In the inland districts we find the signs of prosperity not less signifi-cant. The factories at the East, at Paterson, and indeed every where, are in active operation, turning out thousands and thousands of yards of domestic goods, of various and choice patterns, and in many instances of improved fabric. An extensive cotton factory is about to be built at Camden, immediately opposite Philadelphia; a new factory is talked of in Boston, with a capital of \$100,000; another at Charleston, S C., and another in the interior of the same State, seven miles from Petersburgh, Geo., under the

auspices of an English Company. As regards the Camden Company, we are informed that the charter has already been obtained from the New Jersey Legislature, and that the necessary shares have all promptbeen subscribed. It is certainly apparent that dome industry is in a flourishing state, and we believe that no ordinary event will stem the current of enterprise and success which is now rapidly spreadenterprise and spreaden lieve that no ordinary event will stem, the current of ing to fertilize the country. The rapid advance in the value of real estate which is at present manifested, should not be overlooked as an indication of better. times. This description of property was foremost in experiencing the late revulsion, and its recovery, which is now so apparent, should therefore be estimated. The recent sales in this city have been at a very considerable advance and both buyers and sellers have rea-

son to be satisfied with their transactions. The rents also, of stores and dwellings in the city, will be much higher d ting the present than was demanded last year, and we believe that there are but few complaints among the tenants on the subject. It is only right that lundlords should have an equal benefit in the general improvement, and as there is no doubt that such is really the case, there will be no difficulty in submitting to reasonable demands. We cannot forbear adding that whatever be the extent of the movement well understood by this time, and if then danger only remembered there will be no cause for fear .-We merely repeat therefore, that whatever is the result, be cool and cautious in all your undertakings.

About half a million is occapied by roads, and after making allowance for water, natural and artificial forhe does not cultivate much more land than the State of New York, and not as much as the State of Illinois, showing in a very conclusive manner the advantages which the scientific farmer has over the uncultivated one .- Boston Shipping List.

SUICIDE. - John Riley, the landlord of the "Bunch of Grapes" Tavern, No 10 Front Levee, First Municipality, committed suicide yesterday morning, by drowning himself in the Mississippi. He had a wife and one child, and was long regarded as an upright and industrious man. It appears that he left a letter, in which he stated that no person should know the cause that prompted him to put a period to his existence. He went down near the Barracks, paid a boy for tak-

33 PROPERTY formerly owned and occupied by A G Richardson. This is a large spacious calculated for the purpose it was intended for, and was carried on successfully by Mr Richardson, previous to his moving to Cincinnati, since which it he put in operation; but the stack (a very superior one) is still standing and in good order, and with very little expense the foundry could be put in operation. This property is certainly worthy the attention of any person with a small capital desirous of engaging in that kind of business, it being one of the best situations on the One River for disposing of the manufactured articles, and it will be sold no doubt at a great sacrifice. There will be said at the same time, half of an acre

of coal land nearly joining the foundry property, besides six unimproved lots, viz: Nos 2, 4, 5, 7, 10, and 13.
