THE TRUE WAY TO RECOVER

HEALTH. An individual only wishes to know the right way to pursue it; and there are none, were it surely made known how Life might be prolonged and Health recovered, who would not doubt the plan-Evidence is required that the right way is discovered This is what those suffering from sickness want to be satisfied about. For who is so foolish as not trenjoy all the health that his body is capable of? Who is there that would not live when his experience can so much benefit himself and family! It is a melancholy fact that a very large proportion of the most useful members of society die between the ages of thirty and forty. How many wislows and helpless orphans have been the consequence of insudkind not having in their own power the means of restoring health when lost. Now all these dangers and difficulties can be prevented and the long and certain sickness, and by assisting nature in the outset, with a good dose of Braudreth's Pills. This is a fact, well understood to be so by thousands of our citizens. This medicine, if taken so as to purge freely, will surely cure any curable disease. There is no form or kind of sickness that it does not exercise curative influence upon. Thus, by their pow-exercise a curative influence upon. Thus, by their pow-exercise in resisting putrefaction, they care measles, small pox. worms and all contagons fevers. There is not a medicine in the world so able to purify the mass of blood, and restore it to a healthy condition, as the

Brandreth Pills.
The Brandreth Pills are purely vegetable, and so innocent that the infant of a month old may use them, if medicine is required, not only with safety but with a certainty of acceiving all the benefit medicine is capable of imparting. Fomales may use them in all the cri cal periods of their lives. The Brundreth Pills will insure their health, and produce regularity in all the Office of

The same may be said of Brandreth's external remedy, as an outward application to all external pains r swellings, or sores, it greatly assists the cure. -When used where the skin is very tender or broken, it should be mixed with one or two pints of water. A sure test of genuine Brands eth Pills .- Examine the box of Pills. Then look at the certificate of agency, whose engraved date must be within the year, which every authorised agent mustpossess; if the three labels on the box agree with the three labels on the certificate, the Pills are true-if not, they are false. Principal office, 241 Broadway, New York.

IMPORTANT FACTS. DR. LEIDY'S Sarsaparilla Blood Pills are applica-ble in all cases, whether for Purgatives or Pu rification, They possess all the boasted virtues of chans, and Dealers in Pittsburgh Manufacturd Ar other pills, and are additionally efficacious, containing ticles, No. 29. Wond street. Sassaparilla in their composition, which is not contained in any other pills in existence. They are also different from other pills in composition, being purely osgetable, and can be employed at all times, without any danger, and requiring no restraint from occupation rusual course of living. Notwithstanding Dr. Leidy never pretended his

Blood Pills would cure all diseases, yet it is not saying d by them in every variety and form of disease (cor tificates of many of which have been published from persons of all denominations, physicians, clergymen, and others) that they seem to be almost universal in their effect; and persons using them for whatever sick mess or disease, may rest assured that they will be found racre efficacious than any other pills in axistence.

From the known reputation of Dr. Leidy's Blood
Pill, it is necessary to remind the public where they can at all times procure the genuine, as it is attempte to impose other pills, called the Blood Pills' upon the public on the reputation of Dr. Leidy's. Be particular and ask for Dr. Leidy's Satsaparilla Blood Pills and see that the name of N. B. HON. R. J. WALKER, or MISSISSIPPI, RELATIVE TO THE

ANNEXATION OF TEXAS. reply to the call of the People of Carrol Course ty, Kentucky, to communicate his views on that subject. [CONTINUED.]

