5; 12th cut. 2 a 3; 13th cut. 1 a 2; 14th cut. 1/2 a 1; 15th cut. 1/4 a 1/2.

STOCKS.—The rise in stocks in this country within a few months past has been extraordinary. The following table exhibits the prices of several stocks on the 1st January of this year, and at this time:

Table with columns: Stock Name, Jan. 1, 1843, Sept. 27, 1843. Rows include New York Stock, Ohio, Illinois, Kentucky, Arkansas, Canton.

AMERICAN FINANCIAL.—It appears from a return recently made to the British parliament, that the exports from the United States, for the half year ending 30th July last, amounted to \$207,000,000, and that the imports from the United States, for the same period, amounted to \$103,500,000. The total quantity imported being \$103,500,000, and the total quantity exported being \$207,000,000. This shows a balance in favor of the United States of \$103,500,000.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.

WEATHER.—The weather is again very fine, having had a rather early hour, with an appearance of a continuation. Canal Receipts.—The receipts by Canal are much heavier this morning than for some days previous. 245,000 bushels of wheat, 10,000 bushels of corn, 10,000 bushels of rye, 10,000 bushels of oats, 10,000 bushels of barley, 10,000 bushels of clover, 10,000 bushels of timothy, 10,000 bushels of hay, 10,000 bushels of straw, 10,000 bushels of wood, 10,000 bushels of coal, 10,000 bushels of charcoal, 10,000 bushels of iron, 10,000 bushels of steel, 10,000 bushels of copper, 10,000 bushels of brass, 10,000 bushels of zinc, 10,000 bushels of lead, 10,000 bushels of tin, 10,000 bushels of silver, 10,000 bushels of gold, 10,000 bushels of platinum, 10,000 bushels of mercury, 10,000 bushels of arsenic, 10,000 bushels of antimony, 10,000 bushels of bismuth, 10,000 bushels of cadmium, 10,000 bushels of selenium, 10,000 bushels of tellurium, 10,000 bushels of iodine, 10,000 bushels of bromine, 10,000 bushels of chlorine, 10,000 bushels of fluorine, 10,000 bushels of oxygen, 10,000 bushels of hydrogen, 10,000 bushels of nitrogen, 10,000 bushels of carbon, 10,000 bushels of silicon, 10,000 bushels of phosphorus, 10,000 bushels of sulfur, 10,000 bushels of calcium, 10,000 bushels of magnesium, 10,000 bushels of strontium, 10,000 bushels of barium, 10,000 bushels of potassium, 10,000 bushels of sodium, 10,000 bushels of lithium, 10,000 bushels of rubidium, 10,000 bushels of cesium, 10,000 bushels of francium, 10,000 bushels of actinium, 10,000 bushels of thorium, 10,000 bushels of uranium, 10,000 bushels of protactinium, 10,000 bushels of neptunium, 10,000 bushels of plutonium, 10,000 bushels of americium, 10,000 bushels of curium, 10,000 bushels of berkelium, 10,000 bushels of californium, 10,000 bushels of einsteinium, 10,000 bushels of fermium, 10,000 bushels of mendelevium, 10,000 bushels of nobelium, 10,000 bushels of lawrencium, 10,000 bushels of rutherfordium, 10,000 bushels of dubnium, 10,000 bushels of seaborgium, 10,000 bushels of bohrium, 10,000 bushels of hassium, 10,000 bushels of meitnerium, 10,000 bushels of darmstadtium, 10,000 bushels of roentgenium, 10,000 bushels of copernicium, 10,000 bushels of nihonium, 10,000 bushels of flerovium, 10,000 bushels of tennessine, 10,000 bushels of oganesson.
