Asheries, distinguishing the articles thus exported, and their value. With these facts before us, which areallofficial, let us proceed to the examination of the the great question. Our chief agricultural exports to the great question. Our chief agricultural exports to Texas, as the table shows, were pork, ham, bacon, portion also exists as regards the crews, and also in the beef, butter, choese, flour, bread, and bread stuff, amounting to \$163,641. In looking at the census of amounting to eros, or in the same and section, and the 1840, the population of each state and section, and the amount of, those products in dish state, we will find the United States from Texas, in 1839, eighteen enly, sthat the chief surplus of these products, reised for sale boyond their limits, were in the middle athes, composed the thoreign vessels only sleared from the United States of New York, New Jersey, Pennsylvania, Delaware, in that year for Texas, out of 4,636; showing that our and Maryland, including the District of Columbis; and Maryland, including the District of Cotumols; inde with lexas. In 1839, stood nearly upon the foot-aid in the northwestern states composed of Missouri, Kentucky, Ohio, Indiana, Illineis, and Michigan, in-cluding also Wisconsin and Iowa. The middle and the large number of American crews concerned in the northwestern states derived, then, the prnoipal profit trade with Texas, and the great amount of wages they in the sale of agricultural products to Texas. In the must have earned, let us now look at the states which sale of domestic manufactures to Texas, the New En-gland states came first; and next in their order, the ship of domestic manufactures to their order, the number of persons employed in navigating the ocean gland states came first; and next in their order, the number of persons employed in navigating the ocean middle and northwestern states; and in looking at the war 56,021, of which number 45,154 were from New principal items of which these exported mannfactures principal items of which these exported mannfactures to Texas were composed, I find that of the surplus pro-Massachusetts stood first, and then Maine, and next in principaliteins of which that of the surplus pro-to Texas were composed, I find that of the surplus pro-duced and sold to Texas, Massachusetts stood first, their order, New York, Connecticut, Pennsylvania, and-Pennsylvania second Next as to commerce, as Rhode Island, Louisiana and New Jersey. In looking ected with Texas, the middle states stood first, also, to the states which owned the tonnage employ wand then the New England and northwestern states; in this navigation, we find, by table No. 4, from the and then the New York stood lirst, Massachusetts second, treasury report, that the New England States stood and next Pennsylvania, Maryland and Ohio. But here first, and then the middle States; and that the lorgest we mast remark the special interest which Louisiana, through her great port of New Orleans, has in com-ther order, by New York, Maine, Maryland, Peensylwhere do connected with Texus. The total products vania, Louisiana, Connecticut, and New Jersey. Trem commerce in Louisiana in 1840 were 7,868,898, When we consider the products of the fisheries conbeing one-tenth that of the whole Union, and consequently the interest of New-Orleans, as connected with the ro-annexation of Texas, must soon be mensured by action must greatly augment our mercantile marine, millions overy year. The great city of New York, in-to which was received, in round numbers, one hundred millions of the one hundred and forty-three millions of hardy seamen, to detend, in war, our flag upon the allour imports in the year referred to, and one-third of sea. the exports, has a vast and transcendent interest in this question; for it is, in truth, a question to be sottled The Daily Morning Post.

in our favor by the re-annexation of Texas, whether New York or Liverpool shall command her commerce. Noxt as to the products of mining, the middle states stand first; and next, the northwestern and New En-gland states. And here Pennsylvania stands at the head of the list having \$17,666,146, or nearly one-built of the whole mining interest of the Union. Texas, having no mines of coal or iron, must become a vast consumer of the products of the mines of Pennsylvania. In cables, bar-iron, and nails, and other manufactures of our iron, Texas imported from us in the

H.A.MUHLENBERG year referred to, to the value of \$120,184. Now, c cust iron, Pennsylvania produced, in 1840, 98,395

amount produced in rennsylvania was 57,243 tons, being very nearly one-half of the whole produced in the Union; and next came New York, with 63,693 tons, or more than one-fourth of the whole; and then Ten-the whole; and then Ten-the would afford greater protection than was the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and next came New York, with 63,693 tons, the union; and that Mr Clay is strongly opposed to any the union; and the your York New Jersey Massachured mutual confidence and tran-transfit that would afford greater protection than was

with the valuation of the considered also with series of considered also with the value of the the valu

