THE attention of those who have been somewha cates published in favor of Dr. Swayne's Compound Syrup of Wild Cherry, on account of the persons being miknown in this Section of the State, is respectfully directed to the following certificate, the writer of which has been a citizen of this borough for several years, and i known us a gentleman of integrity and responsibility. To the Agent, Mr. J. KIRBY. To the Agent, Mr. J. Kirny.
I have used Dr. Swayne's Compound Syrup of Wild
Cherry for a Cough, with which I have been severely
afflicted for about four months, and I have no hesitation
in saying that it is the most effective medicine that I
have been able to procure. It composes all uneasiness, and agrees well with my diet,—and maintains a regular and good appetite. I can since sely recommend it to all ers similarly afflicred. J. MINNICK, Borough of March 9, 1810. For sale by WILLIAM THORN.

FINANCIERING AFLOAT. The brig O. C. Raymond, Capt. Dennison, obtained freight of treasure amounting to \$0,000, specie, (des en nomination not stated.) at Chausan, for Macae, and af sailed May 29, but had not reached her destination on the he 26th of September. As a matter of course as the distance between the two places is under 1000 miles, it was supposed that she had been lost or cut off by places, but here the shipnews folks remembered their four months after the duse of her sailing from Macane. she had been reported "right side up" at Valparnia, Sept 8, from Talcahuana, and sailed again on the 15th, destination not reported. We understand she is owned by the captain and mate.—Boston Fost,

THE STEAM-BALLOON MACHINE. The steam-balloon mail, Mr. Penningson, is determined that Congress shall do something towards the patrenization of his invention. As a farther induce-ment for an appropriation, he offers to transport troops to Oregon, in the event of a war with Great Britain:

A letter writer in the Philadelphia Gezette states in ant notwithstanding the ridicale which has been heaped upon this invention, it is attracting the atten-tion of many practical men. The machine is thus described by him:

"It will resemble in figure a dolphin, or the transverse section of a spheroid; in either side of which are openings, for the purpose of admitting a pair of sevelled wheels, by which the machine is to be proveded. strs., where he will keep constantly on hand a good assortment of well made FURNITURE, and hopes, by engine by which the wheels are to be put in motion attrict attention to business, to merit a continuance of by a chain-band connecting with the engine.
