

INDIVIDUAL ENTERPRISE.
UNITED STATES,
PORTABLE BOAT LINE,
For the Transportation of Merchandise and Produce
between
PITTSBURGH AND PHILADELPHIA AND
NEW YORK AND BOSTON.
N.Y.—HAVING been engaged in the public service for some time past, I have completed their arrangements for the above
INDIVIDUAL AND INDEPENDENT ENTERPRISES.
The public has long waited for individual competition in Transportation on the Public Works, by which alone it can be freed from unnecessary expenses and reduced to the lowest point. The Portable Boat Line will be a great convenience to all who will be required to purchase or sell their goods at the port of Philadelphia, New York, or Boston. Individuals owning Portable Boats are enabled to go to the Carrying Trade and successfully compete with the established companies.

The boats are to be superior to any ever seen here.

As he has entered his manufacturer and made arrangements to supply the increasing demands for this instrument, he respectfully requests those intending to purchase, to call and examine his articles before purchasing.

This vessel consists of different parts of superior Rose Wood and Mahogany, beautifully finished and made, and constructed throughout of the very best materials. It is a portable boat, which will be easily transported.

The cost of the Portable Boat is less than any other established east or west of the mountains.