the reannexation of Texas, according to the largest estimates, will add but one-seventh to the extent of o territory. The highest estimate of the area of Texas is but 318,000 square niles. Now, the British territory tory, on our own continent of North America, exclu-sive of the West Indies, and north of our northern boun dary, is 2,800,000 square miles, being 500,000 more than that of our whole Union, with Texas united. In deed, we may add both the Californias to Texas, and unite them all to the Union, and still the area of the ernment of extensive territories, and that a confederney of States must be compressed within narrower limits? Of all the forms of government, our confedersy is most especially adapted for an extended territory and might, without the least danger, but with increased security, and vastly augmented benefits, embrace a con-tinent. Each state within its own limits, controls all its local concerns and the general government chiefly those which appertain to commerce and our foreign relations. Indeed, as you augment the number of states the bond of union is stronger; for the opposition of any one State is much less stangerous and formidable, if confederacy of thirty States, than of three. On this subject experience is the best test of truth. Had the Union been endangered by the advance in the number of States from thirteen to twenty-six? Lock also at all the new States that have been added to the Union since the adoption of the constitution, and tell me what one of all of them, either in war or peace, has ever failed most faithfully to perform its duties; and what one of the government, or the dissolution of the Us-nion? No rebellion or insurrection has ever raissed its banner within their limits, nor hase traitorous or union-dissolving conventions, in war or in peace, ever been assembled within the boundary of any of the new States of the West; but in peace, they have nobly, and faithfully performed all their duties to the Uniona and in war the spirit of party has fled before an ardent patriotism, and all have rushed to the standard of their THE subscriber has just received from the Nur-ery of Landreth and Fulton, near Philadelphia, and the lakes of the North; from the banks of the and the Mississippi, from the snows of Canada to the sunny plains of the South-the soil of the Union is watered with the blood of the brave and patriotic citpersuade us our territory and population will be too great to permit the reannexation of Texas? Here is one menarchy, (the British empire,) nearly four times as large us the United States, including Texas: and one monarchy and three despotism com ed, largely more than ten times, our areas also including Texas; and to a sert, under these circumstances. that our government is to be overthrown or andangered by an addition of one-seventh to its area, is to adopt the exploded argument of kings and despots against our system of confederated States. President Monroe, a citizen of one of the old thirteen

States, in his message of 1823, thus speaks of the ef-fects of the purchase of Louisiana: "This expansion of our population, and accession." if new States to our Union, have had the happiest ofect on all its highest interests. That it has eminently ugmented onriesources, and added to our strength and respectability as a power, is admitted by all. It is manifest, that by salarging the basis of our system and increasing the number of States, the system itself has been greatly strangthened in both its branches. Com, solidation and distunion have thereby been rendered. equally impracticable. Each government, confiding

in its own strength; has loss to apprehend from the other; and in consequence, each, enjoying a greater reedom of action, is rendered more efficient for all the purposes for which it was instituted." It is the ystem of confederate States, united, but not consoliduted, and incorporating the great principle which led to the adoption of the constitution—of reciprocal free trade between all the States—that adapt such a govrument to the extent of a continent. The greater the extent of territory, the more enlarged is the power, and the more augmented the blessings of such a governs ment. In war it will be more certain of success, and the country. Having a large and commodious Ware- therefore wars will be less frequent; and in peace, it house for storage, and other facilities for the prompt will be more respected abroad, and enjoy greater advantages at home, and the less unfavorable will be the influence on its prosperity, of the hostile policy of foreign nations. It may then have a home market, which, as the new and exchangeable products of va-rious soils and climates are augmented, will place its industry less within the controlling influence of foreign powers. Especially is this important to the great manufacturing interest, that its home market, which is almost its only market, should beenlarged and extended population, embraced within the boundaries of the Union, and therefore constituting a part of the demestic market. By the census of 1840, the total product of the mining and manufactures of the Union, was \$282,194,985; and of this vast amount, by the treat sury report, but \$9,469,962 was exported, and found a market abroad. Almost its only market was the home market, thus demonstrating the vast importance to that great interest of an accession of territory and population at home.

Nor is it only the mining and manufact ring inter-

rapidly augmenting home market; but agriculture, commerce and navigation, the products of the forest and fisheries, the freighting and ship-building into cast for the transaction of all business relative to Real would all feel a new impulse; and the great would all feel and t s well as renting of city and country property, edilect- transporting our own exchangeable produc rents &c. &c.