Up to a certain point of destiny, an agricultural State. This committee met, and was immediately statuted by with a rish soil, advances most rapidly; but when all the lands are cleared and cultivated, this augmenta-tion ceases. It is otherwise, howover, with a State in a moment, by moving that each committee should Spain by land. This, it is thought, will cause another possessing, throughout nearly every portion, inexhaus-tible mines of coal and iron, and wonderful adaptation to the same report, it should be carried into each to the manufactures. There, when the soil has been fully cultivated, the development of the mines and manu-factures, and the commerce and business connected factures, and the commerce and business connected factures. with them, only fairly begins. Agriculture is limited Mr Clay threw himself into the door and said, "gentle-by the number of acres; but for the products of mines men, you shall not go out of this door till you have act-and manufactures, such as remaining that the mar-ther boundaries, there is no other limit than the mar-kets she can command; and this is not merely theory, but is demonstrated by the comparative progress of the various nations of the world. Look, then, at the great amount—certainly not less than three hundred thousing dollars—of the products of the industry of

the various nations of the volta. Look meeting of the volta is then three hundred thousand dollars—of the products of the industry of the one will be accessed in the repuisited, not debts, but discussed in natural advantages, beauty and subbrity by any population less than two hundred thousand in 1839, and when those products were, to a considerable extent, excluded by the then existing tariffor Texas, and without which she certainly would then have cousumed in the products of the industry of pair of carrying it through; but, at the crisis, and without which she certainly would then have cousumed at least half a million of the products of the industry. But in ten years succeeding the reannexation, at the square mile of the other new States, she would contain a point is the square mile of the other new States, she would contain a point of the other new States, she would contain a point of the other new States, she would contain a point of the square the compromise act was not gained without difficult. pulation of two millions; and consequently consume five millions of the products of the industry of Penn-amongst them the lamented Judge White, then a Sensylvania, or one-fifth of all the surplus products of the raines and manufactures of that great State, sold be-sion, and even threats before they were successful." This is Mr Clay's latest declarations upon the comyond her limits in 1840. The principal products of Texas will be cotton and sugar, and besides the iron

This is Mr Clay's latest declatations apart in the selves but to Humanity. promise bill—we have its full history here from hime selves but to Humanity. The Rev. Mr Stuart, formerly I think of Westfield, used in all agricultural implements, us well as in the self, and we presume he tells the truth in regard to the Ohio, is on the Domain, and is a member, and a most manufactures consumed by an agricultural people, the means used to effect its passage. According to himself use of iron in the cotton and sugar mills is very great-there all the great iron apparatus and machinery con-there all the great iron apparatus and machinery con-there all the great iron apparatus and machinery con-the was the principal man in fastening this measure on able I was much pleased with his discourse on noted with the cotton gin and press, and the iron builes and kettles and grates and furnaces used in the even threats were used to induce Gen. Jackson to country around. Such sermons as he delivered, are making of sugar, is greater than in any other employ-ment. Together with this, is the steam engine, now universally employed in making sugar, and being emgive it his sanction.

ployed also in the ginning of cotton; and the iron that must be used by Texas, as she developes her resources, must be great indeed; and the question depending on the reannexation, is, whether Texas shall become a fident that in him the nullifiers of the south would find a large enough for the numbers who have joined the Aswart of our home market, and whether England or sylvania and other States, shall supply her wants

A here is another fact which must lead to a tast con-sumption of coal in Toxas, and that is this: that from the barks of Red river to the coast of the gulf, except-ing only the cross timbers, and some other points, abiefly along her streams, Texas is almost exclusively a prairie country; and yet. (what is not very usual, ex-copt in northern Illinois, and some other portions of the West,) the soil of the prairies is inexhaustibly for-tile. From these causes wood and foremasylvania and other States most find a market there of almost incalculable There is another fact which must lead to a vast con-States most find a market there of almost incalculable the south.
